(1) Chowliagunj village road was reconstructed at a cost of Rs 143-2-8 This road leads from No 2 bridge of the Taldanda canal, near the end of the Taldanda loop road, through the village of Chowliagunj to the 2½ miles of the Taldanda road The works consisted of levelling the road, cutting drains, and in the village sand-metalling the surface of the road Stagnant water used to stand in the centre of this large village, and the people had to walk through slush and slime during wet weather This outlay has greatly improved the road, which has now a hard surface, and is drained fairly well The second was a grant of Rs 300 (of which Rs 299-5 was spent) for the repairs and reconstruction of the Patpore and Domepara road This road connects the Rajah's house and village of Domepara with the 17th mile of the Cuttack and Somepore road A small timber bridge has been made, the jungle cut, and the road cleared, levelled, and smoothed The total amount expended by me in Cuttack thana was Rs 443-7-8 In the Jugutsingpore thana Rs 32-12-8 was spent in Rughoonathpore, Rs 80-8 in Somepore, and Rs 325 in Tarpur village roads The first was repairs to a road constructed some time ago between Rughoonathpore and the Taldanda road, only a short road, the work consisted of earthwork dressing and turfing, Rs 80-8 In the Somepore road the work was for constructing the existing track between the village of Somepore and the Taldanda road, joining it opposite the bridge on the Somepore lock of the Taldanda canal. The work consisted chiefly in raising the road, skirting the blind *gore*, and carrying it up to the road through the slush caused by the percolation water from the canal The zemindar has promised to make a bridge across the water channel that crosses this road near the village

(2) The Tarpore village road was a road proposed by the Superintending Engineer It connects the Taldanda road with the Tarpore lock of the Taldanda canal; the traffic crosses the canal by the lock bridge and the river on the other side by the ferry. The work was urgent, and was put in hand very late in the season, and as the allotment for this thana was nearly expended, the amount of this estimate, viz Rs 325, was asked to be allowed to be transferred, as the work was urgent Six contractors were put upon it, and the work was nearly complete at the end of the year, so I asked to be allowed to draw the amount according to

the estimate, and to send in the contractor's receipts with the voucher when the work was complete This was done, and I have submitted the contractor's receipts attached to my voucher The work consisted of earthwork in embankment, sand-metalling the surface, and dressing and turfing the slopes. I am afraid that before this road is made passable in all weathers a small timber bridge of about 10 feet span, at a cost of about Rs 120, will have to be made to pass the drainage that passes between the canal and the road The total cost of work executed in Jugutsingpore thana amounted to Rs 438-4-8. In the Sahpore thana I submitted estimates for four roads amounting to Rs 523, and executed work costing Rs 517-0-3. The first work was for the repairs to the existing road between Kolia and Kendupatna lock of the Kendrapara canal Kolia is on the Chandbally road This road was made by one of the Executive Engineers in charge of the Beropa division, and runs upon the berm of a distributary I asked permission of the late Mr Campbell, Executive Engineer, Beropa-Brahminee division, to be allowed to keep this road open, and when granted I repaired the cart tracks and raised the road in the low parts The work consisted chiefly of earthwork, a little turfing was done, and a wooden pipe was set to carry off some of the drainage The irrigation channels from the distributary cut the road up very much, and to prevent this numerous shoots will be required, but the road answers its purpose well enough as it is The next estimate was for the reconstruction of the Sookerpara and Poobhansi road This road takes off from Sookerpara outpost, on the 25th mile of the Chandbally road, and passes through two large villages and ends at Poobhansi ferry across the Kendrapara canal, about two miles below the Lokenathpore lock The work consisted of earthwork, dressing, and turfing, and the construction of a timber bridge on piles The road is now passable in all weathers, as it has a timber and masonry bridge upon it It is an important road, as a number of pilgrims attended the temple at Poobhansi

(3) The next estimate was for the construction of a road in Mudhoosudanpore This was simply for the improvement of the existing cart track, and is an expenditure of Rs 66 for a local road

(4) The next and largest estimate, viz of Rs 251, was for the construction, reconstruction, and repairs to the roads in and around the large villages of Santrapore and Rughoonathpore The road or track between Rughoonathpore on the Mahanuddy river-bank, where there is a hât and police outpost, to Santrapore, was repaired and reconstructed in parts This road is now passable during dry weather, but during heavy rains and floods the drainage and spill water passes through between the two villages A bridge of about 25 feet span from and to the high ground on either side of the channel would make the road passable in all seasons Rs 150 to Rs 200 would be well laid out in constructing this bridge Palmyra trees are available, and but little timber will be required The road through Santrapore was repaired, and in parts reconstructed The jungle and encroachments were cut down some years ago and sold by auction, and the proceeds were to go towards the repairs of this road The amount, Rs 56-11-0, has now been credited to the road-cess funds A road was constructed from Santrapore to the school, which is situated on high ground near the bank of the Mahanuddy river In the Tirtole thana, in the sudder sub-division, no roads were estimated for or constructed by me This report does not include the Rs. 500 given by the Collector and Chairman to the Irrigation Department to cut the jungle and clear away snags from the banks of the tidal rivers and creeks near False Point, the allotment made by the Collector and Chairman to zemindars and others for village roads in the sudder sub division, the works executed in village roads by the sub committees of Jajpore and Kendrapara, nor the allotment made by the committee to the Irrigation Department for the improvement of creeks and khals

17. I submitted an estimate for Rs 5,000 (which I saw could not be spent on the last nine miles of the Chandbally road) for metalling the worst part of the first portion, that is from the 5th to the 9th mile, which is of pure sand, and is very heavy for cart traffic during the dry season, when the traffic is greatest When this estimate was submitted (after the receipt of the Government letter refusing to take over the Chandbally road), the committee said that it was a great sum to spend at once, and that they would sanction Rs 4,500 for metalling the worst parts of these miles, so I revised the estimate and submitted one for Rs 4,629, which was sanctioned by the committee, provided that it was passed by the Superintending Engineer and approved of by the Commissioner The Superintending Engineer passed the estimate as an estimate, but doubted the advisability of improving any part of the road above the average, as the laterite metalling would He stated that in the Madras Presidency they had a way of sand-metalling which he thought should have at least a trial here, and drafted an estimate showing smaller expenditure in improving the same portion of the road. The method proposed by him was excavating nine inches or a foot of the surface of the road to the width required, of filling in and ramming firmly two-thirds or three-fourths of the excavation with stiff clay, and forming a surface over this with a portion of the sand excavated This, if well-kept, would make a very good unmetalled road Of course it cannot be compared to a metalled road, but it is cheaper both in construction and maintenance. The Commissioner approved of my estimate for metalling, but suggested that the committee should consider the Superintending Engineer's method of improving the road The matter being again referred to the committee, they withdrew their sanction to my estimate, and ordered that an estimate should be submitted for improving the road after the Superintending Engineer's method I think that the method is well worth the trial, but I do not agree with the Superintending Engineer as to the advisability of improving this portion of the road above the average I think that this portion of the road should be decidedly the best as the traffic returns on the Chandbally road show the traffic increases rapidly as it nears Cuttack, until at Khyra bridge, which is at the 5th mile of the road and at the 2nd mile of the

Kendrapara canal, the cart traffic amounts to 1,838 carts a week passing to and fro, while at the 12th mile it is 1,282

At the 16th mile it is	2,346*	carts		
„ 20th „ „	763	„

* The extra traffic on the 16th mile is due to the Mahenga road, which takes off here

This is per return taken in last May I am exceedingly sorry that I have not been able to spend more than the small sum of Rs 16,551-0-9 in original works during the year

18 In the repair and maintenance of the roads in the district for the year 1877-78, I will take them according to their importance, or as I have placed them in my new list

The Cuttack and Chandbally road had an allotment of Rs 5,537, and a supplementary allotment of Rs 372 was asked for to cover a supplementary estimate submitted by me for sand metalling the surface of the portions of the road that are in stiff clay, that is to say, to the portions of the road to which sand could be brought from a short distance The Collector and Chairman proposed that the repairs should be executed by the establishment or a permanent staff of coolies In accordance with this idea an estimate was submitted, amounting to Rs 3,818 This was passed, but when appointing the men it was thought easier to put extra men on them to reduce them, so, instead of the estimated number of 45 coolies, 12 sirdars, and 2 mohurirs, 37 coolies, 9 sirdars, and 2 mohurirs were appointed These men formed nine gangs at five miles apart from the 3rd to the 50th mile Each gang had a hut, tools, and badges allotted them At first they did not know what to do, and the mohurirs did not know how to instruct them They began by throwing up any amount of earth on the road, filling in all the ruts, and raising the road unnecessarily, but after going once or twice over the road, and showing them that raising the road was of no use, as the stuff thrown up was soon ground to dust and blown away, they began to comprehend what was required of them, so they cut the ruts down, smoothed the road and levelled it, and kept on filling in the ruts with wet clay and ramming them until they had it in perfect order I have been in this district for seven years, and have known the Chandbally road for five years, and have never seen it in such good order as when I last saw it from Cuttack to Pattamundie The estimated cost of the establishment, with huts, tools, and contingencies, was Rs 3,818, and the actual cost was Rs 3,014-1-5 Beyond Pattamundie the road was repaired in the ordinary way, the ruts and breaches were either sloped or filled in as it seemed necessary But the work was put in hands rather late in the season, as the traffic had commenced This work consisted chiefly of earthwork, turfing, removing hoonkies, cutting jungle, and sand metalling I found the sand-metalling such an improvement, that I prepared and submitted supplementary estimates for sand metalling the most important roads, and Rs 372 was granted for this work on this road The total amount expended in sand-metalling was Rs 565-1-9 The unexpended amount from my estimate for establishment I asked to be allowed to be spent in repairing the metaling on the 3rd to the 5th mile This was granted, so I spent Rs 621-11-9 in putting these two miles in thorough good order The metalling and tree planting have immensely improved these two miles What was formerly a barren, hot, sandy waste, is now a cool and delightful road The total cost of repairs to the Chandbally road was Rs 5,558-4-1 Rs 600 were estimated as the probable cost of repairing and maintaining the four inspection bungalows on the Chandbally road The total cost was Rs 667-11-6,—Rs 17-11-6 above the estimate This is accounted for by the Doorga Poojah holidays commencing at the end of the year and running on for ten days in the next month Permission was granted to draw the pay of the establishment on the 30th, so the chowkidars were paid up to date thirteen months' pay instead of the twelve months' pay estimated The causeways on the Chandbally road were repaired at a cost of Rs 704-2-6, the estimate, Rs 700 The actual work done was far more than was estimated As the estimated rate for metalling was Rs 5-12, and the work was done at Rs 4-12 per 100 cubic feet, I got the metal cheap from the old clamps belonging to Messrs Stoney and Co The bridges required but little petty repairs, and this was done and charged to contingencies on causeways

No 1—The Taldanda road, the unmetalled portion from the 1st mile to the 6th mile, the estimated amount was Rs 750, the total cost of repairs Rs 721-6-6 The work was fairly well done, the bulk of it was in the 2nd and 3rd miles, which were neglected the previous year On the Taldanda road, from the 6th to 12nd mile, called the unmetalled portion, Rs 1,779-9-10 was spent in repairs The estimate was Rs 1,050, and a supplementary estimate of Rs 646 was granted, making a total of Rs 1,726 This work exceeds the estimate by Rs 52-6-2 This is on account of my having had *kusee kutta* planted on the drift sand that was gradually being blown over the road at the 10th mile The road had to be diverted once already on this account and when the Collector saw this part of the road, and saw the sand still being moved on, threatening to cover the road again, he asked me to have it planted with this *kutta*, and as this was not estimated for, it was not done until I saw the road at the end of the rains I then ordered it to be done in spite of my estimate being exceeded thereby If the *kutta* should thrive it will entirely prevent the sand from drifting The estimate for the repairs of the four inspection bungalows on the Taldanda road was Rs 500, and the cost Rs 517-7 The excess is again attributed to the chowkidars being paid for 13 months, when only 12 months' pay was estimated for

(*No* 4)—The repair estimate of the Koakhia and Jajpore road amounted to Rs 565, and Rs 559-9-2 were expected on it The causeways were not estimated for No sand-metalling

is required on this road The parts that were greatly breached are in the 4th and 5th miles The road surface was cut down Where the causeways were washed away the sides were sloped, and around the large breaches on the ninth mile a diversion was made of about half a mile in length A ferry was placed by the sub-divisional officer of Tajpore to pass the traffic around these breaches during the rains and floods

(*No* 46)—The estimate for the repairs of the first 20 miles of the Somepore road amounted to Rs 1,099, and the total cost of the work was Rs 1,137-5-11, Rs 38 5-11 above the estimate On the 3rd and 4th mile, just across the river Katjuri, the zemindar allowed the Collector and Chairman to divert the road, as the then existing road and the end of the Ganjam road had been washed away by the encroachments of the river The zemindars allowed us to construct a road from a ramp leading into a village on the right of the Ganjam road through some waste land, skirting the village on to the Somepore road The contractor who made this diversion had cut up the zemindar's land unnecessarily, so I had to fill in the pits and to sand-metal the surface of the new road, and hence the estimate was exceeded The repairs to this road consisted of earthwork, repairs to bridges, repairs to the two bungalows, with the pay of chowkidars for nine months, jungle cutting, setting milestones, turfing, a little metalling, and contingencies Where the road passes over the hills huge stones and boulders are strewn, and it is difficult for a horse or cart to pass These stones will have to be blasted and removed, and the surface of the road either metalled or covered with soil.

(*No* 6)—The estimate for the Fukirpara and Machgong road amounted to Rs 840 A supplementary allotment of Rs 408 was granted for sand-metalling Rs 1,329-9-4 were spent on repairs to this road, exceeding the estimate by Rs 81-9 4 This is accounted for by the sand, earthwork, and the pay of the chuprassi exceeding the amount estimated

The road when repaired was in very fair order, but was cut up again badly last rains. The sand-metalling on this road will not prove a success unless it is continued on for one or two years I am sorry to say that from the 27th to the 38th mile the road is not passable for carts during the rains This is on account of the causeways being destroyed The causeways on this road are not protected by masonry, and when the river embankment was breached, the whole of the metalling was carried away and the causeway channel was widened and deepened In 1876 77 I attempted metalling these breaches, and Rs 550 was spent, but this only made the road passable during the dry season, and last year, as I had no allotment for causeways, I simply dug up the old metal and repaired it so as to obliterate the ruts that were made in it in the dry weather These things will not answer as causeways, for when there is much water on the country, there is about 3 feet 6 inches to 4 feet 6 inches of water standing on the what is supposed to be a causeway The first part of the road is all right From the 10th mile at Fukirpara to Jugutsingpore and a little below it, 27th mile about, the road has culverts, and if the road is required to be made efficient throughout, small bridges or large culverts will have to be made in the place of the causeways above mentioned Rs 160 was allotted in the budget for the rent and pay of the chowkidar of the Jugutsingpore bungalow on the Machgong road The pay of the chowkidar for 13 months and the rent of the bungalow for 11 months, at Rs 10 per month, amounted to Rs 152 4 The committee have since decided on not continuing to rent this bungalow, as the Public Works Department intend maintaining an inspection bungalow at this place

No 41—Rs 400 were estimated for the repairs of the Jobra and Chowlagung road, and the cost was Rs 397-14-6

No 3—Rs. 100 were estimated and spent on the repairs of the Taldanda loop road

Nos 9, 16, *and* 29—Last year I lumped the three roads, Jajpore and Binjarpore, Binjarpore and Indpore, and Indpore and Kendrapara, into one estimate, calling it Jajpore and Kendrapara road. The estimate for the repairs of these roads amounted to Rs 750, and Rs 808-2-9 was spent, exceeding the estimate by Rs 58-2 9 The excess is due chiefly to earthwork in approaches to the timber bridges Rs 270 were estimated for the repairs of these bridges, and the cost was Rs 106-6

No 17—Rs 550 were estimated for the repairs to the Indpore and Pattamundie road, and Rs 532-14 3 was expended

No 15—The road called Birnan to Indpore is really a road between Birnan and Kalimatia, and I have so called it in my new list The estimate for the repairs of this road was Rs 470, the budget allotment Rs 530, and the expenditure Rs 445-13 8 The road is badly breached

No 18—Rs 180 were estimated for the repairs of the Jugutsingpore to Jajpore road, and Rs 179-15-11 spent This road is not raised, and so is in constant want of petty repairs Not only the spill water of the country, but the excess water from the Machgong canal distributaries, is allowed to pass over it The ryots also cut channels across it for irrigation or fishing A good deal of traffic passed from the 5th mile to Jajpore last year

No 7.—Rs 115 were estimated for the repairs of the Mahenga road, and Rs 114-15 6 was expended The same remarks apply to this road as to the Jugutsingpore and Jajpore road

No 44—Rs 90 were estimated for the repairs of the first three miles of the Kendrapara and Goolra Hât road, and when the sub-divisional officer of Kendrapara petitioned the Collector and Chairman for a timber bridge in the place of a rotten structure he had put up at Thakur Mahapatra, about the 4th mile of the road, I was ordered to construct a bridge, and the cost would be allowed, and the amount transferred from village road funds, so I rebuilt the bridge with some of the old timber and new palmyra piles and sâl beams at a cost of Rs 143-7 10, which was transferred Rs 10-4 was afterwards expended in making up approaches, turfing slopes, &c. The total estimate sanctioned for this road was Rs 233-7-10, and Rs 233-0-1 was spent

No. 19.—The Jugutsingpore and Soojanj and the Rughoonathpore and Sriloh roads I have now called as one road from Jugutsingpore to Sriloh, though from Sriloh to Rughoonathpore is

not connected The estimate for the above two roads was Rs 160, and the amount expended upon them was Rs 127 The portion not connected should be made as soon as possible, as the road would then open up this part of the country, and would connect the Taldanda and Machgong roads.

No 3 —Rs 680 were allotted in the budget for the repairs of the Madhub road, but as that road was transferred to the Pooree district in April last, only the chowkidars were paid, their seven months' pay amounted to Rs 42, so Rs 638 were saved on this road

No 8 —Rs 60 were allotted in the budget for the repairs of the Kendrapara loop road, as this work was done in the year before, and not paid for as it was badly done, the sum was allotted in the budget The work consisted in painting the hand-rails of the Gopia nullah bridge, the work was again estimated for, and when re-done was paid for before the road and bridge were handed over to the Kendrapara Municipality

19 Rs 312 were allotted in the budget for the maintenance and repairs of the accommodation and jolly boat (for the use of the District Engineer) The permanent establishment of manjhees employed the year before was dismissed with the exception of two men, and the District Engineer was allowed to employ manjees whenever he required the boat The cost of repairs and maintenance of the two boats amounted to Rs 313-5-6

20 The estimate for the repairs of the Ranihat godown for keeping tools, &c, was Rs 60, and Rs 59-14-9 were spent This is the annual expenditure Rs 200 were allotted for tools and plant, and Rs 176-9 6 were expended The purchase of an iron cash-box for the District Engineer's imprest, the purchase of twelve crowbars, and the cost of making a stone roller, are the principal items of expenditure Rs 1,500 were allotted in the budget for planting and maintaining trees on roads Rs 1,200 were estimated as repair and maintenance to trees planted by the District Engineer, and the amount expended was Rs 1,354-2 9, excepting the trees planted on the end of the 5th and on the 6th mile of the Taldanda road The whole of the trees planted out are thriving well, six miles of trees are planted on the Taldanda road The Jobna and Chowliaguny road has trees planted along its whole length The new trees planted from the road-cess garden to the No 2 bridge of the Taldanda canal, along what is called the pilgrim road and the tope at Chowliaguny, the two miles from the 3rd to the 5th mile of the Chandbally road, and the trees in and around the Kendrapara and Jajpore Municipality, are the trees maintained during the past year An allotment from under this head of Rs 120 was made to the sub-divisional officer of Jajpore for trees on his village road, and he has planted trees along the Baligha road The Collector and Chairman has granted permission to plant two rows of jack-fruit trees on the Kookhia and Jajpore road The trees were to be paid for if alive and well during the next year. Excepting these trees, and the trees planted by the sub-divisional officer of Jajpore, no new trees have been planted this year, but all the dead trees have been replaced in all the roads, and they have been well fenced and well cared for, and might now be left to take care of themselves It would have only been waste of money to have planted new trees leaving barely enough to maintain the trees already planted Now that the bulk of the trees planted out are well grown, new trees might be planted

21 I have now only to treat of the establishment I have had under me Mr D'Souza, the overseer, I am sorry to say, does not deserve that rank He has been employed principally on survey work Mr D'Souza's services are of no great help in carrying out the works in the district.

The sub-overseers are Peter Emanuel and Behary Mahanti The former has had charge of the roads in Jajpore sub-division, these roads he has managed to keep in very fair order during the working season

Behary Mahanti has had charge of the Taldanda sub division This includes the Taldanda, Sonepore, Machgong, Taldanda loop, Chowliaguny, Jajpore, and all the village roads in the sudder sub-division south of the Mahanuddy During the working season his roads have been in very fair order I have only had reason to complain of the wretched state of his causeways, but with the great traffic that has been on the road during the past year, and the very small allotment that was allowed for repairs, it is not to be wondered at that with the rapidly increasing traffic the causeways will have to be repaired or the metalling renewed every instead of every other year, as it is now

The mohurrirs were Berma Nund Mahanti and Bancha Nidhi Mahanti The former has had charge of the Kendrapara sub-division, the Chandbally road, the Pattamundie road, Kendrapara, Indpore, portion of the Jajpore and Kendrapara road, the Mahanga road, the Gobra Hât road, and the village roads of the sudder sub division north of the Mahanuddy He has had two temporary mohurrirs under him in superintending the Chandbally road I have been perfectly satisfied with the way in which this man has carried out his works

Bancha Nidhi Mahanti has been employed under sub-overseer Behary Mahanti, and has since been in charge of the road-cess and municipal office One chowkidar, in charge of the tools at Ranihat godown, and three permanent peons (of which only two were employed) composed the rest of the permanent establishment on works The committee have since dismissed one mohurrir and one peon Of the office establishment the head clerk and draughtsman, Baboo Juggobundhoo Dass, has given me every satisfaction.

The accountant clerk, Baboo Mohendronath Palit, in his work during the past year has shown great improvement, and has pleased me His accounts were well kept, and he has been tolerably punctual. The committee have decided upon dispensing with his services and making a clerk in the collecting office do his work I don't think that this is advisable, as the man has been at great pains to learn his work Another man will take quite as long as this man did to learn the work. Nothing handicaps an officer more than altering his office establishment I would strongly advise that he be reinstated, especially as the committee have changed their engineer at the same time.

In conclusion, I have to thank the committee for their kindness to me.

Explanatory memorandum to accompany the annual accounts

(*a*) The figures shown in this column have been taken from the budget estimate submitted with this office No 183, dated 25th July 1877, and approved of by the Commissioner in his No 192RC, dated 3rd August 1877

(*b*) The difference of Rs 6,000-3-5 is attributable to the non recovery of arrears of cess at the end of the year, strict measures for the speedy recovery of which have already been taken, as prescribed in Rule 11 of the Board's rule for the collection of cess

(*c*) The second instalment of house-cess was not realized during the year, as per Board's No 266A, dated the 23rd April 1878 hence the difference between the estimated demand and the actual collections

(*d*) This amount is due for the previous year, but realized during this year and credited into the fund *Vide* Government circular No 73 dated 20th August 1877

(*e*) The excess is attributable to the receipts marginally noted, which were not taken into account at the time of the submission of the budget

	Rs A P
Process fees	755 4 10
Contribution received from the Municipality	1000 0 0
Total	1755 4 10

(*f*) The difference between the amount as per budget allotment under the heads of original works and repairs is attributable to certain transfers made during the year under review from original works to repairs, and *vice versâ*, with the sanction of the Commissioner

(*g*) The excess of Rs 1,000 from the original budget is attributable to the receipt of the same from the Municipality as contribution for a part of the road cess office room occupied by its establishment.

No 402, dated Pooree, the 14th November 1878

From—J S ARMSTRONG, Esq, C S, Collector of Pooree, and Chairman, Road-Cess Committee,

To—The Commissioner of the Orissa Division

I HAVE the honor to offer the following report on the operation of the Road-Cess Act in this district during the cess year ended on 30th September 1878

23	Jagirdar of Malud	0	9	9

Baboo Mahanand Gupta, late Vice-Chairman, having been transferred to Balasore in June last, Baboo Ram Chand Addy was elected Vice-Chairman in his place Out of the members shown in the above table, Mr W R Green, District Superintendent of Police, was transferred in November 1877, Mr H Beck ceased to be a member of the committee from August last, under Government orders No 3164A, dated 1st July 1878, and Mohant Ramkisto Romanuj Das died Twelve members have completed their two years' tenure of office under section 49, and the Collector will be requested to consider the question of recommending them for reappointment They are Nos 7, 8, 10, 11, 12, 13, 16, 18, 19, 21, 22, and 23

3 There were nine meetings held during the year under report, in all of which there was a quorum. The Chairman presided over all the meetings except one The Executive Engineer of Orissa Division, Mr Scott, attended only one meeting, and Mr Macmillan, the Executive Engineer of the Irrigation Department, presented himself at two The absence of these two professional gentlemen from most of the meetings is a matter of regret The attendance of Baboo Tarakant Bidyasagar was most satisfactory, while that of the Rajah of Parikud, Baboo Bhagwan Ratsing, Panda Ramkisto Patjosi, and the Jagirdar of Malud, was quite discouraging

4 The following members deserve special mention for having taken interest in the transaction of the committee's business —

Baboo Tarakant Bidyasagar.
,, Ram Chand Addy
Mohant Narayan Das

5 A statement of the attendance of members, as required by Government order No 1286, dated 13th March 1876, is annexed The working of the district committee was satisfactory

6 *Branch Committee*—There were no meetings of the Khorda branch committee during the year under report This was owing to the inability of the district committee to supply them with any funds to start village works in the sub-division, as they had to make heavy expenditure on famine relief works But it will nevertheless be apparent that the Pooree committee expended their funds freely within the sub-division of Khorda on the larger works

7 As detailed below, the aggregate receipts of the year under the several heads amounted to Rs 25,950 10-3 —

	Rs	A.	P
Balance of last year	4,146	13	4

9 *Repair Works.*—The details of the amount spent on repair works are as follows —

Repairing the village roads .	38	0	0
	8,043	4	0

10 The road from Athar nullah to the sea-beach was transferred to the road-cess department in April 1877, and a sum of Rs 2,927 was spent in repairing and metalling a portion thereof during 1876-77 It was intended that the remaining portion of this road should be completely repaired during the year under report, but this could not be done partly owing to the incapability of the contractor to stock sufficient quantity of laterite rubble in consequence of the heavy floods last year, which deprived him of the advantage of water carriage, and partly owing to the low state of funds in the latter part of the year The sum of Rs. 757-10-9 spent on this road during the year under report represents the following items —

							Rs	A.	P.
Metalling	815 c ft	at Rs	21-8	per	100 c ft		199	10	9
Earth	48,000 „	„	2	„	1,000	„	96	0	0

Watering a portion of the road completed during 1876-77							145	0	0
Contingencies							22	0	0
					Total	...	757	10	9

The road has been again taken up from the commencement of the current year, and the contractor has already stocked materials for its repair

11 Provision for metalling the road from Balugan to Banpore was not made at first in the budget estimates of 1877-78, but the road was subsequently taken up as a famine relief work, and the amount spent on it was sanctioned by transfer, *vide* your No. 228R C, dated 9th November 1877 The length of this road is four miles, and the whole has been completely metalled during the year It has now become very useful for facilitating the wheeled traffic from the interior of the Garjats

12 All other roads, bridges, culverts, causeways, and inspection bungalows of this district are in a fair state of repair

13. *Original Works*.—The total expenditure under this head during the year under report amounted to Rs. 8,270 In the budget of the year under report the sums of Rs 2,000 and

Rs 5,173 were respectively allotted for the construction of a road from Khorda to Patnaikia and a building for the road-cess office But these works were not undertaken during the year, as the sums allotted for them were subsequently transferred to relief works on the Barabcoody and the Balugan roads

14 The details of the amount spent on original works during the year under report are as follows.—

	Rs.	A	P
Remodelling the Delang bridge . .	1,585	9	9
Constructing the road from Barabcoody to Rorang .	5,616	0	0
Contribution to tidal coast canal at the request of Government	1,000	0	0
Constructing the road from Balugan to Banpore . .	68	7	2
Total ...	8,270	0	11

15. A sum of Rs 6,000 was allotted in the budget estimates of 1877-78 for the remodelling of the old Mahratta bridge at Delang But a sum of Rs. 4,974 having been subsequently transferred to relief works at Barabcoody and Balugan, only Rs 1,026 was left to be spent on the bridge in question during the year under report But as it was ultimately found necessary to execute some additional works (construction of a protective bund and removal of detached pieces of old bank of the Noon river) in connection with this bridge to prevent its unfinished works from being endangered by flood, a further sum of Rs 559-15 was sanctioned under your No 3300, dated 16th May 1878, so that the total expenditure on this bridge during the year under report amounted to Rs. 1,585-9-9 The old bridge has been entirely demolished with the exception of the massive masonry platform which formed the foundation and which has been utilized as the foundation upon which five of the new piers have been built The new structure consists of arches of 15 feet span, and the whole of the piers, abutments, and wing walls, have been carried up to the level of the springing line of the arches, *viz* 13 feet above the bed of the river In fact the contractor has executed much more work than what is covered by the amount actually paid during the year, and the cost of this excess work will be a charge against the budget grant of the current year

16 The new road from Barabcoody to Pooree *vid* Narsingpatna was not quite finished during the year under report for want of funds The road was taken up by the committee with the very laudable object of affording relief to the famine stricken people inhabiting the tracts situated between the Chilka lake and the sea, comprising the pergunnahs of Parikud, Malud, Bijrakot, and Manikpatna Prior to the construction of this road carriage of goods between the Chilka lake and the city of Pooree was difficult, except for about four months in the year During these four months the traffic was carried on the old cart track *vid* Rorang to Pooree, but this part of the country is very low, intersected by numerous channels and jheels, and consequently quite unsuited for a road The distance from Pooree to Barabcoody by this new road is about 15 miles, whereas the distance by the old cart track *vid* Rorang is over 20 miles One culvert and a regulating drainage sluice were constructed on this new road.

17 The sum of Rs 68-7-2 on account of the road from Balugan to Banpore represents the cost of work executed during 1876 77, but not paid for in that year, the contractor having failed to appear before the 30th September 1877 to receive the money

Village roads

18 As the committee made a heavy expenditure on famine relief works during the past year, they could not afford money to spend on village roads. Of the sum of Rs 500 allotted for the repair of village roads during 1877-78, Rs 485 was transferred to Delang bridge-work under your No 3300, dated 16th May 1878 The total expenditure under this head during the year under report amounted to Rs 38 only, of which Rs 26 represents the outstanding advances of 1876-77 for the Khorda village roads recovered by work done during 1877-78

19 The annual account for 1877-78 is enclosed in the prescribed form It will be observed that the expenditure of the committee under the several heads shown in the annual account was kept down to the sanctioned amounts, except the cost of collection and field establishments, which exceeded the allotted sums of Rs 154 and Rs 308 respectively This was owing to the pay for September 1878 having been paid on the 28th idem in anticipation of the Doorga Pooja holidays The excess amounts paid will be a saving from the budget of the current year A copy of the annual account has been sent direct to the Examiner of Public Works Accounts.

20 *Office Establishment*—The office establishment consisted of one head clerk, one second clerk, one accountant, and one mohurir The late head clerk, Baboo Nadia Chand Dutto, left the office, being appointed as licence-tax circle officer

21 *Field Establishment*—The District Engineer, Mr. H Beck, gave satisfaction to the committee

22 *Plantation of fruit trees*—On this subject a circular has been received from Government. I laid the circular before the committee, who expressed the utmost readiness to carry out the suggestion

Explanatory notes to accompany the Annual Accounts of 1877 78.

RECEIPTS

(*a*) The difference between the estimated and the actual receipts represents advance collections

(*b*) The decrease in the receipts from house cess was owing to suspension of collection for the second half of the road-cess year 1877-78 *Vide* Board's circular order of 23rd April last

(*c*) The fees of the inspection bungalows having fallen short considerably, there has been a decrease in the miscellaneous receipts

EXPENDITURE

(*d*) The cost of the collection establishment and the contingent charges have exceeded the budget allotment, partly owing to the pay for September 1878 having been paid on 28th idem in anticipation of Doorga poojah holidays, and partly owing to excess expenditure on contingencies sanctioned by the Commissioner The total expenditure of Rs 2,984-9-3 will be verified thus —

শ্রীরামচাঁদ আঢ্য,
Vice-Chairman

No 219, dated Balasore, the 28th October 1878

From—T NORMAN Esq, Acting Collector of Balasore,
To—The Commissioner of the Orissa Division

I HAVE the honor, on behalf of the road-cess committee of this district, to submit a copy of the accounts of the receipts and expenditure of the District Road Fund during the road-cess year 1877-78, as required by section 59 of the District Road-Cess Act, 1871.

2. In compliance with the requirements of section 88 of the Act, the accounts have been examined by a sub-committee consisting of the Vice-Chairman and three members of the committee appointed in its behalf by the committee The names of the members of the sub-committee were—

V W Bertelsen, Esq, Vice-Chairman
Kumar Boidunthanath De
Babu Bhagaban Chandra Das
Babu Akhoy Kumar Chatterjea

3 The accounts, after being passed by the above sub-committee, were submitted to and passed by a meeting of the general committee held this day

4 The original works of the year consist of the opening out of the three new fair-weather roads noticed in the three following paragraphs In addition to this Rs 1,000 have been debited under this head, which have been remitted, under the orders of your office, to the Executive Engineer, Brahmineé-Byturnee division, for the purpose of improving the tidal navigation between the Dhumra estuary and the Poree district

5 The Singla branch road is a short road, half mile in length, affording a communication between the Basta and Balipal road and Singla, which is the site of one of the largest markets in the district, and where there are salt bonded warehouses and a police outpost The construction of this road has satisfied a great public want But on its construction the inhabitants actually collected a voluntary subscription and brought the money to me with a request that no time should be lost in making the road As road-cess funds had been allotted for the purpose it was not necessary to accept the subscription

6 The Uttuneshwar to Gopinathpore road is five miles in length, extending in a north-westerly direction from the Orissa trunk road at Soroh, in the centre of the district, to Gopinathpore, near the foot of the hills Killa Mangalpore, killa Talmunda, and killa Patna, have thus been provided with means of communication These places have hitherto been very backward and inaccessible, they form the principal seat of the well-known stone utensil manufacturing industry The road has been made as straight as possible, and a wide strip of land has been acquired and demarcated The amount of earthwork required to make a good fair weather road has been very small

7 The Jamjhari to Basudebpore road is seven miles and a half in length, it connects the Orissa trunk road at a point seven miles south of Soroh with the large village of Basudebpore, on the old salt road Basudebpore has a police station, it is near the port of Churamon, on the east coast, and the cutcherries of the principal zemindars of the neighbourhood are situated close by This road is accordingly of immense advantage for administrative purposes, for the purpose of feeding the port of Churamon, for the inland conveyance of the salt manufactured on the east coast, and for the communication which it affords between the Orissa trunk road on the west and the salt road, the zemindar's cutcherries, and the large adjacent villages on the east This road has also been made very wide and straight with a very small expenditure on earthwork

8 All the district roads have been repaired and kept in order during the year In addition to ordinary work of maintenance, most of them have been considerably improved Metalling, the construction of small culverts, the provision of sufficient waterway by means of causeways, and the protection of banks, are steadily pushed on as funds admit

9 The Phulwar to Kulma road, opening up the tributary estate of Mayurbhunj, and the Barpada to Maraigan road, similarly opening up the tributary estate of Keunjhar, constructed during the three last years, have proved highly useful and beneficial These roads furnish the two largest of the tributary estates of Orissa with access to the Orissa trunk road The Barpada to Maraigan road has ever since its construction carried large quantities of oil seeds and other raw produce to market The Phulwar to Kulma road has been extended the whole way to Baripada, the capital of Mayurbhunj, and there is now no great difficulty in driving a carriage from Balasore to Baripada There remains only one other tributary estate contiguous to this district, viz Nilgiri Estimates have been prepared, and a budget allotment made, for the construction during the current road-cess year 1878-79 of a road from the Orissa trunk road to the Nilgiri boundary, where it will join a road leading to the head-quarters of the estate and the Raja's residence, which the Raja is at present constructing under my advice The necessary land will be acquired, and the road will be made as soon as sanction to the estimates is received

10 There is perhaps no other district road of sufficient external interest to require special notice here

11 In the sudder sub-division the subject of village roads is attended to, and pains are taken during my tour and at other times to ascertain what village roads may be taken in hand with the greatest advantage, and to search out honest and energetic persons to whom grants for the purpose may be entrusted Much good is effected in this way, and much satisfaction is given Though a grant has occasionally to be recovered from a lazy and incompetent recipient, yet there has been no instance of dishonesty in the application of money given for village roads In the Bhadrak sub-division the actual expenditure upon village roads during the year under report has been actually double the sum shown in the accounts The exclusion from the year's accounts of the remaining half of the expenditure is due to the fact that the accounts in which it was included did not reach this office until after the close of the year

12 The following table contains full details of the nature, quantity, rates, and cost of all work executed on the district roads throughout the year.

17 What it is proposed to do during the road cess year 1878-79 is as follows —

Land will be acquired for a road to connect the Orissa trunk road with the tributary estate of Nilgiri, and a fair-weather road of an inexpensive description will be constructed, the question of improving it and converting it into a first-class metalled road being left for subsequent decision, in accordance with the requirements of traffic and the state of our funds Meantime the road will be so aligned and designed that no difficulty will occur in effecting the conversion when decided upon, it will join the Rajah's own road, connecting his garh or palace with the boundary of his estate, which has already been partly constructed, but will require remodelling The above is the only new road which it is intended to make during 1878-79 The sum of Rs 1,000 has been set apart for the improvement of tidal creeks, and the remainder of the year's funds have been allotted to the maintenance and improvement of existing roads

No 310, dated Balasore, the 30th December 1878

From—T NORMAN, Esq., Acting Collector, Balasore,
To—The Commissioner of the Orissa Division

WITH reference to your Personal Assistant's memorandum No. 364CG, dated the 20th December 1878, I have the honor to state in general terms that the system of collection in this district is especially unsatisfactory, owing to the enormous number of petty revenue-free estates assessed in very small amounts, for the punctual collection of which there exists no adequate machinery, and that the benefits arising from the Road-Cess Act consist proximately of the improvement and extension of communications, and ultimately of the administrative, commercial, and social advantages thereby afforded

2 As stated in my letter No 296, dated the 15th December 1878, details on both of these subjects have been furnished in this office letter No 249, dated the 28th October 1878, and No 250, dated 1st November 1878, to which I have nothing to add, and it is presumed that a repetition of those details is not required

Explanatory memorandum to accompany the Annual Accounts of Income and Expenditure of the cess year 1877-78

A.—The original budget estimate under the head "Establishment and Contingencies" on collection of revenue and committee's control was Rs 3,854, but Rs 250 was transferred with the Commissioner's sanction, conveyed in his No 157CG, dated the 23rd August 1878, to meet the expenditure for "Improvement of Tidal Creeks"

B —The original budget estimate under this head was Rs 5,530, but a sum of Rs 1,000 was afterwards transferred to this head with the Commissioner's sanction, conveyed in his No 157CG, dated 23rd August 1878, from the heads "Repairs to Roads and Bridges" and "Contingencies on Collection of Revenue" to pay the contribution for the improvement of tidal creeks ordered in Commissioner's No 185, dated the 12th March 1878.

C —The original budget estimate under the head "Repairs to Roads and Bridges," including the estimate for the maintenance of the staging bungalow on the Chandbally road, was Rs 14,823, but a sum of Rs 750 was subsequently transferred to the head "Original Works" for the improvement of tidal creeks with Commissioner's sanction conveyed in his No 157CG, dated the 23rd August 1878

V W BERTFISEN, *Vice Chairman.*

No 382½C G, dated Camp Boadgurh, the 11th January 1879.

FROM—A SMITH, ESQ, Officiating Commissioner of the Orissa Division,

To—The Secretary to the Government of Bengal in the Public Works Department

I HAVE the honor to submit in original the annual accounts and reports of the several districts of this division for the cess year 1877-78 for publication in the *Gazette* under section 89 of the Road Cess Act

2 The audit prescribed by section 88, Act X (B C) of 1871, and specially enjoined in Government circular No 47E, P W D, dated 31st May 1878, has been duly carried out in all districts of this division, and the accounts have been prepared, as far as possible, in accordance with the instructions conveyed in Government orders No 173A of the 11th February 1871.

3 In the accounts of the Cuttack and Pooree districts slight deviations are apparent In Pooree the cost of furniture has been wrongly entered under the head 'Contingencies' and 'Mathematical Instruments' under a separate head, instead of both of them being shown (*vide* form of account No 6, Part II, page 7, circulated with Government order No 173A of the 11th February 1878) under 'Tools and Plant,' and in Cuttack the expenditure on arboriculture has not been entered along with the roads on which the outlay was incurred, as directed in paragraph 16 of the explanatory notes on the preparation of annual accounts The Collector and Chairman of the Cuttack Committee explains that the Government order No 173A, dated 11th February 1878, having been received after the submission of the budget estimates and the quarterly returns for the first two quarters of the year under review, the expenditure for tree-planting was shown under 'Original Works' with a view to record with those preceding, hence it cannot now be shown under different roads Besides, the item 'tree planting' in the budget was not intended for planting trees on roads only, but also for maintaining the nursery garden at Chow yagunge, the expenditure on which has been hitherto shown under 'Original Works' Therefore any alteration will now certainly create much discrepancy between the annual accounts and the quarterly returns and such is prohibited in paragraph 12 of the explanatory notes which accompanied the Government circular Moreover, this alteration will create much confusion in the accounts current, which is against the provisions laid down in paragraph 17 of the said notes He further adds that, with a view to avoid such difficulties in future, he has shown the expenditure for tree-planting on each road to which it refers in the current year's budget

4 Duplicate copies of the annual accounts have been forwarded to the Examiner of Public Works Accounts direct by the Chairmen of the several District Road Cess Committees, as required by Government order No 121A of the 28th January 1878

5 The total receipts from cesses for the whole division during the year amounted to Rs 1,01,144 4-5, which added to the opening balance of Rs 14,573-7-9 on the 1st October 1877, made the total sum of Rs 1,15,717-12-2 available for expenditure during the year Rs 92,519-10-10 were actually expended, leaving a balance of Rs 23,198-1-4 at the close of the year

6 The table subjoined shows the receipts, expenditure, and balances of each district as they stood on the 1st October 1878 —

8 In the year under review there has been an increase in the receipts of Rs 8,107-6-7 in Cuttack, Rs 3,345 7 0 in Pooree, Rs 1,751-4-5 in Balasore, and in the whole division of Rs 16,254-2-0 In the expenditure there has been an increase of Rs 1,033-9 5 in Cuttack, Rs 4,967 4-0 in Pooree Rs 1,008 11-0 in Balasore, and in the whole division of Rs 7,509-8-5, but the unutilized balance contrasts very unfavorably with that of the preceding year in the districts of Cuttack and Balasore This will be pointed out to the Chairmen, and they will be requested to utilize the money during the current cess year

CUTTACK DISTRICT

9 The total receipts, including the balance of the previous year were Rs 59,674-11-9, against this the expenditure on all accounts amounted to Rs 1[illegible],890-1-11, leaving a large balance of Rs 13,784 9-10 unexpended

10 The various causes which led to this large sum not being used during the year have been explained at length in paragraphs 6 to 10 of the Committee's report The fact is that several original works that the District Committee contemplated taking in hand at one time or another throughout the year fell through for want of sanction, want of estimates, and other causes beyond its control The attention of the Committee will be drawn to section 70 of the Road Cess Act, which requires the preparation of the estimates of works along with the budget estimates, as it appears that the instructions were not carefully observed

11 Works carried out during the year—

REPAIRS

The following roads were repaired —

No 1 —*Tolldundah road* —Rs 3,018 were allotted for its repairs, and the whole sum was spent This road is 42 miles in length, of which 6 miles are metalled, and the remaining 36 miles are unmetalled Metal repairs were executed in the 2nd and 3rd miles In the unmetalled portion the gaps caused by floods were filled up, ruts levelled, and clayey parts sand-metalled, creepers were planted upon the sand drifts, and the bungalows situated on the road were repaired

No 2 —*Tolldundah loop road* —A useful road near the racecourse Rs 100 were expended in repairs It is in good order

No 3 —*Foolnakrik to Maukib road* —Rs 12 only were expended in its repair this year It is for the most part situated in the Pooree district, and has been by an arrangement between the two Committees made over to the Pooree District Road Cess Committee A full detail of the circumstance which led to this transfer is given in the Chairman's report, paragraph 13 The arrangement appears contrary to the provisions of section 4 of the Act, which requires the roads on which a Committee spends its funds to be within the district The attention of the two Committees will be called to the requirements of the law, with a view to the amendment of the arrangement

No 4 —*Kuakhya to Jajpore* —The breaches were repaired by sloping the road, and a diversion was made at the 9th mile, where the bridge was carried away some years ago Further works contemplated by the Committee were postponed under the advice of the Superintending Engineer, Orissa Circle,—*vide* paragraph 10 of the Committee's report

No 5 —*Chaudbally road* —Forty-eight miles of this road between Cuttack and Pattamoondi have been kept up in efficient repair by an establishment consisting of 37 coolies, 9 sirdars, and 2 mohurirs The causeways, bungalows, and metalled portions of this road received repairs where necessary

Mr Serres (the late District Engineer) reports of this portion of the road as follows —

"I have known the Chandbally road for five years and have never seen it in such good order from Cuttack to Pattamoondi as when I last saw it," that is, at the close of the year On the 16 miles of this road beyond Pattamoondi repairs were executed in the ordinary way, the ruts and breaches were either sloped or filled in as seemed necessary The work consisted chiefly of earthwork, turfing, removing ant hills, cutting jungle, and sand-metalling According to Mr Serres' report sand-metalling has produced decided improvement Of the 3rd and 5th miles of this road Mr Serres writes—"The metalling and tree planting have immensely improved these two miles, what was formerly a barren, hot, sandy waste, is now a cool and delightful road"

No. 6 —*Fakirpara and Machgaon road* —This road is reported to suffer much from surplus irrigation water, and is constantly cut by the ryots to obtain water they want, or get rid of what they do not want The Chairman reports that until the Irrigation Department

brings its surplus water under control, some of his roads must be cut up and rendered impassable each rainy season This road was repaired and put in good order, and Rs. 1,482 were spent on it, but it has been cut up in several places by the last rains.

No 7 —*The Mahanga road*—Crosses the drainage between the Pattamoondi and Kendrapara canals Before the canal embankments were thrown up, a road here would be breached occasionally It is now subject to steady excess of water, and is maintained only as a fair-weather road Rs 115 only were expended in repairing it during the year

No 8 —*Kendrapara loop road* —Rs. 60 were spent in repairing the bridge situated on this road over the Gopia Nullah The road has now been transferred to the Kendrapara municipality under orders of Government, No 1988, dated 21st May 1878

No 9 (*formerly Nos* 9, 10, *and* 29) —*Jajpore and Kendrapara road* —It is a useful road, but liable every year to floods from the Byturnee, Burra, Khursua and Brahminee rivers between Jajpore and Indpore, as it crosses the entire drainage of the country, and from Indpore to Kendrapara it crosses the drainage from the irrigation operations of the Pattamoondi and Kendrapara canals At best, it can be kept in a state fit to be traversed by carts only for six months of the year. Three bridges were repaired, slopes made at the breaches, and the road was smoothed

No 15 —*Berwan to Indpore* —This is another road which is breached badly year by year by the Khursua river Efforts were once made to close the breaches, but it resulted in a worse state of affairs than had existed previously Hence it is now preserved as a fair-weather road, and the repairs of the year were executed only with this object

No 17 —*Indpore to Pattamoondi* —Rs 533 were expended in its repair It is reported not to be in good order

No 18 —*Juggutsingpore to Jajpore* —This is a most useful road It needs improvement, and the subject is under the consideration of the Committee

No 19 —*Juggutsingpore to Soojung and from Sirla to Raghunathpore*—Are kept up as fair-weather tracks

No 41 —*Jobra and Chowlyaguige road* —This road is useful, and it is kept in good order

No 44 —*Golarahat road* —A bridge was built on this road and some petty repairs were executed

No 46 —This road was made over to the Committee under the orders of Government, No 558, dated the 19th September 1877 The Committee thinks that this as well as the Chandbally road should be classed as provincial roads On this road the Committee reports as follows —

It is a part of the main road to Sonepur and Sumbulpore It is valuable to the town, Cuttack, trade, and of great value to the Tributary States and Sumbulpore It is of no value to the Cuttack district, except the small portion called Dompara, which could be served by village roads Provision had to be made for it from other sources and Rs 1,137 were expended on it It has been lately inspected by the present District Engineer, whose report, the Chairman says shows that this large expenditure has gone a very little way towards making the road a good one It had been steadily neglected for years and is now impassable for cart traffic This is only correct for the rainy season Carts pass regularly over the road in the dry weather I have myself recently passed over it, and my carts found no difficulty Some parts of it are clayey, and rather deep mud-holes form in the wet weather Other parts are over rocky ground and are stony, while water channels intersect it, which in the rains would necessitate means of crossing It should not be difficult, however, to keep it in fair passable order during the dry months of the year During the rains traffic goes by the river

ORIGINAL WORKS

12 A total sum of Rs 8,150 was allotted for village roads, and distributed to the several sub-divisions as follows —

	Rs
Head quarters or Cuttack sub division, comprising four thanas	3,500
Jajpur sub-division, comprising three thanas	2,900
Kendrapar, comprising two thanas	1,750
Total	8,150

The administration of the funds of the sudder sub-division rested with the District Road Cess Committee and those of the Kendrapara and Jajpore sub-divisions with the Branch Committees The Jajpore Branch Committee had the management of the allotments for Dhurumsalia, Jajpore, and Aul thanas, and the Kendrapara Committee of those for the Kendrapara and Pattamoondi thanas

13 The statement marked I gives the names of the village roads, the amount spent on each, and the agency by whom they are constructed in the sudder sub-division Mr Farrer, the Chairman of the Branch Committee at Jajpore, has taken the greatest interest in the judicious management of his grant, and the undermentioned 11 village roads, all tending to open up the country and of the greatest benefit to all interested, have been

made under his superintendence. Except Rs 8, the grant given him has been spent A full account of the importance of these roads is given in his report, of which a copy is annexed

1	Imamnugur	6	Baleghat.
2.	Korai	7	Mohurigan
3	Rambag to Palda.	8	Markundpore.
4	Rambag	9.	Sasunda
5	Champamarai and Sreedhurpore road	10	Annapur
		11	Sukunda.

14 A sum of Rs 1,750 was placed at the disposal of the Branch Committee of Kendrapara, of this Rs 223-1-3 was refunded on the last day of the year, and the balance, Rs 1,526-14-9, was devoted to the construction of roads as per statement II annexed Out of the sum refunded the Branch Committee proposed to spend Rs 200 in the construction of a new road to connect Golrahat with the Kendrapara road This road was found to cross a piece of cultivated land, and by the time the consent of the proprietors, who, considering the importance of the road, gave up the land free of cost, was obtained, the ground was under crop, and it was on that account thought advisable to defer the work till the next season

15 It will be seen from the Statement No II referred to above that a sum of Rs 1,050 was expended on village roads in excess of the amount placed at the disposal of the Branch Committee The excess expenditure was contributed by two well-to-do zemindars of Kendrapara, Baboo Juggernath Bromerbur and Ram Gobind Jugdeb, the former having paid Rs 750, and the latter Rs 300 for the construction of substantial wood n bridges and masonry culverts on the roads Nos 15, 16, and 17 which pass through their estates, and are calculated to benefit not only their own tenantry, but the public at large In another case the villagers had agreed to supplement the grant by Rs 50, but an accidental fire having destroyed the whole village, the people could not make good their promise These facts show that the extension of village roads is really appreciated by the people, and the works executed in all the sub-divisions being taken together, it appears that greater attention was paid to village roads in the year under report than in the year preceding it

16 *Tree planting* —The grant for the year was Rs 1,500, but Rs 34 was expended in addition The measures taken seem to have been confined to making good the losses in lines previously established and in preserving and fencing young trees The advantages to be derived from planting mango, jack, or other indigenous fruit-bearing trees along the lines of roads have been pointed out to all Road Cess Committees in Government circular No 10 of the 28th October last In selecting trees for the purpose, it will not be forgotten that the principal object of planting such trees is to afford shade in the hot season, and only trees that give such shade will be chosen

17 The other original works executed, and the amount expended during the year, are as follow —

	Rs	A	P
Reconstructing a bridge on the 9th mile of Kuahya to Jajpore road	772	5	8
Construc ing an inspection bungalow at 64th mile of the Chandbally road	300	0	0
Constructing 9 culverts at the 4th mile on the Chandbally road	248	15	9
A timber bridge on the 39th mile of the Chandbally road	619	8	8
Ditto ditto on the 16th mile of the Jajpur and Kendrapara road	474	12	0
Completing the timber bridge on the 25th mile of the Jajpur and Kendrapara	255	6	11
Completing the Road Cess Office at Cuttack sufficiently for occupation	9,782	3	2
Contribution for improvement of tidal creeks made over to the Executive Engineer, Brahmunee and Byturnee Division	2,500	0	0

The explanation given in paragraph 16 of the Committee's report for this small outturn of original works is not quite satisfactory

18 The Cuttack Road Cess Committee proposes to undertake the following works in the ensuing year, namely —

1 —Diverting and constructing the last nine miles of the Cuttack and Chandbally road
2 —Contribution for the improvement of the Orissa creeks
3 —Contribution of masonry culverts on the Tolundah road
4 —Ordinary repair to and construction of village roads
5 —Ordinary maintenance and repairs of district roads, including bridges and causeways
6 —The Patpur bungalow
7 —The bridges on the Jajpore and Juggutsingpore road

19 Statements showing the number of meetings and the attendance of members of the District and Branch Committees are annexed

20 Seven meetings were held at Cuttack and Jajpore and two at Kendrapara In four meetings at Jajpore and in one at Kendrapara there was no quorum The percentage

of average attendance to whole Committee was 55 per cent at Cuttack, 31 at Jajpore, and 37 at Kendrapara Due notice was given to the Executive Engineer on every occasion, but he attended only five out of ten meetings Although the attendance of the official and non-official members does not appear to have been so good as could be wished, nevertheless the members are reported to have been of great assistance to the Chairmen, as will be seen from the extract from Mr Beadon's report subjoined —

"I find the greatest assistance in consulting the non-official as well as official members, and they are all ready to express their opinion freely when asked Attendance at the sub-divisional or Branch Committees is a more irksome duty than at head-quarters, for the non-official members are not residents of the sub divisional town The return, however, shows that great improvement has taken place this year over the preceding Mr Fairer too notes that, though slow to attend meetings, the non-official members take interest in their work and give him considerable aid"

21 The Committee makes favorable mention of the services rendered by Mr Serres, the late District Engineer, who, having failed to pass the prescribed examination, was under the orders of Government removed during the latter part of the year A new District Engineer, Mr Desgratoulet, has been appointed with the approval of Government

22 The Committee has not reported how the establishment on collection of revenue under the Commissioner's control, or the establishment on works, such as the Overseers and Sub-Overseers, &c, have worked during the year This information has been called for, and will be submitted when received

POORI DISTRICT

23 The total receipts of the year including the balance of the last year, amounted to Rs 25,000 10-3 against Rs 22,600 5-5 in 1876-77, and the expenditure was Rs 23,125 9-11, against Rs 18,183 5-11 in the preceding one There was an unexpended balance of Rs 2,525-0 1 at the close of the year, against Rs 4,116-13-1 on 1st October 1877

24 The following are the principal repairs executed during the year under report —

	Rs	A	P
Repairing the road from Athmanala to sea beach	717	10	9
Repairing inspection huts on the Bagmari and Solgar road	107	12	8
Repairing the inspection bungalow on the Khordah and Kulupathar road	311	10	4
Repairing the road from Balighai to Madhab	193	0	0
Repairing the inspection huts on the above road	64	2	3
Repairing the road from Pulmakora to Balihan, lately transferred from the Cuttack district	30	0	0
Metaling the road from Balugan to Banpur	6,541	0	0
Repairing the village roads	38	0	0
Total	8,043	1	0

25 Of the above works, the road from Balugan to Banpur was of necessity undertaken as a famine relief work, but as nothing was allotted for this road in the budget estimate of 1877-78, the Committee had to make provision for the work by transfer, under paragraph 12 of Government notification No 173 of the 7th May 1872 This road is four miles in length, the whole of it has been metalled during the year It has now become very useful for facilitating the wheeled traffic from the interior of the Gunjats

26 The other works of the district being in a fair state, repairs were not undertaken on them during the year under review

27 It will be seen from paragraph 13 of the Committee's report that Rs 2,000 and Rs 5,173 were respectively allotted for the construction of a road from Khordah to Patnaikia and a building for the road cess office These works were not carried out during the year, as the sums allotted for them were subsequently transferred to relief works on the Baribeoody and Balugan roads

28 The subjoined memorandum will show that Rs 8,270-0-11 were spent during the year for original works —

	Rs	A	P
Remodelling the Delang bridge	1,585	9	9
Constructing the road from Baribeoody to Rorung	5,616	0	0
Contribution to tidal creeks	1,000	0	0
Constructing the road from Balugan to Banpur	68	7	2
Total	8,270	0	11

29 Rupees 4,000 were provided in the budget estimate for remodelling the old Mahratta bridge at Delang, but Rs 74 having been subsequently transferred to relief works, only Rs 1,026 were available for expenditure it being found necessary to execute some additional works, Rs 559 15-0 were added to that sum by transfer sanctioned by this office, making the sum available for the work in the aggregate Rs 1,585-15-0, but the total expenditure came to Rs 1,585-9-9, or some what less than the amount provided The old bridge has been completely broken down, with the exception of the foundation, and replaced by a new one of

arches of 15 span, and the piers, abutments, and wing walls have been carried up to the level of the spring line of the arches, *viz* 13 feet above the bed of the river The contractor has executed more work which will be paid for during the current year The Committee will be asked to discourage action of this sort A public body like a Road Cess Committee should not contract liabilities till it has the funds to meet them

30 A road from Barabcoody to Pooree *vid* Narsingpatna was undertaken as a famine relief work, but could not be finished during the year for want of funds The work was intended to afford relief to the famine-stricken people inhabiting the tracts between the Chilka Lake and the sea This road is not traversable except for four months of the year, the country through which it passes being very low and intersected by numerous channels and jheels, and quite unsuited for a road The distance from Pooree to Barabcoody by the new road is 15 miles, whereas by the old cart track *vid* Rorang it was more than 20 miles One culvert and a regulating sluice were also constructed on this road

31 The Chairman thus explains why the Committee could not afford to spend more on village roads—

"As the Committee made a heavy expenditure on famine relief works during the past year, they could not afford money to spend on village roads Of the sum of Rs 500 allotted for the repair of village roads during 1877-78, Rs 485 was transferred to Delang bridge under your No 33C G, dated 16th May 1878 The total expenditure under this head during the year under report amounted to Rs 38 only, of which Rs 26 represents the outstanding advances of 1876-77 for the Khoorda village roads, recovered by work done during 1877-78"

More attention will be given to this subject during the current year

32 The District Engineer is said to have given satisfaction to the Committee Nothing is said of the lower subordinates, nor of the establishments on collection of revenue, save that there are so many clerks, and one has left the office, being appointed as a License Tax Circle Officer This omission has been pointed out to the Chairman, and he has been requested to report on the subject The information will be submitted to Government when received

33 Statement A, showing the average attendance of the members, is annexed

34 The meetings were held regularly in Pooree, though the percentage of the average to whole Committee is not as satisfactory as could be wished There were nine meetings, in all of which there was a quorum, and in three of which the Executive Engineers took part The Committee regrets their absence at most of the meetings, but this cannot be avoided, as their visits to Pooree are necessarily few

35 The Chairman makes special mention of the members named below for having interested themselves in the transaction of the Committee's business —

Baboo Tarakant Bhattacharjee
„ Ram Chand Adi
Mohunt Narayun Doss

36 Paragraph 6 of the Chairman's report will show why there were no meetings held of the Branch Committee at Khoorda I think it very desirable to utilize Sub-divisional Committees, and I am inclined to think that more use might well have been made of that at Khoorda

37 The programme of works proposed during the ensuing year, with the forecast of expenditure, is given in paragraph 23 of the Committee's report

BALASORE DISTRICT

38 The total receipts of the year were Rs 0,002-0-2, and the total expenditure Rs 23,203-1-0, again Rs 25,311-1-0 and Rs 22,196-1-0 respectively in 1876-77, leaving a balance of Rs 6,888-7-2 at the close of the year, against Rs 3,115-1-0 in the preceding year

39 Considering the proportion of the expenditure to the income of the district (in which is included a balance of Rs 3,115-1-0 on account of the previous year), the unexpended sum of Rs 6,888-7-2 is a heavy balance for the district The attention of the Committee will be drawn to this important subject, with a view to early utilization of the balance on works for which there are properly sanctioned estimates

40 Under the head of 'Original Works' are the following three important fair-weather roads undertaken during the year By a standing resolution, a sum of Rs 1,000 was set apart for the improvement of the tidal navigation between the Dhamra estuary and the Pooree district, and sent to the Executive Engineer, Brahminee and Baitarnee Division

The roads under notice are as follows —

1 *Singla branch road* — This road is 1·6 miles in length It affords communication between the Bustee and Broad road and Singla, where there is one of the largest markets in the district, a salt bonded warehouse, and a police outpost The construction of this road was a great desideratum, as the following extract from the Chairman's report fully shows —

"Before its construction the inhabitants actually collected a voluntary subscription, and brought the money to me with a request that no time should be lost in making the road As road cess funds had been allotted for the purpose, it was not necessary to accept the subscription

2 *Uttershmar to Gopinathpore road.*—The length of this road is five miles By this road the villages which form the principal seat of the well known stone utensil manufacturing industry, and were hitherto very inaccessible, have been provided with communications

3 *Jamjhari to Basudebpore* —This is a very important road for administrative purposes Its usefulness is thus described by the Chairman—

"The Jamjhari to Basudebpore road is seven miles and a half in length, it connects the Orissa Trunk Road at a point seven miles south of Soroh, with the large village of Basudebpore on the old salt road Basudebpore has a police station, it is near the port of Churamun on the east coast, and the cutcherries of the principal zemindars of the neighbourhood are situated close by, this road is accordingly of immense advantage for administrative purposes, for the purposes of feeding the port of Churamun, for the inland conveyance of the salt manufactured on the east coast, and the communication which it affords between the Orissa Trunk Road on the west and the salt road, the zemindars' cutcherries, and the large adjacent villages on the east This road has also been made very wide and straight with a very small expenditure on earthwork"

41 Besides the above works great improvements have been effected in the existing roads, such as metalling, the construction of small culverts, the provision of sufficient waterway by means of causeways, and the protection of banks

42 The Chairman merely states that the subject of village roads is carefully attended to, but does not specify any works,—*vide* paragraph 11 of the Committee's report

43 The tabular statement annexed will show the details of the nature, quantity, rates, and cost of all works repaired in the district throughout the year

44 Statement A shows the attendance of the members Of all the districts of the division, Balasore stands foremost as regards the interest taken by the Committee in the transaction of business A meeting was held every month, and the attendance was sufficient to form a quorum in all except one

45 The Chairman thus gives an account of the working of the Committee, and the assistance rendered by it in facilitating the work of this important branch of the administration —

"The working of the Committee continues to be satisfactory Business is disposed of promptly, decorously, and with an entire absence of friction The gentlemen of whom the Committee is composed render what assistance they can in the way of opinion and advice, and they co-operate in the audit of accounts, in attending the meetings of the Committee they gain the advantage of learning the views and objects of the administration, and they form an excellent medium for imparting to the people of the district information as to those views and objects, in this way they render the administration an important service"

46 The subject of attendance of the Executive Engineer at Committee meetings does not appear to have attracted the attention of the Committee The Chairman will be told to give due intimation to the Executive Engineer on every occasion in future, and to have his professional advice in the general duties of the Committee as often as possible

47 The establishments, both on collection of revenue and on works, the Chairman states, have worked satisfactorily

48 Paragraphs 17 and 18 of the Committee's report give an elaborate detail of the works proposed to be done during the cess year 1878-79, with a forecast of their expenditure

49 Mr Norman says that the system of collection of the cess in his district is especially unsatisfactory, owing to the enormous number of petty revenue-free estates assessed in very small amounts, for the punctual collection of which there is, he says, no adequate machinery, and he proposes that the whole cess should be levied from these lakhirajdars through the zemindars, the law being altered for the purpose He also suggests that, under section 22, the first kist day within the year, viz the 5th November, should be fixed as the date for payment of the entire demand on revenue-free estates, so as to allow ample time for collection by process before the end of the year The appointment of one day of payment would also, he says, save the payers who wait for process the cost on the issue of that for the second kist

50 It seems to me that the collection of the amount in one kist would be a hard measure, and that the 5th November a date just before the principal crop of the year is ready, and when the peasantry are ordinarily more pressed to make two ends meet than at any other period of the year would be a very bad date to fix if one kist should be thought expedient The difficulties experienced by Mr Norman exist to a similar extent in Poorie, yet Mr Armstrong, by the simple expedient of sending lists to his canoongoes, and allowing them to receive the money before the fixed dates and making it known that if payment is not made levy with costs will follow immediately, has succeeded in realizing the cess with a punctuality unequalled in any other district of Bengal These canoongoes are peculiar to Orissa and common to all three districts I have asked the Collectors of Balasore and Cuttack to consider whether Mr Armstrong's system would not be equally effective in their districts

51 The cess is as popular as any cess can be expected to be The people are fully alive to the benefits of good roads, and pay contentedly, if not cheerfully It is principally the trouble and cost of having to make a long journey to pay a little sum that stands in the way of the punctual collections of the lakhirajdars Under Mr Armstrong's system they pay punctually near their homes Under the Balasore system it saves trouble and money to default, wait the levy, and pay the costs of the process

CERTAIN works for the drainage and reclamation of lands in the Hooghly and Burdwan districts, known as the Dhankoni scheme, have been carried out with success under the provisions of Bengal Act V of 1871, and it is thought expedient to empower the Lieutenant-Governor to carry out similar works in other districts on the same system, with such amendments as experience has shewn to be desirable Under this Bill the scheme with plans and estimates will be prepared by the Government Engineers and published for general information If not less than one-half of the proprietors, who hold permanent interests in the land at fixed rates of revenue or rent agree to the scheme being carried out at their expense, the works will be executed by the Government Engineers, the funds being advanced by the Government, and eventually recovered under certain rules from the proprietors, and by them from their tenants who directly benefit The Bill provides that the cost of the works shall be assessed on the lands reclaimed and improved in proportion to the benefit derived by Commissioners appointed by the Lieutenant-Governor, of whom the majority shall be proprietors The recovery of the sums apportioned on the several proprietors is left in the hands of the Collector

Commencement of Act

STATEMENT OF OBJECTS AND REASONS

The steam vessels engaged in the inland river trade of Bengal have increased of late years both in number and size Unskilfully handled, they are a source of danger to seagoing vessels navigating the approaches of the Port of Calcutta It is proposed in this Bill to insist that those inland steam vessels which in the course of their ordinary voyage traverse pilotage waters shall be in charge of certificated commanders, and as the provisions of section 38 of the Indian Ports Act 1875, making pilotage compulsory, are about to be extended to the river Hooghly below Calcutta, it is further proposed to declare that such certificated commanders shall be held to be pilots for the purposes of that section in respect of their own vessels Lastly, the Bill provides for the trial and punishment of such commanders when guilty of incompetence and misconduct

FREDERICK CLARKE,

THE following report of the Select Committee, together with the Bill as amended by them, is, by order of the President, published for general information —

WE, the undersigned members of the Council of the Lieutenant-Governor of Bengal, to whom the Bill to consolidate and amend the law relating to jute warehouses and fire-brigades was referred, have the honor to make the following report

From Assistant Secretary to Government of Bengal, Financial Department, No 163, dated 1st March 1879 and enclosure

We have received and considered the papor noted in the margin

One of the conditions of a license for a jute warehouse was that the roof of a building was not to be used for the combing or drying of loose jute, jute rejections, or cotton As circumstances may exist in which this can be done without danger, we have relaxed the rule by providing that the roof of a building shall not be used for such purposes without the sanction of the municipal authorities

Instead of the maximum penalty of Rs 100 for breach of the conditions of a license, we have provided that such breach shall render the offender liable to have his license cancelled, or to a fine not exceeding Rs 500

Owing to the difficulty experienced in working the fire brigade, we have transferred the superintendence of the brigade to the Commissioner of Police, and have given power to the local Government to frame rules for its maintenance and management

We have provided that any balance which may remain after payment of the expenses of a fire-brigade, and the expenses connected with the inspection of jute warehouses and the granting of licenses, is to be applied in reduction of the fees levied on licenses for jute warehouses

We have struck out as unnecessary the clause which gave Magistrates summary jurisdiction under the Act

The mean pressure, temperature, &c., are deduced from observations made at 0h, 10h, 16h, and 22h, the maximum and minimum temperatures are obtained from self registering thermometers All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard Newman's No 86, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The direction and movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground

METEOROLOGICAL OFFICE, INDIA,
The 31st March 1879

HENRY F BLANFORD,
Meteorological Reporter to the Government of India.

Report on the Fluctuations in Traffic on the Northern Bengal State Railway during the month of February 1879

GENERAL REMARKS

On and from the current month the traffic will be compared with that of the corresponding month of the previous *year* instead of as heretofore with the previous *month* of the *same year* With the exception of one staple, "Tobacco," a considerable increase is shown in every commodity carried This is of course a result that would naturally be looked forward to, as in February 1878 the line had only just been opened through for traffic

The total weight lifted during the month under review stands at 2 15 676 maunds, being an increase of 1,25 572 maunds over that carried for the same period last year—a result that cannot but be looked upon as highly satisfactory and promising

Increases

Ale Mds 1 506

Heavy despatches of Commissariat Beer for Darjeeling have during the month been made

Food grain Mds 94,203

It was at this time last year that the rice and paddy began to pour into our stations in such large quantities The wide margin that existed between the price of the staples carried under this head in the Calcutta market and on the spot during February 1878 gave rise to a great deal of speculation but this impetus has been wanting during the period under review and the increase may, therefore, be fairly attributed to the development of traffic.

Ginger Mds 1,153

This increase is due to a slight demand for the dry article having sprung up for shipment During the corresponding period last year there was no business being done in this staple

Gunny bags Mds 5,244

The reduced rate at which we are now carrying gunny accounts for this increase

Jute Mds 19,228

The increase in the weight carried under this head may also in a great measure be set down to the same cause (reduced rates for consignments of 200 maunds)

Piece goods Mds 8 185

The favourable rates ruling for purchases and the heavy despatches for Rungpore, which station, for the corresponding period last year was not open for traffic accounts for this increase

Railway materials Mds 17,783

This increase is the result of the material for the Tramway being pushed forward in large quantities during the month

Tea Mds 251

The tea traffic for this season may now fairly be said to be over The extra weight carried as compared with February 1878 is due entirely to the fact that last year the line was only open to *Julpa guri* and that we only got the Dooar tea, whereas this year all that is being sent forward from *Siliguri* is being despatched via the line

All other goods Mds 39,736

Last year at this time a considerable quantity of stuff was still finding its way viâ Carragola, which route may now be looked upon as virtually closed

Decreases

Tobacco Mds 1 017

This is the only head under which a decrease is shown it is caused by an utter absence of demand for the article in the Calcutta market

PASSENGERS' BAGGAGE.

Section 75.—1. Baggage is not exempt from duty simply because it is baggage.

2. Baggage is exempt from duty only when it consists of articles free of duty, or of *bond fide* personal wearing-apparel and other articles of personal use, the property of the person whose baggage is being passed, or of any members of his family, such as are in actual use at time of importation, or have been actually in use previously. It is within the discretion of the proper officer of Customs to determine, subject to the above rules, whether any goods shall be treated as baggage and exempt from duty, or as goods liable to duty.

3. The following goods are subject to duty, according to the schedule in force for the time being:—

Apparel, including millinery and haberdashery

6. No formal entry of baggage is required under section 86 of the Act. Owners will have either personally or by agent to identify their own property. The Customs Officer will examine the goods and note in a form of entry the value of articles liable to duty, the rate of duty and amount thereof, together with a landing charge of 8 annas per package, and on receipt of the money will grant a pass.

7. It is optional with the proper officer of Customs to allow the cases of persons about to proceed immediately up-country to be passed without being opened. This discretion will never be exercised except on the personal application of the owner of the baggage, or his or her representative. A detailed statement of contents and value signed by the owner must always accompany the application. A preventive officer should report at once to the Superintendent of the Preventive Service whenever he detains any dutiable articles, in order that an officer may be deputed to convey them to the Custom House.

Exportation of Spirits under Bond for Excise duty.

Section 144.—1. No spirit on which the full duty has not been paid is to be allowed to leave a distillery, whether private, licensed, or public, unless the following marks are legibly painted or cut on each end of the cask containing the spirit, viz. the name of the distillery, the known mark of the proprietor, and the quantity and strength of the spirit contained in the cask (the strength being ascertained by a hydrometer). For instance, the marks on a cask of Dhobah Rum stand thus:—

2. Spirit for exportation by sea may be removed without payment of duty from a licensed distillery to the Custom House, and from the Custom House, on the person so removing them executing the bond required by section 144 of the Act for the payment of full duty in case of failure to export within four months, or to satisfy the Chief Customs Officer that the spirit has been landed at some other port within British India, not being a free port. The bond is taken by the Chief Officer of Customs.

3. A member of some established house of business at the port of exportation must be one of the parties bound, and the parties bound are jointly and severally answerable for any amount which may ultimately fall due under the bond.

4. The Chief Officer of Customs may refuse the security tendered, without assigning any reason, except in the event of an appeal from his decision.

5. The distillery and apparatus is considered as pledged for any amount which may become due under the bond.

6. On a bond being duly executed, and its execution certified by the Chief Officer of Customs, the Collector of Excise Revenue will grant a pass for the spirit bonded, without payment of the duty.

7. On the spirit being brought to the Custom House for exportation, the exporter must declare, in writing, by what bond it is protected, and produce the pass of the Collector of Excise Revenue and the distillery invoice. The spirit is then gauged for quantity, and proved to ascertain the strength, by a Custom House Officer. If the quantity and strength so ascertained be the same as that marked

* Meaning 5 degrees over London-proof.

on the casks (the casks being the same which were removed from the distillery), the spirit is allowed to pass for export by sea, and the quantity is written off on the bond If the quantity and strength be not the same as that marked on the casks, duty is levied on the difference, as provided by section 147 of the Act

8 The following rules should be observed for gauging casks lying with the bung-rod, whether the spirit be required for exportation or for local consumption Government officers must, however, bear in mind that the results obtained from simple measurement by the bung-rod are only approximate Other instruments and professional skill are needed to ascertain the exact contents of a cask [*N B*—The bung-rod has four sides, of these two opposite sides are marked in inches and tenths for taking diameters, a third is marked in imperial gallons for taking the "capacity" according to the diagonal line, the fourth relates only to the calculation of superficial circular gallons, and is not ordinarily used]

(1) Take care that the cask is laid perfectly horizontal with the bung exactly at the top

(2) Measure by the side of the rod showing imperial gallons, from the centre of the inside of the bung-stave to the lower chunt (*i e* where the head fits into the staves) at each end of the cask The mean between the measurements so ascertained is the "capacity" of the cask

(3) Measure by the side of the rod marked in inches the diameter from the inside of the bung-stave to the stave directly below it at the bottom This gives the "bung diameter"

(4) Measure by the same side of the rod the depth in inches of liquor in the cask This gives the "wet inches"

(5) Turn to the page of the Ullage tables* which is headed with the ascertained "capacity," look along the top for the column corresponding to the "bung diameter," and under this opposite the "wet inches" (shown in the left hand column) will be found the "ullage" or liquid contents of the cask

* The tables referred to are a reprint from the "Imperial Ullage" and can be had on application to the Board of Revenue

9 When the entire bonded quantity is written off upon the bond, the Chief Officer of Customs should cancel the bond

10 It is for the exporter to see that the exports made from time to time under a bond are properly written off, or certified on the bond, and he must testify, by his signature to the entries, that the exports are correctly written off

On the expiration of the second currency, the Chief Officer of Customs will proceed to adjust such time-expired bonds and levy duty on the quantity of spirit unaccounted for

For a distance not exceeding 100 miles	5	per centum
For a distance above 100 miles but not exceeding 200 miles	7½	ditto
For all distances exceeding 200 miles	10	ditto

14 In the case of spirit exported under bond to another port within British India (not being a free port), in adjusting the bond, an allowance for wastage and leakage during the sea voyage is made, for a voyage of one month, at the rate of two per cent, and for any longer voyage, at three and a half per cent

15 Spirit for use as ships' stores during the voyage may be shipped, free of duty, on vessels clearing to a foreign port Passes for such spirit are, however, detained at the Custom House until the vessel for the use of which it is intended is actually under clearance, when they are made over to the shipper's servants Such shipments must be made under bonds, to be cancelled on production of a certificate from the preventive officer on the ship that no portion of the spirit covered by the bond has been consumed in port The bond is in the form C prescribed by section 114 of the Act, *mutatis mutandis*

Spirit rendered unfit for human consumption

Section 155—1 Spirit imported into British India for use exclusively in arts, manufactures, or chemistry, which has been rendered effectually and permanently unfit for human consumption, is subject only to an *ad valorem* duty of 10 per cent under Article 32, Schedule A of the Indian Tariff Act, XXI of 1875

2 Whenever such spirit is imported from the United Kingdom into any port of the Bengal Presidency, before it can be admitted at the reduced rate of duty as aforesaid the importer must satisfy the Collector of Customs at that port that the spirit has been rendered effectually and permanently unfit for human consumption, by the production of a certificate from a competent Customs or Excise authority of the United Kingdom that the spirit has already been subjected, under proper supervision in the United Kingdom, to a process by which it has been rendered effectually and permanently unfit for human consumption

3 If the importer cannot so satisfy the Collector of Customs, the latter shall cause such spirit to be examined, and, if necessary, rendered unfit for consumption in the manner hereinafter described as applicable to spirit imported from other countries than the United Kingdom

4 Whenever such spirit as aforesaid is imported from other countries than the United Kingdom into any port of the Bengal Presidency the Collector of Customs at that port shall send a sample of such spirit to the Chemical Examiner for examination and report, at the expense of the importer, and if the Chemical Examiner shall certify that the spirit has been rendered effectually and permanently unfit for human consumption, the Collector of Customs shall admit it at the reduced rate of duty

5 Whenever imported spirit is to be rendered effectually and permanently unfit for human consumption by Officers of the Customs Department, the ingredient to be used for admixture with the spirit shall be caoutchoucine, and it shall be mixed with the spirit in the proportion of one part and half a volume of the caoutchoucine to 98½ parts of volume of the spirit which shall not be of less strength than 30 per cent over-proof

6 But when it can be proved to the satisfaction of the Board of Revenue that the presence of caoutchoucine will render the spirit unsuitable for the purpose for which it is required, special sanction may be obtained for the use of wood-naptha instead of caoutchoucine In this case one part of volume of crude wood-naptha shall be mixed with nine parts of volume of spirit having a strength not less than 30 per cent over proof

7 The caoutchoucine or the wood-naptha, however before its admixture with the spirit, must be tested by the Chemical Examiner to Government, who must certify to the Collector of Customs that it is of the proper strength, fitted, if used in the proportions mentioned in rule 5 or 6 to effectually and permanently render unpalatable and unfit for human consumption the spirit with which it is mixed

8 Any expense which may be incurred by the Collector of Customs in rendering spirit unfit for human consumption, or in ascertaining that it has been so rendered, must be paid by the importer

9 The use of spirit medicated or caoutchoucined according to these rules is not permitted in the manufacture or preparation of tinctures, medicated spirits, hypo-nitrous ether, or other pharmaceutical preparations, or in the manufacture or preparation of any other article capable of being used as a beverage, or internally as a medicine, with the exception of sulphuric ether, chloroform, and chloral hydrate

The Court desires that all District Judges and all Moonsifs at out-stations will publicly impress upon pleaders of all grades a sense of their responsibility to the Courts in which they practise, in the matter of accepting vakalutnamahs from parties themselves, or from persons professing to be authorized by special or general powers of Attorney to act on behalf of other persons

2 The appointment of a pleader on behalf of another person in any suit or proceeding in a Civil Court is an act such as can be performed only by a mookhtar duly qualified and enrolled under Act XX of 1865, except in the cases provided for by clauses (*a*) and (*c*), Section 37, Act X of 1877 The acceptance by a vakeel of a vakalutnamah, except under the circumstances specially provided for, from any other person is in effect an abetment of an infringement of the law, and as such renders him liable to be dealt with for grave professional misconduct

4 The Judges and Moonsifs above mentioned, after reading and explaining the foregoing observations, will record a proceeding setting forth that they have done so, to which the pleaders will be requested to attach their signatures

No 83

The 4th April 1879

UNDER section 89 of Act X (B C) of 1871, the following annual accounts and reports of the road-cess committees of Dacca, Furreedpore, Backergunge, Mymensingh, and Tipperah, of works done and in progress during the past cess year 1877-78, together with the remarks thereon of the Commissioner, Dacca Division, are published for general information

A CADELL, *Major-General*, R E ,
Secy to the Govt of Bengal,
in the P W Dept

No 605, dated Dacca, the 9th December 1878

From—D R LYALL, Esq , Chairman, Road Cess Committee, Dacca,
To—The Commissioner of Dacca

I HAVE the honor to submit the following report on the works that were undertaken during the past cess year 1877-78, and those proposed to be undertaken during the current year, 1878-79, by the Dacca Road Cess Committee, and also to forward herewith, in duplicate, a detailed account of receipts and expenditure of the District Road Fund for the former year, prepared in accordance with the specimen forms forwarded with the Government circular No 8A, dated the 4th February 1878

2 At the close of 1876 77 there was a large balance of Rs 90,278-11-8, owing to delay in sanctioning the road between Dacca and Manickgunge Part of this scheme was sanctioned late in the year when the working season was over The above sum, together with Rs. 66,067-1-3, being the total receipts of the year, was available for expenditure during 1877-78

3 Out of the available funds, Rs 63,250-13 4 were expended on works, establishments, and tools and plant, as per details given in Part II of the annual account, leaving a balance of Rs 93,090-5-7 at the close of the year.

4 The large decrease between the actual receipts of house cess and the amount estimated is owing to the suspension of the collection of house cess for the second instalment of the year under Government orders

5 Works done during 1877-78 —

ORIGINAL WORKS

(1) The outturn of large original works is again exceedingly bad this year The Committee devoted nearly the whole of their available funds to the road between Dacca and Manickgunge, the work of which had been so long delayed for want of sanction, and the contract of the 4th section was given to * * and that of the most important part of the 3rd section between Mirpore and Balbarpore to Messrs * * Both these contractors utterly failed, the former having done only 40,000 cubic feet of earthwork, and the latter, in round figures, only 2 lakhs out of 118½ lakhs

The security deposit of the former was forfeited, and the work given to another contractor, who executed 7½ lakhs cubic feet of earthwork up to the end of the year, and obtained 2½ months' extension of time

On the 20th February 1878 Messrs * * applied to be allowed to throw up their contract This was not agreed to, but they entirely ceased work and virtually gave it up Finally, on 24th April, the Committee agreed not to continue the road beyond Mirpore this year, or until it is decided what line the rail will take, and released Messrs * * from their contract The total value of work done by the contractors amounts to Rs 826-12-1, which was not disbursed during the year, as they did not send in their bill

The total outlay incurred on the road is Rs 2,521-2-10

Fresh plans and estimates for the 4th section and for a small part of the 3rd up to the Toragiver were prepared and submitted to you with my letter No 278, dated 11th July 1878 From the 39th mile to the bank of the Torag the alignment was altered in accordance with Major Smyth's wishes, thereby avoiding a circuitous length of high embankment and effecting a saving of 10 lakhs cubic feet of earthwork The amended line appears to be the best that could be adopted, but the Superintending Engineer has returned the project saying that a separate plan and estimate should be submitted for each culvert, and suggesting that the item of dressing and turfing should be properly calculated on the superficial area. The plans and estimates called for are now under preparation

(2) The Tonghy iron bridge, which was commenced last year, has been nearly finished, at a total cost of Rs 19,975-8-2, including the outlay of the previous years, but exclusive of the original gift of Rs 20,000 by late Rajah Kali Narain Roy Chowdhry The brickwork, soorkee plaster, and woodwork were given in contract, but the ironwork was fitted departmentally Before the brickwork was resumed, the south abutment wall having shown signs of failure was dismantled to the foundation under the direction of the Superintending Engineer and rebuilt The whole of the works in connection with the bridge has been completed, with the exception of the approach roads, which will be done during the current year

(3) A grant of Rs 150 was made from the sudder sub-divisional allotment for village roads for the road from Harindhia to Sheobpore, a part of which has been finished during the year The money was given to the villagers, and the work done by private enterprize, under the supervision of the Sub Inspector of Police station Roypoora They have applied for a further grant for the completion of the remainder of the road

(4) At the instance of the inhabitants of Barongo and adjacent villages a wooden footbridge was erected over the Jemna khal at Horegnon, at a total expenditure of Rs 543 4-3, including the raising of the approach roads The bridge is 63 feet long, and consists of 5 spans, the centre one being 18 feet and the side ones 10 feet each This work was done within the estimate by contract under the supervision of the District Engineer

(5) In consequence of the unusual immense gathering at Nungulbund on the occasion of the last *Baroonee Snan*, the Nungulbund road was repaired, cleared of jungle, and widened, and a barrier 30 feet in length, of rough guzalee timber, was put up at the Goroobanee Ghaut to prevent accidents The works were done at a total cost of Rs 2 4 11 6, of which Rs 116 11-6 were contributed by the zemindars, the balance being defrayed from the Sudder sub-divisional allotment for village roads

6 On the application of certain inhabitants of Govindpoor, a grant of Rs 80 was made for the construction of a road in their village out of which Rs 3 only was expended in clearing jungle but as they delayed to begin the earthwork the rains set in, rendering any further work impossible The balance (Rs 77) has been refunded to the District Road Fund, in conformity with the orders of the Vice-Chairman

7 At the instance of the members of the People's Association of the Moheshwardi Pergunnah, representing the very serious disadvantages which the people of that quarter have been suffering from want of road and water communication, the road from Dunga to Nursingdee (9½ miles) was added to the Vice Chairman's statement, under section 66, and a supplementary statement, under section 68, submitted to you with my letter No 49, dated 25th April 1878, and approved in Government orders No 895A, dated 29th August 1878 During the year this road was fully surveyed, and complete plans and estimates, amounting to Rs. 18,250, were prepared and submitted to you for Government approval, which has since

been received, and the District Engineer directed to begin setting out the land at once The contract for the earthwork of this road has been given to Mr Landale

8 Village works were also executed by the Branch Committees of Manickgunge and Moonsheegunge, the details of which are given in the annual report The Chairmen of both these Committees report that the unusually heavy floods of the past season have done great damage to some of the roads in their sub-divisions, and have applied for additional grants during the current year It is satisfactory to have to report that Baboo Krishna Chandra Roy, of Bura, within the Manickgunge sub-division, gave a donation of Rs 900 on account of half the cost of the Bura road, the other half being paid by the Central Committee as a special allotment out of the general savings of the fund

REPAIRS

9 The Mymensingh road (52 miles) has been cleared of jungle, and the usual surface repairs done though not to the District Engineer's satisfaction Fifty one thousand one hundred and ninty-two cubic feet of earthwork has been executed in raising the road at the approaches to Kuwain bridge and in places subject to inundation during the rains Nine wooden and 32 masonry bridges have been thoroughly repaired and 20 masonry and five wooden bridges partially repaired The pucka culvert at Garroran, the arch of which came down last year, has been dismantled and re built, with the exception of flooring and cast drop wall The arches of two culverts at Salna, which also fell down, have been dismantled to springing level and planked roadways provided The contractor was allowed an extension of time up to 11th July 1878, but, notwithstanding this concession the District Engineer reports that he failed to complete more than two-fifths of his work The contractor claims to have done all his works, except earthwork, in places which he could not finish owing to the road being inundated, but his claims have not yet been finally reported on by the District Engineer, who has been directed to report after personal enquiry The total expenditure incurred amounts to Rs 1,845-13, against an estimate of Rs 4,624 The work of putting up milestones on the road, as provided for in the estimate, will be done during the current year, in consequence of the milestones having been received late in the year under report This road sustains great damages from being daily used by Khedda elephants in going to bring their fodder

10 The metalling in the Naraingunge road has been more or less repaired in every mile, except the eighth, which was in good order, the total quantity done being 25,494 cubic feet, and the jungle has been cleared from the sides of the road The bamboo piling on the fifth mile has also been entirely renewed, petty repairs done to the iron suspension bridge on the first mile and the south east wing wall and the roadway planking to bridge at the 10th mile renewed The total expenditure incurred is Rs 3,119-15-7, against an estimate of Rs 3,721 and the road is now in good order

11 The Moonsheegunge Sreenuggur road, as far as Singpara, has been put into working order at a total outlay of Rs 3,048-14, which is within the estimate One hundred and fifty-four thousand six hundred and one cubic feet of earthwork was executed in raising the surface of the road in several places and improving the slopes, 19,091 cubic feet earthwork in benching the slopes, and 58,917 superficial feet of turfing, 18 wooden bridges were repaired, and 16 bamboo bridges and one wooden bridge renewed Ordinary surface repairs, including filling in ruts and holes and clearing jungle, also effected to the road The full quantity of earthwork provided for in the estimate could not be executed owing the unusual rise of the floods this year

12 A sum of Rs 716 11-10 was laid out in repairing the section of the *Goalundo road* between Shealo and Manickgunge The amount of estimate was Rs 875 The money was spent in surface repairs, including filling in ruts and holes, uprooting and clearing jungle, making good the slopes of approaches to pucka bridges, and petty repairs to bridges which had been damaged during the previous rains, and in paying for the chowkidar employed for nursing young trees and preventing cattle trespass on the road At Shealo the bunds have been made good and bamboo piling renewed, and the inspection bungalow at Mahadeopur has also been repaired The whole of this road was in good order and fit for traffic all the year round

13 The Ryed Bazar road has been only partially repaired during the year Twenty seven thousand four hundred and sixty-seven cubic feet of earthwork was executed in raising the surface of the road in low places and approaches to the Oodhungunge bridge, the abutment walls of which had been raised the previous year, and petty repairs done to bridges The expenditure incurred on the above works amounts to Rs 291 1 0 only The difference between this and the amount shown in the annual accounts represents the value of work done last year, which was not disbursed during that year The reason for this small expenditure is that the contractor built up the wing wall of Kanchgunge bridge, which tumbled down during the previous year, with bad materials, and the workmanship was also bad The walls were condemned and the bill not passed When this wall was partly built, the contractor was directed to dismantle it, but notwithstanding this, he persisted in building upon the condemned work The contractor having done his work in this way, and failed to fulfil the stipulations of his agreement, his security deposit has been escheated

14 Ordinary annual repairs were effected to the Kolatya road. The repairs consisted in filling in ruts and holes and clearing jungle Twenty eight thousand two hundred and fifty-seven cubic feet earthwork, including turfing, were executed to raise the surface of the

road in several places and make good the slopes Six hundred and eight running feet bamboo revetments have been renewed to protect the sides of all the bridge openings The planked roadway of certain bridges have been repaired and two palm tree drains renewed The whole work has been done within the estimate, viz at a cost of Rs 341-15-9

15 The repairs to the Mohnat road have not been done during the year at all The contractor failed to begin his work, and it was too late to give a fresh contract The security deposit of the contractor has been forfeited for breach of contract

16 The road from Singpara to Sreenuggur was not undertaken, as estimates could not be prepared in time They were, however, ready in July, and submitted to you with my letter No 280, dated 11th July 1878, for approval The Superintending Engineer has since returned the scheme, remarking that it cannot come under the head of repairs, but is an original work, and asking for a complete report showing that a sufficiency of waterway is allowed for the free passage of drainage

17 Petty village works have also been carried out by the Central Committee and the Branch Committees, as detailed in the annual account, and do not require any special comment

18 During the year the Hilsamari river was surveyed and levelled, and detailed plans and estimates, amounting to Rs 26,466 prepared, and submitted to you with my letter No 280, dated 11th July 1878, but the Superintending Engineer has returned the project declining to sanction it on professional grounds

19 Plans and estimates were also prepared for deepening the Panyakhal, which has silted up to a small extent, and submitted to you with my letter No 280, dated 11th July 1878

20 On the application of the members of the People's Association of Mohesbwardi Pergunnah, praying for the removal of weeds from a part of the Berhampooter river that impedes the navigation this river was surveyed, and estimate, amounting to Rs 3,252, prepared, and submitted by the District Engineer But the Committee were of opinion that it would be a mere waste of money, as the weeds are likely to grow up again shortly, and directed the District Engineer to make the experiment in a part of the river only in which the weeds are heaviest at a cost not exceeding Rs 250

(6) The dredger has been a very heavy source of expenditure to the Committee for years, and, as separately reported in my No 239, dated 24th June 1878, is still useless Her crew, except just sufficient to keep her in order, were discharged on 19th February 1878, and she is now costing but little Government was asked in my No 239, dated 24th June 1878, to send some one to see the working of the dredger with a view to her condemnation if found unfit for anything, and accordingly Mr Fritsch, Assistant Engineer of the Canals Division, was deputed He arrived here about the middle of September, and made a trial of the vessel, but no report has yet been received from that officer A takeed has been sent to Government

The total expenditure incurred on the dredger is Rs 13,225-10-3, including the cost of two large mud barges, her roofing and repairs by the Eastern Bengal Railway Company These expenses were incurred, but not disbursed, during the previous year

(7) The system of carrying out the District Road Fund operations through the agency of the Public Works Department came to an end this year, and the Committee entertained a separate Engineer of their own from the beginning of the year

(8) During the whole year all the measures of the Committee have been carried out by the District Engineer and a staff of two Overseers, one Sub-Overseer, and temporary Surveyors acting under his immediate orders

(9) No new trees were planted this year along the sides of the district roads, but sufficient measures were taken for protecting and nursing those already planted on the Gorlundo road during previous years

(10) The Government Circular No 10, dated 28th October 1878, relative to planting mango, jack, and other fruit trees along the lines of road was received in this office only on 6th November last, and consequently nothing could be done to give effect to the Government orders during the year under report, but the subject had been previously attended to

(11) I append a statement showing the particulars required in paragraph 10 of the Government Resolution No 1286, dated 15th March 1876, in connection with the meetings of the Central and the Branch Committees

(12) There were seven meetings of the Central Committee held during the year, in all of which the quorum prescribed by law was present The average attendance was on the whole good, and the members took a lively interest in their work and transacted their business satisfactorily

Out of the seven meetings held, the Executive Engineer attended five, and gave the Committee the benefit of his advice

(13) The Branch Committees have also taken an interest in their work, and the Act has been worked without difficulty The main difficulty is this In the budget the Committee appropriate funds to certain schemes, and these are prepared and sent up. If these are

not sanctioned, or if there is delay in sanctioning them, the working season is lost, and the money lies idle This is too often the case It might be well always to send up an extra scheme or two, but this would entail extra work

(14) The office establishment has worked well, and the District Engineer has given his best attention to his work

(15) Works proposed to be carried out during the current year 1878-79 —

REPAIRS

(1)—The section of the Goalundo road between Shealo and Manickgunge to be repaired for which Rs 755 was sanctioned in the budget estimate, including the pay of the chowkidar for nursing young trees This estimate has been found insufficient owing to damages by floods, and the detailed estimate comes to Rs 1,012

(2)—Mymensingh road, or road from Dacca to Taki (52 miles) —Surface repairs, including jungle clearing, to be done to 19 miles, and the first three miles to be raised and improved. Earthwork will be executed in places where necessary, and repairs done to the pucka and wooden bridges on the line Three inspection bungalows were also provided for, but the Government having lately ruled that no inspection bungalow is to be constructed on any district road without the previous sanction of Government, the District Engineer was directed to abstain from taking any measures towards their construction, and to report if any are urgently required The outlay sanctioned in the budget for all the above said works is Rs 4467

(3)—The Narainguage road to be repaired —The repairs to consist of metalling and consolidating, jungle-clearing three miles, lopping branches of trees, and repairing the pucka and iron suspension-bridges and the bamboo piling on the fifth mile Amount sanctioned is Rs 5,329

(4)—Byed Bazar road —This road will be repaired, and the bridges on the line put into working order, for which Rs 914 were set apart in the budget-estimate

(5)—Ordinary annual repairs to be effected to the Kolatya and Monirat roads, for which Rs 522 and Rs 1,200 have been respectively sanctioned

(6)—Moonshegunge Sreenuggur road —Surface repairs to be done to this road as far as Singpara, including the Joinshar branch, earthwork to be executed in places where necessary, and the wooden bridges to be repaired Five new wooden bridges and temporary bamboo bridges will also be erected, and the bamboo piling renewed Amount sanctioned Rs 5,281 An inspection bungalow was also proposed for this road, but, for reasons stated above similar order has been passed in regard to this, as in the case of the inspection bungalows proposed for the Mymensing road

(7)—A sum of Rs 10,360 was sanctioned in the budget for the Moonshegunge Sreenuggur road continuation from Singpara to Sreenuggur, in accordance with the detailed estimates and plans submitted by the District Engineer, but the Superintending Engineer has, as before said, returned the project, saying that it does not properly come under the heading of repairs, but is an original work, and calling for a complete report This work will be undertaken during the current year, if the project is re submitted by the District Engineer speedily, and sanction goes in time

(8)—The excavation of the Hilsamari mouth —Rs 20,166 were sanctioned in the budget, and plans and estimates submitted to you for approval I see no prospect of this work being done, as the Superintending Engineer has declined to sanction it on some professional grounds

(9)—The deepening of the Panyakhal, which has partially silted —There is no chance of this being done also, as sanction has not yet arrived, nor any orders passed by Government on the scheme

(10)—The improvement of the bed of a part of the old Berhampooter, at a cost not exceeding Rs. 250

ORIGINAL WORKS

(11)—The road from Dacca to Mirpore, originally part of the Goalundo road scheme, which was partly done during 1877 78, will be completed during the current year Outlay sanctioned in the budget is Rs 21,371

(12)—A road will be constructed from Nursingdee on the Meghna to Dangi on the Lukhya This will open a means of communication throughout the whole year between these two rivers It will be the Sylhet dak road, and will give access to the Moonsiffee at Kaligunge, which is close to Dangi, and is a very useful work The project has, as above stated, received the approval of Government, and the contract given to Mr Landale The requisite draft declaration for taking up the land has been sent up for publication in the Gazette, and the District Engineer directed to set out the land at once, and be ready for the amin The amount of sanctioned estimate is Rs 18,250, including the item of bamboo bridges and revetments to be put on the openings along the road.

(13)—Petty village works will be carried out by the Central Committee and the Branch Committees of Moonshegunge and Manickgunge out of the allotment of Rs. 6,000 sanctioned.

(16) All the works proposed will be met from the proceeds of the District Road Fund of the year, which is to be derived from the following sources —

(1) cess on lands,
(2) fines,
(3) one per cent road cess,
(4) contribution to roads and communications from the Estates Improvement Fund,
(5) other miscellaneous,

and which is expected to amount to Rs 1,11,210, including balance of previous year, but exclusive of Rs 6,000 estimated for house-cess, as that cess is likely to be abolished

KRISHNA CHUNDER RAI,
Vice-Chairman

No 205C, dated Furreedpore, the 20th January 1879

From—J E B JEFFERY, Esq Covenanted Deputy Collector in charge, for Chairman, Road Cess Committee, Furreedpore,

To—The Commissioner of the Dacca Division

IN continuation of this office letter No 1380, dated the 28th December last, submitting the annual accounts of income and expenditure for the cess year 1877-78, I have the honor, in the absence of the Chairman on tour, to submit the following report on the administration of the fund for that year

2 The delay in the submission of the accounts and report beyond due date was owing to two causes—*first*, that the members who were appointed to audit the accounts did not attend regularly on the dates fixed for the examination, *second*, that the District Engineer, being quite new in the district, could not in due time furnish the committee with his report, which was only received on the 12th instant

3 The annual accounts have been duly audited by a sub committee consisting of the members marginally mentioned, and were afterwards passed by the district committee at a meeting held on the 30th December 1878

T G Charles, Esq — *Vice Chairman*
J E B Jeffery Esq, Baboo Gungadhur Mazumdar, Baboo Uma Charan Acherjee — *Members*

4 The actual amount available for expenditure during the year under review was, including the balance on the 31st October 1877 Rs 1,20,542-11-10, and the actual expenditure under the several heads as per annual accounts submitted was Rs 60,385-3-2, leaving a balance of Rs 60,157-8-8 Though this will, on first sight, not appear a satisfactory progress still, on consideration of the disadvantageous circumstances, such as want of good contractors, scarcity of labour and materials in the district, with which the engineering staff had to contend throughout the year, and the fact that the works are scattered over such a large area, they can hardly be censured

5 Though every endeavour was made by advertisements and all other possible means to procure a good set of contractors, having sufficient capital at command, none came forward, consequently we had to depend on contractors of small resources, and some works were made over to them rather reluctantly

6 The season, too, was to a certain extent unfavorable The floods set in somewhat earlier than the previous years, and it rained almost incessantly during the latter part of the working season

7 The reason that good contractors did not come forward was that the rate allowed in this district is very low My reason for saying so is that while inviting tenders for the earthworks of the Rajnagar Road several contractors of the adjoining districts tendered for the work at much higher rates Our rates are generally guided by the Public Works Department rates of the districts, in which Department the works are of limited scale, and are generally at the head-quarters and the sub-divisions where labour and materials can be more easily procured than in the interior of the district

8 The budget allotment for the year under report was not also properly made Provisions, on a large scale, were made for works for which no plan and estimates were ready, or would be ready, during the season In fact, the principal reason of the unsatisfactory result is the smallness of our establishment We are not allowed to spend more than 25 per cent of our income on establishment, and our income is small That, however, would be quite sufficient if the works could once be brought in full swing At present we have to choose between two things—either to employ our establishment on preparing estimates, and show no work during the year, or to employ them on petty works, leaving all important projects alone The former plan would in the end be the best, but for obvious reasons it has not been adopted.

9 Another cause which has prevented work being done is the fact that our Engineer had only the qualifications of an Overseer This has necessitated frequent references to the Executive Engineer as respects the most trifling works, and has involved constant delay Moreover, the other plans and estimates which were sent in were not returned until after a very long time had elapsed As an instance of this I may mention those for the Rajnagar Road, the most important work in the district, which were sent in on the 2nd November 1877, and only returned with the Government sanction on the 27th September 1878, and the Bazar Bridge, for which no sanction was received until the work was nearly completed, and the season over Had not the repairs been carried out without sanction, it is hardly likely that the bridge would have been standing now

10 In order to give the people some benefit from the money levied from them, I revised the budget by making a further grant of Rs 2,000 for village roads in the Midnapore sub-division Had the matter come before me earlier, I should have been glad to have allotted a much larger sum, and to have extended the operations in village roads, both in the Sudder and Goalundo sub-divisions but the season was over, and few applications had been received Every application made for *bona fide* village roads was granted It is to be hoped that in the current year now that a special village road sukan has been appointed, much more will be done in this direction

11 When I joined the district I found that several existing works, especially of the sub-division of Midnapore, the repairs of which would prove greatly beneficial to the people, were not in the list of works, the deficiency of which has been always reported

12 Considering the above circumstances, and also comparing the outturn of the year with that of the previous years, it will be apparent that the state of affairs has greatly improved, and further development is expected during the present year

13 The following are descriptions of the important works on which money was expended during the year under review

14 *Amua Road*—The proposed line for this road from Talma to Amua, five miles 1,348 feet in length, was laid out during the year 1876-77, but further progress was stopped to allow the establishment to look after important repairs The line was surveyed during the year under report at a cost of Rs 111-9-7 The plan and estimate are under preparation, and I hope will be shortly submitted

15 *Bathundia Khal*—The survey and levelling of this work of deepening the khal, which extends over 10 miles from Dhole Samudra to River Subarnakhya were completed at a cost of Rs 189-4, but the preparation of the plan and estimate was deferred, as it is doubtful whether the project would be feasible or not unless the Furreedpore khal, which supplies water to the Dhole Samudra, be excavated in which case the deepening of the two khals should come under the category of one project However, as the deepening of the Furreedpore khal is under contemplation, and the question of feasibility of this work is purely professional, the committee have determined to postpone the work during the present year at least

16 *Goalchamat Bridge*—The construction of this bridge was proposed to allow more waterway for the discharge of water which during the rains endangers the safety of the embankment of the existing Goalchamat Bridge, and destroys crops lying north and west of Goalchamat. A plan and estimate for this work were long ago submitted to the Superintending Engineer, who returned it for further information and alteration in the design The plan and estimate were not re-submitted owing to the velocity of current having been not ascertained This was done during the last year, and the estimate will be soon ready Rs. 749-9-9 were expended for the purchase of materials (coal)

17 *Rajbaree Road*—This proposed feeder road for connecting the Rajbaree Railway Station with Furreedpore has been under contemplation for not less than the last 15 years It will be seen from previous correspondence in your office how very desirable the work in question is, and how often the plan and estimate were submitted and returned for revision It will, I think, be sufficient to state in short that a plan and estimate of earthwork prepared by the late District Engineer, Mr Staples, submitted in November 1877 received the approval of Government only in August last The work has not been as yet commenced, as the necessary lands have not been acquired under the rules This, of course, is I anticipated, will take much time However, with a view to have the work done as speedily as possible, the permission of Government has been solicited through you to my taking immediate possession of lands before award of compensation or reference to civil court, and unless this sanction is accorded at an early date, it is feared nothing but the award of compensation will be done Rs 47-14 7 were only expended on this work

18 *Rudrakar Road*—This road is proposed to run from Auguria Bazar in a eastward direction to Rudrakar Its total length is two miles and 690 feet The work is desirable, and the Sub-divisional Officer of Madareepore reports that the mundir of Rudrakar, Baboo Shoshi Bhushan Chakravarti, has promised to contribute Rs 3 000 for this work The Baboo deserves thanks, and I will shortly write to the Sub-divisional Officer to request the Baboo to pay in the amount, and to inform him that every possible care will be taken to utilize his donation as early as possible Rs 10-5 7 were expended for the survey of this road

19 *Auguria Road*—This road is to commence from Auguria Bazar (whence runs the Rudrakar Road mentioned above) to Palang, near the Sub-Registrar's office and bazar This road is very desirable, as it will connect the two important marts of Auguria and Palang, and remove the inconvenience hitherto felt by the dâk-runners and others coming from Madareepore to Palang Rs 57-1 9 were expended for the survey of this road

20 *Bhojeswar Road*—This proposed road is also in thana Palang It will extend over four and a half miles in a northward direction from Palang to Bhojeswar Baboo Rajkumar Paul of Bhojeswar contributed a handsome sum of Rs 5 000 towards the construction of the work The field work was finished at a cost of Rs 36-10-11 Plan and estimate are under preparation

21 *Gosairhaut Road*—This road, 12 miles and 433 feet in length, is to run from Gosairhaut to Palang The field-work was completed last year at a cost of Rs 67 14, and plans and estimate submitted to the committee They were returned for alteration of a portion of the line

22 The above-mentioned four original works, viz Rudrakar Road, Auguria Road, Bhojeswar Road, and the Gosairhaut Road, are all desirable, and the undertaking of them, especially of the two for which two gentlemen have offered munificently, at an early date is necessary, and I have, while writing this, requested the District Engineer to lose no time in the preparation of their plan and estimates, so that if nothing can be done this year, there may be no hindrance in them undertaking during the next working season

23 *Habashpur Road with a Branch Road to Josai*—This work was advocated by Mr Posford, the late Sub-divisional Officer of Goalundo who took an active and lively interest in road works and rendered valuable assistance to the committee by his notes and suggestions. This road is to run from Pangsha to Habashpur, and thence to Josai, all of which are important places The portion between Pangsha and Habashpur was surveyed during the year, but Muhurmi Surnamoyee Devi, of Kishumbazar, the owner of land, raised objections to the line laid down, and the District Engineer, on enquiry, suggested an alteration Since then nothing has been done However, as there is no immediate necessity of this work it may be deferred till the more important works in the Sudder and Madareepore sub divisions are completed Rs 22 were expended for survey of this road

24 *Bamhaboo Road*—This road was undertaken at the request of the branch committee of Goalundo and of the villagers of Bamhaboo, which was formerly an important village, but is now overrun with jungle which gives cover to pigs The line was surveyed at a cost of Rs 9-5 The plan and estimate have lately received sanction The work has not been commenced, pending the acquisition of land for which a requisition has been submitted The road will commence from Mahomed Rai to Nasibsahee bhar, along the bank of the Dapakhali khal in Bamhaboo Its total length is two miles

25 *Pangsha Road repairs*—This road extends over a length of nearly 40 miles from Kanaipur to Goalundo It has 42 bridges on it, and is a very important road, and when thoroughly repaired will become very useful for cart traffic and passengers The expenditure on this road during the last year was Rs 11,034-10 3 Nearly the whole of this amount was expended on earthwork and turfing. The bridge repairs were hardly touched for want of materials. The road being of unusual length and the work scattered, the collection of materials on the spot is very difficult However, a fresh estimate has been prepared and sanctioned, and it is intended to do the work in two years, materials, &c, being collected during the next rains to do the bridge work.

26 *Jessore Road repairs*—This is another important road of the district It is a portion of the Grand Trunk Road from Dacca to Calcutta *vid* Jessore Its total length in this district

is 17 miles 840 feet, and has 20 bridges on it. Two of its important bridges over Mahishala and Mogurdia khals have given way. It is proposed to have wooden bridges constructed over those khalls as soon as funds are available. By the repairs done last year, the road was put in good condition, but the first six miles suffered much from the heavy cart traffic, and so the Engineer suggested metalling of that part, but the committee did not think it necessary and desirable, as long as the two bridges which have fallen down are not reconstructed. There is at present a ferry located at Mahishala. A temporary causeway will no doubt remove the inconveniences of the passengers at least for nine months of the year.

27 *Bazar Bridge repairs*.—This bridge is on the above road, over the Furreedpore khall, which runs from Gringee to the Dhole Samadra, forming almost a semi-circle round the town. It is undoubtedly a faulty construction, its principal defects being—

1.—Insufficiency of waterway.
2.—Want of proper foundation.
3.—The invert or flooring being laid at too high a level.

For the above reasons it has proved a bar to the deepening of the Furreedpore khall. The rush of water through the openings of the bridge caused an eddy to form which has excavated, on the south or down-stream face of the bridge, about 25 feet apart from the flooring, a deep hole found by sounding to be 29 feet deep. This hole is gradually increasing in width, so there is every possibility of the bridge being in time undermined. To have this hole filled up with stone or boulders, and give substantiality to the bridge it is necessary to incur a large expenditure, which is by no means desirable especially as it has become a bar to the deepening of the Furreedpore khall. However, the repairs done last year has saved the bridge from going down, and it is hoped that by a slight repair this year the bridge may stand for some time. It is deserving of notice here that the repair of the bridge was done under most adverse circumstances, it having rained almost every day. The contractor and the overseer in charge of the work, Baboo Mon Mohon Ghose, were favorably reported by the late District Engineer for the energy displayed by them. Rs. 5,993 were expended on this work.

28 *New Tulma Road*.—This road extends from Furreedpore to Tulma. Its length is 10 miles 4,260 feet, and has six bridges on it. By the repairs done last year the roadhas been restored to a pretty good condition. There are six khalls running across the road, one of them, Jamtala, has been bridged and some others will be bridged during the current year, and it is hoped to complete all the bridges by the next year.

29 *Old Tulma Road*.—This is a very useful road, and is resorted to by a large number of people coming from the south to the station. Its total length from Furreedpore to Foolbaree is little more than five miles, and has four bridges on it. The others are in complete ruin. Last year an estimate was prepared and sanctioned, but for want of a contractor the work was not touched, only overhanging branches of trees were cut down at a cost of Rs. 33-14. A fresh estimate has this year been prepared and sanctioned and every endeavour will be made to have the repair finished. The two Tulma roads nearly encircle the Dhole Samadra.

30 *Hatoonia Road*.—This road, 1¾ miles in length, extending from Nowabangani to the police outpost of Lumnuttee in Muttiespore, is the gift of Baboo Kali Kissen Lagore of Calcutta. The road was formerly in a very bad condition, last year's repair has rendered it passable. A portion of this road at Muttiespore is still unconstructed. The reason for this was that at the time of land acquisition of this road one Hara Mohun Ghose, one of the above-mentioned village prayed to the Collector for a deviation of the line, which request was granted without due local enquiry. The deviation line so granted was a most semi-circular, having a road of Hara Mohun Ghosh at its diameter through which the original line was intended to run. The Public Works Department authorities of Furreedpore, who were then in charge of the work, left the deviation line unconstructed, consequently people passing over it could make use of Hara Mohun's road, which is a much nearer one. To have this connecting road well repaired the branch committee of Madaripore called Hara Mohun this year, but, for reasons best known to himself he tried to change the site of one of the two bridges on the road. This alteration was objected to by the branch committee and the repair of the road stopped. To set matters right for ever, it has been proposed to take possession of Hara Mohun Ghosh's road formally under the Act. Rs. 5,941-9-3 were expended on earthwork and repairs of bridges on this road.

31 *Sreekar Tiana Road and road from Pachkoa to Bandarkhalla*.—These two, as the Sub-divisional Officer of Madaripore reports, were formerly one road, and constructed about 1845 by the exertions of a police officer of that time, Sreenath Jemadar, whose name is still remembered with gratitude by the people of the locality. The river Padma having cut away the angle of the road at Pachkoa, has divided it into two parts denominated above. The repairs of these two works were commenced late, the season was far advanced, consequently only partial repairs were done. It is intended to have the repairs completed this year. The total length of the two roads is five miles 1,660 feet. Rs. 2,106-14-3 and Rs. 1,177-6-4 were respectively expended for their repairs.

32 *Poragacha Road repairs*.—This road, 1½ mile in length, connects Naricole and Poragacha Bazar. The work having been commenced late, very little was done. Rs. 124-9-5 were only expended. It is intended to repair the road this year.

33 *Kotalipara Thana Road*.—This road, only about a mile in length, extends from Kotalipara police station to Pachimpar. It is a portion of the old Badshai road commonly known as *Sapht Khan's Jangal*. Partial repairs were done during the last year at a cost of Rs. 1,089 3-1. The repairs will be completed during the year.

34 The above mentioned four roads, viz. Bonderkholla, Perugacha, Sivchar, and Kotalipara roads, were not at first provided for in the budget nor were they even in the list of roads. They were taken in hand somewhat late in the season, and the budget revised and a supplementary list under section 65 submitted. Though energetic measures were adopted, the works were not as fully completed as wished for, on account of the early setting in of the flood and the incapacity of the contractors.

35 It will be seen from the above that almost all the roads which were repaired last year require more or less repair this year, and provisions for them as well as for the repairs of most of the existing works have been made in the current year's budget, so it is unnecessary to detail further.

36. It is intended to do the following original works this year —

1. Rajbarie road earthwork.
2. Gualchamat bridge.
3. Bamboo road.
4. Krokdi road.
5. Kazibadha road and bridges on the line of existing roads, and also, if possible, to arrange all preliminary works for the construction of Bhojeswar, Ruarikhal, Auguria, and Gosaikhat roads in Madarepore.

37 *Arboriculture*.—This was done to a certain extent in parts of Jessore, new Talma, and Char Kamlapur roads both during the last year and year before that. The trees are growing fairly and were well cared for.

38 The Act has worked pretty well in this district. The people have generally appreciated the intention of the Act, and will, I hope, understand it more thoroughly when the works under proposal are completed and village communication put in a more regular order.

39 My views as regards the system of collection have already been reported, and I beg simply to state that it has generally worked well. As regards the administration of the fund on works, I have nothing to add, excepting that the power of the committee in sanctioning estimates should be, I think increased, but this has been to some extent effected by the appointment of an officer with powers of an Assistant Engineer.

40 *Committee, Sudder*.—Great inconvenience was felt at the beginning of the year for want of a sufficient number of members to form a quorum. To remove the inconvenience the list of members was revised and their number increased from 9 to 13. There were 12 meetings held during the year, in three of which no quorum was formed, one was attended by three members, four by five members, two by seven members, and the remaining two by eight members. Some of the non-official members have taken great interest in discussing subjects laid before the meeting, indeed none of them have been wanting in interest. The difficulty felt in forming a quorum is due to the fact that the district contains very few resident landholders and hardly any who reside out in the town. The roads are not bad, there are no ferry ghâts, and next to pakka roads and in most cases the resident gentry can hardly be expected to attend meetings regularly. I believe that all the members take an active and intelligent interest in the work, and I have always found them to be of the greatest assistance when present.

41 *Branch Committees*.—Each of the two branch committees at Goalundo and Madarepore held four meetings only. The attendance of the non-official members at Goalundo is not satisfactory, and I am of opinion that the committee there did nothing during the year. The reason for this, as I presume is the several changes the committee have suffered by the transfer of the sub-divisional officers and of the vice-chairman, Baboo Monendra Nath Mozumdar. The committee at Madarepore have worked well, and Baboo Saroda Kanta Sein, vice-chairman, deserves credit for the energy displayed by him.

42 *Village Roads*.—The following allotments were made for village roads —

		Rs
Sudder Sub-division	.. ..	2,000
Goalundo ,,	..	2,000
Madarepore ,,	.. .. ..	5,000
	Total	9,000

Out of this allotment Rs. 6,612-1-4, viz. Rs. 1,029-6-1 in Sudder, Rs. 787-9-3 in Goalundo, and Rs. 4,795-2 in Madarepore were expended. From the above it will be seen that Madarepore

did the best, both Sudder and Goalundo have failed The reason for this poor progress was owing to people not coming forward to receive assistance With a view to avoid this difficulty, a sarkar has been especially employed, whose duty it will be not only to supervise works, but to induce villagers to apply for funds and explain them the views of Government

43 The Sub-divisional Officer of Madarepore reported that for want of main lines of roads in his sub-division, and as the whole of the sub-division becomes covered with several feet of water, judicious and useful distribution of funds is very difficult, and village communication is also so He says that most of village roads in his sub division are in their nature original works requiring larger outlay than what is generally allowed for works of this description He further says that outlay on those village roads which do not lead the people to any important place, such as to a bazar or ghat of a river used for the purpose of bathing and drinking, is not very useful, and I quite agree with him on this point However, he has been requested to make as judicious allotments as possible and construct small numbers of roads sufficiently high, of course not affecting the natural flow of water and drainage of a village

44 The establishment employed on works consisted of one District Engineer, two Overseers, and one Sub-Overseer Mr Staple was the District Engineer throughout the year He had at first the powers of an Overseer, but was subsequently vested with the powers of an Assistant Engineer on his passing an examination to that effect He was in home and deserving officer and prepared two important projects, viz Rajbarie road and Ramnagar khall, for both of which he was favorably spoken of The two Overseers, Baboos Apurba Chunder Ganguli and Mon Mohun Ghosh did their work well, the works in charge of the latter were rather heavy, and he deserves notice for the activity and zeal displayed by him

45 The charge of accounts was for nearly the half of the year under report in the hands of accountant Baboo Mohunto Majumdar, who absconded after an embezzlement of Rs 311 3 9 A detailed report as to how the embezzlement was committed, and who were made liable, was submitted with this office No 10, dated 10th October 1878, and the Examiner of Public Works Accounts No 631 dated 9th September 1878) And I may simply to state here that not a single cheque was forged but only a sum which was made over to him against the rules was pocketed The committee have taken due precautions against future embezzlement and loss by raising the security of the accountant from Rs 100 to Rs 500, and also by appointing as accountant a resident of this district whose position is a guarantee for his honesty

46 The collection establishment under the Collector consisted of one head clerk, two clerks three mohurrirs and peons, besides two peons They have, so far as I have known, behaved well, collected and the accounts well

47 The following are special and general observations regarding the district and its road

48 The district of Furreedpore, as will appear on reference to a map is a flat alluvial tract covered with fields and grasses and surrounded on three sides by large navigable rivers This tract has several kinds running through it, the running the rainy season when the country is inundated to a depth of 10 feet, but dry up as soon as the water recedes The excavation and removing of silt of one of these kinds will not only create a communication of the district, but will also irrigate and give an impulse to the commerce of the opulent districts

49 The excavation of kinds would in most cases in this district be more beneficial than the making of roads especially as the latter would destroy the cultivation and the former may be used as roads, and I request that I may be permitted to do some work in kinds The work however is one which cannot be undertaken with such a limited establishment as we have at present but if more help can be given to me at some time yet It has been proposed to open a channel from Furreedpore to Kumarkhali but this could not be done without very much trouble, and it is doubtful whether it would have the effect of draining the Dhole Sandra into the Garai as it is thought by the latter opening the communication was given up to effect An attempt was made to open communications between the Kumarkhali and Garai in March last and Mr Staple reported that the level of the Kumarkhali is 4 feet higher than that of the Garai and that the only effect of opening communications would be to create a flood Whether this is right or not remains yet to be seen, and a fresh survey has been ordered by the committee and will be commenced at once

50 Another matter of interest that it is impossible now to ascertain what quantity of land was taken when the existing roads were constructed At present the cultivators push on their cultivation up to the very edge of the roads, and it therefore becomes necessary to dig excavations on cultivated fields, a thing no private when asked for It is under the circumstances necessary that the boundaries of roads should be settled and the lands formally acquired for without such roads would be a thing almost impossible The District Engineer has been requested to proceed with a survey of each road graduating and submit plans of the extent of land which should be taken up permanently

J ANDERSON, *Chairman*

No 251, dated Burrisal, the 3rd January 1879

From—A MACKIE, Esq, Vice-Chairman, Road Cess Committee, Backergunge,
To—The Commissioner of the Dacca Division

I HAVE the honor to submit my report on the administration of the District Road Fund for the cess year ending 30th September 1878, together with a detailed account, in the prescribed form, of the receipts and expenditure of that fund during that period

2 The District Committee consists of the Collector the Senior Covenanted Deputy Collector, Road Cess Deputy Collector, the Manager of the Court of Wards' Estates, and a number of non-official gentlemen, mostly landholders and their agents As a rule, the non-official members residing in and about the sudder station evince considerable interest in the work of the committee, attend its meetings punctually, and discuss all questions brought before them with intelligence and attention There are some members, however, who, whether owing to the distance of their home from head quarters, or from other causes, do not attend its meetings, and seem apparently to take no interest in its work I shall shortly address them either to attend the meetings of the committee or cease to be its members

3 During the year 1877-78 there were altogether nine general meetings held, against seven in 1876-77 All with the exception of one were well attended

4. The subjoined table gives an abstract of the attendance of the members at the meetings held at the sudder and sub divisional head quarters for the year

There are three sub divisional or branch committees in the district—one at Perozepore, another at Patuakhali, and a third at Bhola I here quote each sub-divisional officer's remarks on the sub-committee at his sub division

The Sub-divisional officer at Perozepore remarks —"The non-resident members are, as was to be expected, very remiss in their attendance, and with one or two exceptions have shown no interest whatever in the proceedings I have, however, received much help from the resident members, both official and non-official, and there can be no doubt that the interest taken by them is gradually increasing" The sub-divisional officer makes very favourable mention of the Vice-Chairman of his sub-divisional committee He says —"Baboo Ashutosh Mitter, the Vice-Chairman, takes a lively interest in the works of the committee, and his professional knowledge has been of great use to us"

The Sub-divisional officer of Bhola remarks that "five meetings of the committee were called this year as was occasionally found necessary Most of the members seemed to take a lively interest in the management of the Road Cess Fund"

The Sub-divisional officer of Patuakhali remarks —"There were three meetings held during this year, sufficient number of the non official members attended the meetings so as to form a quorum. The members took an interest in the management of the fund."

Income.

5 The total income of the year, including the unexpended balance of Rs. 97,554-9-9 of the previous year, amounted to Rs 1,96,240-0-3 as shown below —

	Rs.	A.	P.
Land cess	95,907	11	1

Total Income ..	98,705	6	6

Expenditure

6 There was a total expenditure of Rs 71,465-2-7 under the following heads during the year —

	Rs	A	P
Collecting establishment	8,016	8	5
Contingent charges	3,045	9	1
Original works	18,469	9	1
Repairs	19,352	1	3
Engineering establishment	16,613	6	0
Tools and plant	5,058	0	9
Total Expenditure	71,465	2	7

The details of expenditure are given in the accounts which are submitted herewith

Original Works

7 The original works undertaken during the year have cost in the aggregate Rs 18,469-9-1 Of these works I may mention the following as most important —

Sudder Sub Division —*No* 6, *Gour Nuddee Road* —This is a road from Burrisal to Gour Nuddee police station, the length of which is 22 miles The total amount estimated for this road with bridges is Rs 1,13,779-6 A great portion was completed from private funds and by private individuals The earthwork of two miles and 20 bridges, however, remained to be constructed, but of this one mile of earthwork and two of the bridges have been completed during the year under review at a cost of Rs 2,730 8 6 According to the sanctioned estimate, Rs 4,5 9 2 6 will be required to complete it Government sanction to the estimate of this road has been received only this year, but the above mentioned amount was expended on it during 1877 78, after the receipt of the Superintending Engineer's sanction If the Road Cess Committee of the Furreedpore district continue this road, it will be one of our main arteries of communication

No 7, *Backergunge Road Length eight and a quarter miles* —This road is also very important, connecting Burrisal with the large mart of Backergunge on the south of the district Out of the total amount estimated for this road (Rs 9,776-14 7), over Rs 500 had been previously expended The total expenditure during the year under report in this road was Rs 821 It has been completed throughout for half its width The remaining half and the bridges will be taken in hand during the current year

No 8, *Basanda Road* —The length of this road is one and a half miles Sanction to the estimate for widening and bridging it was received late in the season Only Rs 311-4 6 have been spent out of the total estimated amount, Rs 3,225

No 38, *Jhalokati to Perozepore Road Length* 25 *miles* —The allotment to this road was for extending it from Burrisal to Jhalokati and so on to Perozepore This is an important road along which the Calcutta dâk will travel Very little has been done towards getting up the project of this road, as the survey and all papers regarding it were lost when the Perozepore Overseer's boat was upset in the Baleswar river A new survey is being made

No 4 *Babulatia Road bridges* —This allotment was for substituting masonry culverts in place of the wooden bridges at present in use An estimate is now in hand for re-aligning, widening and bridging it This road is important as the first link of the route to Backergunge and the Patuakhali sub division Regular plans and estimates will soon be submitted for sanction

No 9, *Madhabpasa Road Length* 7 *miles* —This is a very important road to the west of the district and is largely used by the people It connects Madhabpasa, a large village, with Burrisal An allotment was made for bridging it, the amount of which is Rs. 7,931, but of this only Rs 739-1 have been expended, in anticipation of sanction, in making bricks for the bridges This road also facilitates the dâk communication between Burrisal and the Banaripara or Shiruphattee post office in the Perozepore sub-division. Projects have been submitted to the Commissioner for sanction

No 5, *Mukerjia's Road. Length* 1 *mile*—This road connects the Madhabpasa and the Gour Nuddee roads The estimate for this road was received and sanction accorded by the committee late in the season Only Rs 141-4-6 were spent during the year under report The estimate includes widening it from a 5 feet to a 10 feet crest, and the building of two bridges at a cost of Rs 1,623

No 2, *Malchia Road*—Out of an allotment for the construction of bridges on this road Rs 1,475 11 6 were spent in preparing materials Projects for the complete bridging of this road have been sent up for sanction

PATUAKHALI SUB-DIVISION—*No* 36, *Kaloya to Bawfal Road Length* 9 *miles*—This is one of the important roads of this sub-division, and was taken in hand as a relief work, and about Rs 800 spent on it The work was badly executed and more money had to be spent on its improvement In all Rs 1,420 1-3 have been expended on about two miles. This road unites the two well-known marts Bawfal and Kaloya, in thanna Bawfal, in the south east of the district

No 37, *Bawfal to Golachipa Road Length* 8 *miles*—This is also an important road and was commenced as a relief work and made for little over a mile This portion has been improved during the year under report at a total outlay of Rs 1,115-2 About seven miles remain to be constructed to complete this road It connects the two police stations Bawfal and Golachipa, and is very largely used by the people Regular plans and estimates will shortly be submitted for sanction

DUKHIN SHABAZPORE SUB DIVISION—*No* 32, *Tarunhat to Bahanuddin or Kalijunge Road*—This road was taken in hand as a relief work after the cyclone of 1876 Its length is about 12 miles It is an embanked road and is very largely used Rs 1,819 were expended on it, but it requires re-alignment Plans and estimates have been submitted to the Commissioner for sanction

No. 31, *Mirzakalee to Dowlut Khan Road Length* 10 *miles*—This road connects the two large marts of Mirzakalee and Dowlut Khan in Dukhin Shabazpore This was also taken in hand as a relief work Rs 1,086-5-6 have been spent on it, but it requires re-modelling Plans and estimates have been submitted for sanction

No 10, *Extension of Dowlut Khan to Bhola Road*—This is intended to connect Bhola with the bank of the river Ilsa, on the west side of the sub-divisional head-quarters at Bhola Rs 706-8 5 have been spent out of a sanctioned amount of Rs 1,692-13 3

No 35, *Bahanuddin or Kalijunge to Nazirpore Road Length* 12 *miles*—This is an important work connecting two police stations in the Bhola sub-division Only Rs 98 odd were expended in surveying the road during the year under report Plans and estimates have been submitted to the Commissioner for sanction

REPAIRS

8 In all Rs 19,352 1-3 were spent on repairs during the year, details of which will be found in the accounts submitted

9 The year under review may be called the first working year since the introduction of the Road Cess Act in this district Previous to this not more than one or two works of importance were begun with the exception of those undertaken during 1876 77, with a view to give relief to the people of the wave-stricken tracts of this district 37 original and 16 repair works were commenced during the year 1877 78, against eight original and nine repairs of the year 1876-77 A regular engineering staff has been entertained since the beginning of the year under report

The outturn of works is not large but this was to be looked for The number of original works requiring detailed plans and estimates was great, the establishment was new to the district, and supervision somewhat difficult and perhaps lax

10 The whole question of khals is difficult and complicated Unless these projects are most carefully worked out a large expenditure one season may be thrown away the next

VILLAGE COMMUNICATIONS

11 Nothing worthy of notice has been done towards the construction of village roads and waterways By an oversight no provision was made in the budget for the year 1877-78 for village communications for the sudder and Bhola sub-divisions. Allotments were made for them in Perozpore and Patuakhali, Rs 1,300 being allotted to the former and Rs 2,500 to the latter sub-division under this head The Sub divisional officer of Perozepore, however, was the only officer who did something in this direction He spent Rs 1,446 11-6 under this heading for the construction of the marginally noted roads* The Sub-divisional officer of Patuakhali after repeated applications spent Rs 225

* Chita to Kumarkhali Road
Sharupkattee to Kumarkhali Road
Royerkhali to Hularhat Road

12 I expect to show considerable improvement this year in the matter of village communications, sufficient allotment having been made in the budget estimate Arrangements have already been made for the outlay of Rs 31,000 under this head in this year

13 *Superintendence*—The District Engineer and the four Overseers under him carry out the work of superintendence under the committee, sub-divisional officers having very little time to superintend the works in their sub-divisions They can only supervise the roads which are at their head-quarters and those which fall in their way in their cold-weather tours With reference to the village roads the members of the sub-divisional committees can,

I believe, do much with the assistance of the District Engineer and his executive subordinates whenever any professional assistance may be required

14 *Chairman*.—During the first-half of the year under report Mr E J Barton, the Collector and Magistrate, was Chairman of the District Road Cess Committee He was succeeded by Mr W M Clay on the 19th March 1878, and Mr J Kelleher took charge of the office from him only on the 3rd of August last

15 *Vice-Chairman*.—Mr F W Badcock was Vice-Chairman of the Committee in the beginning of the year He made over charge on the 10th November and Mr J E B Jeffery was appointed Vice-Chairman on the 21st December, and made over charge on the 15th May last. Babu Okhoykumar Sen, the Road Cess Deputy Collector, was elected Vice-Chairman on the 12th August

16 *Sub divisional Officers*.—Of the sub-divisional officers, the following gentlemen appear to deserve commendation for the interest displayed by them in connection with road fund works in their respective sub-divisions —

Mr R C Dutt, Sub divisional officer of Bhola,

Mr K G Gupta, sub-divisional officer of Patuakhali and Perozepore

17 Mr. Dutt left the sub-division of Bhola on leave, and was then transferred to another district, and Moulvi Tyumul Ali took charge of the sub division from him Mr Dutt spent a large portion of the allotments of his sub-division very usefully The distressed people of the Dukhin Shahazpur island, who had lost their property in the cyclone, were much benefited by the works opened in that sub-division, while at the same time the roads are largely used by the public Roads are more urgently required here than in other parts of the district as the khals in this sub-division are near the Megna and soon silt up The total expenditure of this sub-division was Rs 10,161-5, while there was a balance of Rs 359-4-3 in the hand of the Sub-divisional Chairman All the repair works which were sanctioned for this sub-division have been executed, but among the original works only the Bhola extension road was undertaken

18 Mr Gupta also did considerable good in Patuakhali in the way of opening relief works Roads were opened by him in that sub-division for the relief of the distressed and are now largely used by the public The total expenditure of this sub-division during the year was Rs 3,672 2-3, while there was a balance of Rs 221-14-9 at the credit of the sub-divisional officer at the end of the year

19 *Engineer*.—The District Engineer, Mr R S Glover, was in charge of the district road works throughout the year The out-turn of work for the year is very unsatisfactory, but this the committee are willing to overlook under the peculiar circumstances of the case already explained For the current year, however, it is but fair to expect more satisfactory results from the Engineer's establishment, and in the event of failure, I think the District Engineer should be called to strict account This gentleman, though well qualified by professional knowledge, is wanting in that tact and discretion which are essentially necessary to successful administration It is to be hoped that with more mature official experience he will realize a sense of personal responsibility and evince greater energy and zeal in the discharge of his duties

20 *Overseers*.—The following persons were overseers during the year of report —

Mr E M Desilva

Babu Godadhar Sen

,, Guru Prosanno Banerjea

,, Madan Mohan Banerjea

I have no opportunity of seeing much of these overseers, who worked directly under the District Engineer and the sub-divisional officers, and I therefore quote here the remarks made by them regarding the conduct of these overseers —

Remarks made by Mr Glover —

"Mr Desilva is a good man with large experience, but I do not think sufficiently energetic He has been a long time in the district and his knowledge has been of great use to me."

"Babu Godadhar Sen joined straight from college, had no practical experience either in the preparation of plans or in the execution of work was unequal to cope with the contractors of this district, but had a good theoretical knowledge and has proved himself hard-working and energetic So well has he made use of his opportunities that I am now in a position to report favourably of him."

"Baboo Guru Prosanno Banerjea has had previous experience, and all through the year has proved himself fully equal to the occasion in both intelligence and energy."

"Baboo Madan Mohan Banerjea is a comparatively old man, and I am of opinion incapacitated for work He has had a good deal of experience in the petty repairs and accounts, but he is totally unable to carry out the operations necessary to the preparation and sanction of original estimates The most superficial examination of his surveys discloses grave inaccuracies."

Remarks made by the Sub-divisional Officers regarding the Sub-divisional Overseers

Moulvi Tyumul Ali writes thus —

"All the roads were regularly inspected, directed and measured by Baboo Godadhar Sen, local overseer of this sub division, who seems to be an efficient, hard-working officer, and has always given me satisfaction by the regularity and punctuality of his work He will do good after some more experience."

Mr Gupta writes thus — "I am sorry I cannot speak very highly of the local overseer, Baboo Guru Prosanno Banerjea He appears to be an intelligent man, but his supervision has not been so strict, nor his work so careful as I could have wished There were also several complaints against him I am, however, willing to give him another year's trial, and it is to be hoped that he will then have deserved a better and more favourable opinion"

Baboo Krishna Chunder Dutt reports that "Baboo Modan Mohan Banerjea, overseer attached to this sub division, was employed in drawing out projects and plans and supervising the works conducted by the contractors In my opinion he has fairly discharged his duties"

21 *Road Cess Act* —The collection during the year amounted to Rs 93,907-11-11 against the demand of Rs 1,65,296 Efforts are being made to collect the arrears

22 *Operations of the next year* —The following is a brief account of the proposed road cess operations for the year 1878-79

Expected income —The total amount of cess leviable under the Act and the income from other sources are estimated as follows —

	Rs	A	P
Cess on land	1,72,203	0	0
Other cesses	3,000	0	0
Ferry tolls	775	8	0
Miscellaneous	1,000	0	0
Total ...	1,76,978	8	0
Estimated balance on the 30th September 1878 .	1,00,000	0	0
Grand Total	2,76,978	8	0

Proposed expenditure —Totals of the sanctioned budget of 1878 79 under the different heads of expenditure —

	Rs	A	P
Collection establishment	5,176	0	0
Committee's ditto	1,656	0	0
Contingent charges .	3,156	13	0
Original work	1,99,116	12	5
Repairs . .	41,197	4	0
Engineering establishment .	20,021	0	0
Tools and plant .. .	2,000	0	0
Total	2,72,323	13	5

23 The construction and repairs of 55 roads, and excavation and re excavation of eight khals on several parts of the district, have been budgetted for the year 1878-79, and Rs 45,099 have been allotted for the construction and repairs of village roads and khals, and Rs. 1,500 for the petty repairs of the district

24 *Plantation of trees* —The Government circular No 10, dated 28th October 1878, regarding planting trees along the sides of our roads, was received too late for any action The committee, therefore, thought it proper to postpone the matter

In conclusion, I beg to say that my predecessor notes that the minor office establishment of the Road Cess Department has given general satisfaction in the discharge of their duties. The Baboo also speaks highly of the accountant and second clerk of the committee

No 158, dated Mymensingh, the 9th December 1878

From—R H PAWSEY, Esq, Chairman, Road Cess Committee, Mymensingh,
To—The Commissioner of the Dacca Division

With reference to Bengal Government's circular order No 1952, dated the 24th September 1878, and under section 89 of Act X of 1871 I have the honor to submit herewith the annual accounts of receipts and expenditure of the District Road Fund for the cess year 1877-78, drawn up in the prescribed form and according to the directions issued in Bengal Government's No 1734 dated 11th February last

2 The accounts of the cess year 1877-78 from 1st October 1877 to 30th September 1878 opened with an actual balance of Rs 12,610-6-2, of which Rs 11,259-1-11 were cash in the treasury, and the remainder, Rs 1,101-4-3 were in arrears outstanding at the close of the previous year The actual income and expenditure of the fund during the year, with the opening balance, were as follow —

The actual balance at the close of the year (*i e*, 30th September 1878) was Rs 9,038-10-11— With the following detail—

	Rs	A.	P	Rs.	A.	P.
Cash in hand (treasury)	7 318	3	5			
Advances outstanding	1,720	7	6			
				9,038	10	11

3 The estimated income or demand of the District Road Fund, as per budget estimate of the cess year, was as follows —

	Rs
Cess on lands	1,40,656
Do on houses	9,087
Other cesses	316
Miscellaneous	1,200
Total estimated income	1,51,259

The district road cess on lands and houses was estimated and levied during the year at the maximum rates The members of the district committee are generally of opinion that for the provision of necessary communication by land alone, *i e*, for the construction of the scheme of new roads and the improvement of existing ones, the whole of the income at full rates can be advantageously expended for some years to come

4 The District Road Cess Committee comprises 20 members, of whom six are official and 14 non-official They held six meetings during the cess year 1877-78 There was only one meeting adjourned for want of a quorum Four members did not attend any meeting There were four, two and two non official members who attended only one, two and three meetings respectively Some of the non-official members, who are not regular in attending the meetings of the committee, not unfrequently communicate their views on matters to the Chairman or Vice-Chairman individually, and one or two only have entirely abstained from taking any part in the work of the committee during the year An abstract of particulars regarding meetings of this District Road Committee, as well as of the branch committees, is herewith submitted in the prescribed form (Appendix A)

5 In this district there are three Branch Road Cess Committees in the sub-divisions of Atia, Jamalpore and Kishoreganje for the construction and maintenance of village roads There is a separate set of members elected for each of the three branch committees, the first of which had one, the second three, and the third three meetings respectively Most of the non-official members are said to take little or no interest in the matters that concern them, but I think it may be rather said generally that the village roads are chiefly the concern of the chairman of the branch committee, and the other members give their attention to the roads in their own vicinity only

6 The probable balance of revenue outstanding (as per statement of revenue assessed and realized) under the different heads on the 1st October 1877 was Rs 26,114 which, being added to the demand of Rs 1,51,259 for the year, amounted to Rs 1,79,373, and the balance outstanding at the close of the year was Rs 37,880, after a deduction of Rs 1,39,493 realized during the year The percentage of collections during the year was 79 nearly and thus they were 16 per cent less than is required in the Government of India letter No 494, dated the 7th July 1877 The reason of this heavy unrealized balance at the close of the year was owing to the list of the last quarter falling on the 28th September, from which date the treasury was closed for the Doorga Poojah The people of this district are not always punctual in paying the road cess at the same time they pay revenue, but they generally pay it within a few days of their revenue accounts being closed, consequently, in this instance, the percentage of collections at the close of the year was abnormally small The inefficiency, however, of the existing legal means for recovery from defaulters has been so repeatedly brought to your notice that I need not repeat the matter here

7 The large apparent balance of cess on houses is owing to the budget having been drawn up for the whole year, whereas the collection was made for first six months only under the direction in your No 689R, dated the 12th January last

8 The sub-heads of expenditure to be first met are the establishment and contingencies on collection of revenue, and for working The following table shows the percentage of the actual cost of the different establishments —

	Total outlay during the year	Total cost of establishment, both collection and working	Percentage	Total income under District Road Cess Act during the year	Total cost of establishment of collections of revenue without balances	Percentage	Total expenditure on works	Total cost of establishment on works	Percentage
	Rs	Rs		Rs	Rs		Rs	Rs	
Actual cost	1 43 094	29 71	20 42	1 38 025	6 024	4 90	1,12,811	22 601	20 06

The expenditure incurred on account of establishment employed on collection of revenue and works, including contingent charges during the year, as above stated, was Rs 29,225, the percentage of cost of which on the total outlay of Rs 1,43,094 was 20 42, which is less than 25 per cent of the entire income of the committee as provided under section 64 of Act X of 1871 The percentage of the cost of the working establishment is, however, considerably higher than it would have been ordinarily, as an expenditure of Rs 5,000 on account of the cost of Public Works Department establishment in 1875-76 has been included in the accounts of the year under review Exclusive of this payment the percentage would be 16 92

9 The next expenditure to be met is the outlay on district works under the head of original works, of which the most important one was the construction of the road from Madhupore to Tingail The work has cost a sum of Rs 45,500, which is nearly one third of the total outlay during the year The work is completed. The other important works with the actual cost during the year were as follow —

		Rs.	A.	P
(*a*)	Construction of road from Shambhugunge to Doorgapore	7,684	5	3
(*b*)	Ditto from Ramgopalpore to Ishwargunge	3,500	0	0
(*c*)	Widening the road from Mymensingh to Jamalpore	8,996	15	6
(*d*)	Ditto from Jamalpore to Suburncolly	7,599	4	6
(*e*)	Ditto from Kishoregunge to Kateadi	4,770	10	3
(*f*)	Ditto from Kateadi to Nickli	4,126	1	9
(*g*)	Metalling part of the Durgapore road at Shambhugunge	867	8	0
(*h*)	Ditto of the Suburncolly road at Muktagachee	5,000	0	0
(*i*)	Widening the road from Husenpore to Kishoregunge	386	6	0

The estimates of the six roads marked (*a*), (*c*), (*d*), (*e*), (*f*), (*i*), have been submitted for sanction, and the others have been sanctioned This irregularity of the commencement of works in 1876 77 without formal sanction has been noticed by Government in its resolution No 640A, dated 13th July 1878

10 The road from Shambhugunge to Durgapore has been completed up to the river Kanksa, at the 24th mile, at a total cost of Rs 43,545 10-10 The surveys for carrying the work on thence to the Susang Durgapore bazar will be shortly taken in hand

11 Although the remainder of these works appears under the rules as 'original,' I should mention that all are either on roads made in former years by indigo planters or are improvements of roads maintained with the limited funds of the Magistrate and Ferry Fund Committee of former years The head of repairs under Part II exhibits accordingly an expenditure of Rs 16,805 only for works

12 In addition to the accounts I further furnish a statement, showing the alterations in the allotments subsequent to the receipt of your letter No 457R, dated 1st November 1877 These alterations have all been reported to and approved by you, and were made as it became evident that some allotments originally made would prove insufficient, while others would not be spent within the currency of the year for which they were intended

13 The rains of the season of 1878 were unusually constant, and were also heavier than usual Floods in some places of more than usual height and continuance, and the rottenness of the roads which are subject to traffic at that season from the continual drizzle, have rendered the estimates for the repairs of the next season more than usually heavy

14 An improvement has been made in the past year in the placing out, on all the main roads of permanent mile-posts legible in English and the vernacular

15 With reference to paragraph 3 of the circular of Government of Bengal, No 50, dated 23rd July 1873, it will not be necessary here to detail the works that have been arranged for during the year on which we have now entered, as these were shown in full in the budget estimate approved by you in your Nos 351R and 413R, dated 14th September and 16th October last respectively.

16 In the annual reports of the last two cess years (*vide* this office reports Nos. 161R and 124R, dated 31st January 1877 and 9th January 1878 respectively), I have submitted that some modifications are desirable in the rules in force for the carrying on of repairs and other pressing works I am still strongly of opinion that some alterations in these rules may be made, for the cases in which the proposed works introduce no material change in an existing scheme, affecting the waterways or levels of the surrounding country

17 The road cess operations continue to be popular in this district No demands for compensation for land taken in the course of improvement on roads are ever made by the landholders, while the frequent applications for the extension of roads and construction of village roads show that interest is very generally felt in the matter of improved communications

18 After making surveys in more than one instance the committee have found it undesirable to attempt improvement of water communications at present The heavy cost with the uncertainty of results have chiefly influenced them in this consideration.

19 The accounts prescribed by Government have been carefully kept by the Accountant under the direct supervision of the Vice-Chairman and District Engineer. The office was inspected in September last by the Examiner of Public Works Accounts and the accuracy with which this work has been performed called from that official approbation of the accountant employed, Babu Manik Chandra Bysack

The members of the district committee at the sudder station have shown considerable interest in the road cess operations during the year

4 *Branch Road Cess Committees* —The sub-divisional officer, who is the Chairman of the Brahmunberiah branch committee, reports thus —"From the enclosed statement of sittings of the committee, it will be observed that a considerable number of members paid little or no attention to their duties The zemindar and talukdar members, from whom the committee expect to obtain much valuable assistance, did not at all attend the meetings The official members of this sub-division, and of the non officials, Baboo Mohesh Chundra Dutta, Horkisore Chuckerbutty, Isaan Chundra Dass and Munshi Dowlat Khan, were regular in their attendance and took much interest"

7 *Original Works*—The original works have cost in the aggregate Rs 30,022-4-5 Of these works I may mention the following as the most important —

(*a*) The completion of earthwork and bridges on the first portion of the Brahmunberiah sub-divisional road from Commillah to Nawanpore—The District Engineer now says "that out of the total quantity of earthwork estimated for this road four fifths were finished at the commencement of last year since then one-eighth has been done, one-thirteenth remains to complete the work It will be remarked that, although work still remains to be done, the total amount of the estimate is shown as expended This is due to a sum of Rs 471-0-0 having been paid last year for compensation for land for which no provision was made in the estimate sanctioned and charged to earthwork When this sum is made available the work will be completed, at present earthwork is required to fill up the old bridge openings which have been abandoned for new sites, but the old bridges are left standing The latter are only seven feet wide, and often without parapets and dangerous This sum of Rs 471-0-0 ought to be quickly placed at disposal" The late District Engineer did not ask for the allotment for this work when the budget was prepared, and as he did not do so the matter will be laid before the next meeting All the bridges on this road have been completed except five These will be done this year Up to date Rs 20,826 have been spent, of which Rs 1,197 were spent during the year 1877-78

(*b*) Construction of the Routahat and Shunkochal inspection bungalows on the Brahmunberiah road —The estimated amount has not been spent, as the designs of these buildings were altered, wooden posts being substituted for pucca pillars by the late District Engineer

(*c*) Construction of bridges on the Kalibazar road—The late District Engineer could not finish all the bridges on the road Two in the seventh mile and a small culvert, to carry the side drainage across the road and a short distance down the slope of the Lalmyo Hill, were not completed As no provision has been made for this work in the budget, a further allotment of Rs 901-14 will be made at the next meeting of the District Road Cess Committee

(*d*) Inspection bungalow on the Kalibazar road —The work done has been limited to a little work in the foundations and the collection of materials

(*e*) Nothing was done towards the improvement of the road from Lakshan to Berulla (Noakholly), as the revised estimates were not prepared and submitted to Government for sanction

(*f*) Improving the Sarail road—The repairs on this road have been completed during the year

(*g*) Deepening the Trimoheny khal—The works here could only be carried out in the months between February and April, and the late District Engineer reported in July that, in place of a depth of 2½ feet having been cleared out by the overseer, he only excavated a depth of 1¾ feet After July, of course, no further work could be carried on, and this accounts for the savings on the estimate

(*h*) Village roads and water-courses under the Sudder or the Central Committee—There was a length of 20 miles of roads estimated for, but of this length only 14¾ miles were carried out, the remainder, 5¼ miles, were left unmade owing to the objection of villagers to give up lands This accounts for part of the savings and the rest was due to savings on rates of work Out of Rs 6,250 allotted for these works, a sum of Rs 3,987-8-1 was expended on the roads and water-courses carried out by the District Engineer A sum of Rs 4,000 was granted for works under the Brahmunberiah Branch Committee, of which Rs 3,293-7 were expended, this sum was supplemented with Rs. 1,094-6-9 voluntarily contributed by the villagers With this sum 11 new roads and 11 khals were made, and six roads, each under the cost of Rs 1,000, were improved by the branch committee

Out of the sum of Rs 2,500 allotted for works under the Muradnagore Branch Committee, Rs. 2,441-7-3 were expended for making 15 roads with temporary bridges, and improving six water-courses In addition to the sum above alluded to, there were local contributions of Rs 640-15-6 paid by the villagers

The allotment for works under the Chowdogram Branch Committee was Rs 3,000, of which Rs 2,780-13-2 were spent on constructing and improving 27 roads and cutting angle on some of them. A sum of Rs 384-1-4 was paid by the villagers as contributions

A sum of Rs 2,500 was granted for works under the Nursingpore Branch Committee, out of which Rs 2,490 were expended on constructing and improving 36 roads and 3 khals, and the committee was assisted by the villagers with a sum of Rs 783-8 raised as subscriptions

The Branch Committees of Brahmunberiah and Muradnagore report that, owing to objections having been made by some land-owners to giving up lands required for these minor works, they had to abandon the works, and apply for transfer of the grants to other works towards the close of the year The result of this was that a portion of the grant was unexpended at the end of the year The Chairmen of the Branch Committees declare that the people have been greatly benefited by this kind of work, and the interest they take in these improvements of communication is clearly shown by the fact that they contributed no less than Rs 2,902 towards the total cost

Total	109 Roads 21 Khals	14 998 3 6	2 902 15 7	17 901 1 1

It will be observed in the above table that a sum of Rs 14 998 3 6 was spent by the Road Cess Fund on improving 109 village roads and 21 water courses

Repairs.—It will be seen that Rs 36,54 12 5 were spent on repairs Out of this amount the sum of Rs 216 2 was spent in the repairs of the metalled portion of the Laksham road, Rs 36,149-8-5 on those of the unmetalled roads, and Rs 177-2 on maintaining the Chandpore khal

The new District Engineer reports that turfing was left undone on the Brahmunberiah roads, that bridges were not repaired owing to arrangements for materials not having been made in time by his predecessor on the Laksham and Companygunge roads, that the platforms of three wooden bridges on the Chowdogram road were not done, and that work was executed on all roads at a lower rate than sanctioned in the estimates For these reasons there was a considerable saving (of Rs 11,667) at the close of the year under this head

9 The following fruit trees were in existence on the roads of the district at the end of the cess year —

	No	
Date trees	166	
Mangoe	20	young plants
Jack	10	"
Bael	3	"
Tamarind	6	"
Total	205	plants

There is provision for planting trees on the roads in the current cess year 1878-79, and the District Engineer has been instructed to give particular attention to increasing the number of fruit trees, as enjoined by Bengal Government (Famine) Circular No 10, dated 28th October 1878

10 *Superintendence of works*.—The District Engineer and his staff of two overseers and one sub-overseer carry out and supervise all the works in the district, and at sub-divisions the village road works are superintended mainly by the chairmen of the branch committees, assisted by the subordinate officers under the District Engineer

11 Mr N S Alexander, C S, held the office of Chairman of the District Road Cess Committee till the 7th January 1878 I took charge of the office from him on that date

12 Mr R Carstairs was Officiating Joint Magistrate, and was Vice Chairman up to the 23rd April 1878 He was succeeded by Mr R C Dutt, C S, on the 19th July last Both of these gentlemen took much interest in the work

13 Of the chairmen of the branch committees, the following gentlemen appear to deserve special commendation for the interest displayed by them in connection with road cess operations —

Baboo Bhubon Mohun Raha, late Deputy Magistrate of Brahmunberriah,
" Rakhal Chunder Bose of Nursingpore,
" Behari Lall Mullick of Muradnagore,
" Shamlal Halder of Chowdogram

14 Baboo Khetter Nath Bhattacharjea was the District Engineer under the committee till the 24th October 1878 He resigned his appointment under the committee, and the district committee have appointed Mr H W Hughes, C E, in his place The late District Engineer spoke well of Baboo Annoda Churn Bramho, sub-overseer, out of the three subordinates who worked under him

Baboo Monendro Lall Mookerjee, head clerk and accountant of the chairman's office, is an excellent accountant and clerk, he takes the greatest interest in his work, and the committee have every reason to be satisfied with him

15 *The Road Cess system*—Has now been in force for four full years in this district No complaints are now made regarding the cess, and I believe it may be said that the landholders have become reconciled to it The estimated income under the head of land cess was Rs 85,072 out of which Rs 80,837 10 1 was collected during the last cess year, leaving an outstanding balance at the end of the year, Rs 1,791-5-9, [illegible] 2 [illegible] to be realized and remitted to the districts of Dacca, [illegible] Mymensing and Noakholly The outstanding amounts are under realization The collection of house cess was [illegible] from the end of the second quarter of the year in accordance with the Board of Revenue's order No 268A, dated 23rd April 1878

R C DUTT, *Vice-Chairman*

Memorandum explaining the discrepancies between the amounts exhibited in the column headed "amount as per budget estimate" in the schedule of expenditure, and the same as per Bengal Government's Resolution on the budget estimate for 1877-78

1 As no provision for compensation for lands had been made in the estimate of construction of the Brahmunberiah road, the sum of Rs 171-0-6 has been paid to the landowners in accordance with the requisition made by the Collector of Tipperah, having the amount transferred from the head of miscellaneous repairs to the head above alluded to as sanctioned by the Commissioner of Dacca in his No 250R of the 27th July 1878, and No 316R of 28th August last.

2 Out of the sum of Rs 4,000 allotted for the Beroll road, shown under original works, a sum of Rs 1,330 has been transferred to repairs to the Brahmunberiah road in order to incur the additional expenditure sanctioned in a supplemental estimate subsequently sanctioned by the Commissioner of Dacca—*vide* his No 80, dated 21st February 1878.

3 A sum of Rs 210 has subsequently been transferred *vide* Commissioner's No 619R, dated 17th December 1877, from the head of miscellaneous repairs to that of sudder village roads for improving Durgapore village road which work had not been previously entered in the estimates of village roads &c, under the Sudder Committee, for which Rs 5,000 had been previously sanctioned and entered in the budget

4 The accounts of work done during the flood of 1875-76 having been finally adjusted at a meeting of the District Road Cess Committee held on the 9th February 1878, a sum of Rs 6,172 has been debited to original works and the expenditure was met from unexpended balance of 1876-77 Out of this expenditure the Maharajah of Tipperah has to pay one-half, but the money has not as yet been paid by him, although he has been several times reminded through the Collector of the district

5 The estimated amount of repairing the embanked road has been exceeded by Rs 15-5-8 The District Engineer should have submitted for sanction a supplemental estimate for the excess expenditure before it was incurred by him

The estimate previously sanctioned amounts to Rs 2,307, and the expenditure incurred amounts to Rs 2,322-5-8

R. C. DUTT,
Vice Chairman.

No 801R, dated Dacca, the 6th February 1879

From—F. B. PEACOCK, Esq., Commissioner of the Dacca Division,
To—The Secretary to the Government of Bengal, Public Works Department

IN conformity with the instructions conveyed in circular No 51, dated 8th August 1874, I have the honor to submit herewith the annual accounts and reports of the several Road Cess Committees of this division for the cess year ending with the 30th September last

2 In all the districts of this division cess on lands is being levied The levy of house cess has been, owing to the reduction of the license tax, suspended from the second half-year by orders of the Board of Revenue, communicated with their No 2664, dated 23rd April 1878, except in Backergunge, where it was suspended from the commencement of the year owing to the devastations caused by the cyclone and storm waves of October 1876

3 The financial condition of each district committee during the cess year under review is shown in the statement below —

Districts	Cash balance at the close of 1876-77	Receipts in 1877-78	Total	Expenditure in 1877-78	Balance on the 30th September 1878
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Dacca	90,273 14 8	65,967 4 3	1,56,341 2 11	61,240 15 6	95,100 7
Furreedpore	70,189 5 7	41,753 6 3	1,11,942 11 10	61,755 3 2	50,187 8

Total	9,18,[illegible] 7 11 1	4,[illegible] 5 0	7,[illegible] 3 1	4,[illegible] 13	3,[illegible] 1

4 It will be seen that the requirements of every district have been fully met from the funds available for expenditure during the year The large unexpended balances outstanding in all the districts except Mymensingh are due in some cases to the delay in the preparation of estimates and in receiving sanction to the same, and in others to certain works having been given up on further consideration, after the preparation of the budget estimates, as inexpedient or unnecessary at the present time The mode in which the funds have been spent, and the advantages derived by the cess-payers therefrom are noticed below

5 *Dacca*—The total sum available for expenditure in this district amounted to Rs 1,56,341-2-11 as shown in the subjoined memorandum —

		Rs.	A	P
Cash balance of 1876-77		90,273	14	8
Collections under the Road Cess Act	..	62,244	1	1
Other cesses		1,079	12	4
Miscellaneous	.	2,743	6	10
Total		1,56,341	2	11

(*a*) Of this amount Rs 63,250-13-4 have been expended during the year in the following items —

	Rs	A	P
Office establishment and contingencies	4,163	5	1
Working establishment	14,344	15	0
Original works . .	17,856	14	1
Repairs ...	11,222	14	8
Tools and plant ...	15,662	12	6
Total ...	63,250	13	4

leaving a large balance of Rs 93,090 5-7 at the end of the year This is mainly due to the suspension of the construction of the Goalanda line of road beyond Mirpore until the line the proposed line of railway is to take is settled

(*b*) Of the amount of Rs 17,156 14-1, spent for original works, a large sum (Rs 9,201-1-5) was spent during the year in aid of a work that was originally intended to be the donation of a private individual to the district, viz the Tonghy bridg This work has been since the close of the year completed It was taken in hand without the sanction of Government, which should have been previously obtained I have impressed on the Chairman Road Cess Committee of Dacca, as well as of other districts of this division, the necessity of not commencing any work requiring sanction of superior authorities before that sanction is obtained unless, under special and unavoidable circumstances, which need rarely if ever occur if forethought is exercised by the working staff I trust that these orders will have the effect of putting a stop to the practice

(*c*) The Chairman asked sanction to a further sum of Rs 9,387-10-9 this year for the completion of the bridge As the Government, by its letter No 7850, dated 3rd December 1877, declined to pass any orders on the project owing to the work having been almost finished, and as this amount, Rs 3 561-0-11, was already spent in anticipation of sanction, I thought it useless to send it up to Government

(*d*) Besides the Tonghy bridge, a portion of the Dacca to Manikgunge road and some other roads of minor importance were constructed

(*e*) Rs 11,222-14-8 were spent for the maintenance and repairs of the existing roads, the chief of which are those between Dacca to Toke, Dacca to Narayangunge, Moonshigunge to Srinagar up to Singpara, Shealo to Manickgunge and the Badyabazar road

(*f*) An amount of Rs 13,529-10-5 has been spent during the year on the steam dredger, which, owing to its defective construction has been of no use whatever, and has continued all along to be a source of continual and considerable expense Mr Fritch, temporary Assistant Engineer, Canals Division, was directed to make a thorough inquiry as to its fitness or otherwise to perform dredging operations in the rivers of this division, but no report on the subject has yet been received from that gentleman The committee are now only awaiting the receipt of this to decide what to do with the dredger

(*g*) Besides the district committee, there are two branch committees (Moonshigunge and Manickgunge) in this district The district committee had seven meetings during the year and the branch committees four and six respectively The members, with the exception of a few, are reported to have taken an interest in the duties they are called upon to discharge

(*h*) The following are some of the principal works that were proposed to be undertaken during the current year (1878 79) —

No 4 Moonshigunge road from Singpara to Srinagar
„ 22 Deepening the Pama khal
„ 31 Deepening the Hilshamari khal from its mouth to Ekrasi
„ 12 Extension of the Goalanda line of road from Dacca to Mirpore with bridges on the same
„ 37 Road from Danga to Narsingdia

(*i*) Of these the project of the Hil-hamari khal, which was estimated at Rs 26,466, has been disapproved by the Superintending Engineer on professional grounds, out of which large saving I have directed the Chairman to make a further allotment for village roads, for which Rs 6,000 only has been allotted in the budget for the three sub-divisions, and to spend the remainder, if possible, on other works to be taken in hand during the current year

(*j*) The estimates for the Moonshigunge road from Singpara to Srinagar and the Pama khal, which were treated by the District Engineer as repairs, have been returned for revision and re-submission with plans There is consequently, I am afraid, little hope of their being undertaken during the current year, as the working season will be over in a couple of months.

6 In Furreedpore, out of the total income of Rs 1 20,542-11-10, available for expenditure as shown below (composed of the balance, Rs. 76,390-5-7 of 1876-77 and the receipts of the year Rs. 53,152 6-3).—

	Rs	A	P.
Balance for 1876-77 .	76,390	5	7
Collection under the Road Cess Act .	52,095	6	3
Sales of produce and stores .	160	10	9
Fines and refund	12	2	0
Miscellaneous revenue . .	875	3	3
Total	1,29,542	11	10

Rs 60,385-3-2 were expended in the items detailed hereunder—

	Rs	A	P.
Establishment and contingencies	3,516	5	10
Working establishment	10 702	7	0
Original works	2,844	3	5
Repairs ...	43,175	3	11
Tools and plant	86	12	0
Total	60,385	3	2

leaving a large balance of Rs 69 157-8-8, which is explained to be due to the smallness of the establishment, want of good contractors, scarcity of labour and materials in the district, and to the fact that the works are scattered over a large area and some other unfavourable circumstances detailed in the Chairman's report It is, however, satisfactory to notice, as indicating some increased activity, that the sum of Rs 40,019-7-1 was spent during the year towards the construction and repairs of roads, &c, against Rs 26,250-12-3 during the previous year Of this amount Rs 43,175 3-11 were spent on the repairs of existing roads, the principal of which are—

The Pangsa road,
„ Jessore road,
„ Hasturia road and bridges,
The Bazar bridge on the Jessore road,
„ New Talma road, &c,

and Rs 2,844-3 5 only on the construction of new roads, and on the survey of the lines of those for which projects are said to be under preparation

(*a*) The district committee at the sudder held 12 meetings during the year There are two branch committees in the sub-divisions of Goalanda and Madaripore, which had four sittings each Except in Goalanda the members both of the sudder and Madaripore committees are reported to have taken active and intelligent interest in their duties

(*b*) The following are some of the principal works proposed to be taken up during the current year —

No 6 Rajbari road,
„ 2 Goalchamat bridge,
„ 66. Bamabaha road,
No 87 Kanakdi road,
„ 64 Kazibhaddar road,

7 In Backergunge the total receipts of the year amounted to Rs 98,705-6-6, to which the balance, Rs 97,534-9 9, of the previous year being added, a total amount of Rs 1,96,240-0-3 was, as detailed below, available for expenditure during the year —

	Rs	A	I
Cash balance .	97 534	9	9
Collection under the Road Cess Act	96,100	0	7
Other cesses	1,35	7	2
Ferry tolls .	633	1	0
Sales of produce and stores	17	3	6
Miscellaneous .	509	7	3
Total	1 96,240	0	3

(*a*) Of this Rs 71,465-2-7 only have been spent during the year under review as per following details —

	Rs	A	P
Collection establishment and contingencies	11,962	1	6
Engineering ditto .. .	16,643	6	0
Original works . .	18,469	9	1
Repairs .	19,352	1	3
Tools and plant	5,038	0	9
Total	71,465	2	7

leaving a large balance of Rs 1,24,774-13-8 This is explained by the Chairman to be due to a large number of original works requiring detailed estimates and plans, the newness of

the working establishment in the district, the consequent difficulty of supervision, and the difficulty in preparing projects for the improvement of the water communications of the district These really form the bulk of the work in this district, and require much care, attention and time before they can be submitted for sanction With increased experience, however, the working staff are expected to show better results in future

(*b*) Rs 18,469-9-1 have been spent on original works, almost all of which have already been partly constructed The principal of these are —

The Gour Nuddee road, extending over a length of 22 miles from Burrisal to Gour Nuddee police station A great portion of this important road has been constructed by private individuals An estimate of Rs 45,559-2-6 has been sanctioned by Government for the construction of the portion which remains to be finished,
Backergunge road, connecting Burrisal with the large mart of Backergunge.

Basanda road,
Madhabpasa bridges,
Nalchite road, &c

(*c*) Besides the District Committee at Burrisal, which met nine times during the year, there are also three branch committees in the three sub-divisions of Patuakhali, Bhola and Perozepore, which had three, five and three sittings respectively The members are stated to have generally taken an interest in the management of the road fund I have, however, requested the Chairman to send up the names of those members who have during the year not attended any meetings, as I consider that this should be taken as a sufficient indication that they refuse to perform their duties, and consequently that their places on the committee should be filled up by others who will

(*d*) The following are some of the principal works proposed for the current year —

No 6 Continuation of the Gour Nuddee road.
„ 7 Backergunge road
„ 8 Basanda road
„ 9 Madhabpasa road, including bridges
„ 33 Jhalokati to Perozepore road
„ 51 Burrisal road
„ 64 Hariafulia road
„ 65. Gour Nuddee to Ambala
„ 31 Dowlatkhan to Muzakhali
„ 32 Tarisurhat to Barah Nuddee
„ 61 Shariapkati to Chowlakati
„ 10 Panabalia khal
„ 11 Nalchiti khal
„ 28 Bhola khal, &c

8 *Mymensingh*.—The total amount available for expenditure in this district during the year was, as shown below Rs 1,5[illegible],133-6-2, of which Rs 1,39,193 were the receipts of the year and Rs 12,640-6-2 the balance of the previous year —

	Rs	A	P
Balance of 1876-77	12,640	6	2
Collection under the Road Cess Act	1,35,025	14	11
Other cesses	284	11	9
Receipts from tolls	325	14	0
Sale of produce and stores	414	7	6
Miscellaneous	3,411	15	10
Total	1,52,133	6	2

(*a*) From this amount Rs 1,43,094-11-3 was, as stated below, expended during the year, having a balance of Rs 9,038-10-11 only —

	Rs	A	P
Establishment and contingencies	6,624	0	0
Engineering establishment	22,601	3	9
Original works	95,706	10	9
Repairs	16,805	3	0
Tools and plant	1,357	9	9
Total	1,43,094	11	3

(*b*) An amount of Rs 95,706-10 9 have been expended for original works The roads on which the money was spent are of real practical importance, and are such as will prove very beneficial to the district The chief of these are—

The Madhupore to Tangail road, upon which the large sum of Rs 45,500 have
„ been spent during the year under report,
The Shambhugunge to Doorgapore road,
„ Ramgopalpore to Ishwargunge road
„ Mymensingh to Jamalpore road,
„ Jamalpore to Subarnakhali road,
„ Kishoregunge to Kotiadi road, &c.

(*c*) Rs 16,803-3 have been disbursed towards the maintenance and repairs of the existing roads The most important of these are—

From Mymensingh to Subarnakhali
„ Mymensingh to Ramgopalpore
„ Shambhugunge to Netrakona
„ Mymensingh to Toke, &c

(*d*) Besides the district committee, there are three branch committees in this district in the sub divisions of Atia, Jamalpore and Kishoregunge, the former had six meetings during the year, and the latter one, three, and three respectively The members of this district are with a few exceptions reported to take little interest in their duties I have requested the Chairman to send up the names of those four members who have not attended any meetings during the past year, in order that I may recommend the Lieutenant-Governor to discharge them under section 50 of the Act It appears to me that an absence from all meetings for a whole year constitutes a virtual refusal to act, and when this is the case it is certainly desirable that their places should be filled up on the committee

(*e*) The following are the principal original works proposed for the current year –

No 11. Madhupore to Tangal This road has, since the close of the year under report, been completed
No 2 Widening the existing road from Mymensingh to Jamalpore.
„ 3 } Ditto ditto ditto Jamalpore to Subarnakhali.
„ 9 }
„ 12 Ramgopalpore to Ishwargunge
„ 8 Hossenpore to Kishoregunge
„ 31 Kotiadi to Nickli
„ 10. Metalling part of the Durgapore road
„ 1 Ditto three miles of the Subarnakhali road
„ 33 Road from Dapania to Phullaria

9 *Tipperah*.—The total amount available for expenditure was, as shown below, Rs 1,28,288-13-11 —

	Rs	A	P
Balance for 1876 77	12,118	6	11
Collection under the Road Cess Act	82 315	9	1
Other cesses	2,71[illegible]	[illegible]	1
Sales of produce and stores	05	[illegible]	1
Fines and refunds	6	0	0
Miscellaneous	1,0 0	0	0
Total	1 [illegible]	13	11

(*a*) Of this amount Rs 87,981-7-6 were expended during the year noted below —

	Rs	A	P
Office establishment and contingencies	[illegible]	0	1
Original works	40 0[illegible]	[illegible]	[illegible]
Repairs	[illegible]	12	[illegible]
Working establishment	13,178	10	1
Tools and plant	1,[illegible]	8	0
Total	87 981	7	6

leaving an unexpended balance of Rs 40,307 6 5

(*b*) It will be seen that a sum of Rs [illegible]0,022 [illegible] has been spent in this district on the construction of the original works, the principal of which are the Brahmanbariah road, extending from Comillah to Nayanpore, the Kalibazar road, the Kadamtali road and Sarail road, &c

(*c*) Rs 36,842-12-5 have been spent for putting the existing roads into a proper state of repair

(*d*) A comparatively large amount was allotted for village works in the district, and it is satisfactory to notice that, except in the sudder sub-division, where, owing to the objections raised by the villagers, much could not be done, it was productive of good results

(*e*) During the year there were eight meetings of the district committee and two, three five and four of the four branch committees at Brahmanberiah, Muradnagar, Narsingpore and Chowdagram respectively The attendance of the members was fair, and with the exception of some they appear to have taken interest in the management and expenditure of the funds at their disposal The Chairman has, as is the case in Mymensingh and Backergunge, been directed to send up the names of those members of the committee who have attended no meetings during the past year, in order that a recommendation may be made to Government to dispense with their further services

(*f*) The following are the principal works that are proposed to be undertaken during the current year —

Nos 3-4 —Completion of the Brahmanberiah road from Chandpore to Nayanpore
No 6 —Improvement of the road from Luksham to Barella
No 16 —Kusha to Agartala road
No 48 —Mukram Petkata khal

Of these, the excavation of the Mukram Petkata khal has since been disapproved by the Superintending Engineer

10 In concluding this report I desire to offer the following general remarks The Government circular No 10, dated 28th October, not having been received until after the expiration of the year under review, its instructions could not of course be attended to The attention of the chairmen of the different districts of the committee have been drawn to it, and I trust that due attention will be paid to it I consider the matter one of great importance, not only as pointed out, as affording a ready means of adding to the food resources of the district, but because the planting of lines of trees along the principal roads not only adds to their picturesqueness but also affords shade to those who have to travel them, the comfort of which in a country like India cannot be too highly estimated

11 With the single exception of Mymensingh, the unexpended balances are far larger than they ought to be In Dacca this has been satisfactorily accounted for by the fact that the carrying on of the great original work in the district, the Goalundo road, is at present kept in abeyance pending the decision of the question of the exact line the proposed Railway should take In the other districts the explanations of the small expenditure are numerous, *viz*, the time required in the preparation of the estimates of some of the works, the time taken in getting these sanctioned after they have been prepared, difficulty in getting contractors, of obtaining labour, in collecting materials, &c, &c All these are no doubt more or less valid But I think most of them will disappear when the district establishments are more thoroughly acquainted with the requirements of their districts, and when a Superintending Engineer is appointed to the division, who will be able to give his whole time to the provincial and district works in it Until some such appointment be made, I feel convinced that the work will never be satisfactorily done, and that each year will show a large unspent balance, projects can neither be prepared nor disposed of as speedily as they should and indeed must be if the district incomes are to be spent It is in my opinion much to be regretted that there should be any difficulty in utilizing to the utmost the large sums that the district committees have in this division at their disposal The tax is popular and would be more so if work could be accelerated I trust therefore it will not be long before the appointment above referred to is made

Mr Maclean having been called to the chair, the notice convening the meeting was read as follows –

"Notice is hereby given that an extraordinary general meeting of the shareholders of the Bengal Iron Works Company, Limited will be held at the registered Office of the Company, situate at No 3, Fairlie Place, Calcutta, on Saturday, the 5th day of April next, at the hour of 12 o'clock, at noon, for the purpose of passing a resolution for the winding up of the Company by voluntary liquidation, and to appoint a Liquidator or Liquidators, and to confer upon the Liquidator or Liquidators all necessary powers for the liquidation of the Company

MABILLIFE AND EDWARDS,
Agents and Secretaries

"Dated 21st March 1879

It was proposed by Baboo Bissumber Sain, seconded by Bradford Leslie, Esq –

That the Company be wound up voluntarily

The above resolution was put to the meeting, and declared by the Chairman to be carried by the requisite majority on a show of hands

Mr Roberts demanded a poll on behalf of himself, Messrs J J Patterson J R Bullen Smith, G G Morriss, and F C Daniel

This was protested against by Mr McIntosh

The Chairman proceeded to take the poll Mr Roberts questioning the numbers of shares held by Mr R Steel, it was ruled under clause 12 of the articles that the numbers shown in the Register should be accepted in absence of proof to the contrary

The votes tendered on behalf of Messrs W Halford and Johnstone Smith were objected to by Mr McIntosh on the ground of the powers of attorney executed by those gentlemen being insufficient The votes of the same gentlemen and those tendered on behalf of Messrs J J Patterson and J R Bullen Smith were objected to by Mr Cochrane, on the ground that the proxies under which Mr Roberts appeared were signed by the duly constituted attorney of those gentlemen, and an opinion of the Advocate General on the point was read by Mr Cochrane The Chairman decided that under clause 52 of the Company's articles the proxies, not being under the hand of the shareholder, could not be received or acted upon Mr Roberts then objected to the votes of the following gentlemen being recorded on the same ground as that taken in Mr Cochrane's objection, viz Messrs John Morison, E McDonell, W Moran A W Garrett, E Miller, E T Partridge R A Dalyell, and J W Lowe The Chairman disallowed the votes of Messrs Morison, McDonell, W Moran A W Garrett, E Miller, E T Partridge, and allowed those of Messrs Dalyell and Lowe, who were represented at the meeting by their substituted attorney under clause 511 The Chairman declared the result of the poll to be as follows –

For the resolution	275 votes
Against	62 ,,

and that the resolution was carried

It was proposed by A R McIntosh Esq, seconded by Charles Sanderson, Esq, by his attorney, T Percy Fox, Esq –

That Mr George Yule be appointed sole liquidator of the Company at a remuneration of 2½ % on the assets realized by him, with power to do such of the several things specified in the eighth sub section of section 116 of the Indian Company's Act 1866, as shall be found necessary for winding up the affairs of the Company and distributing its assets

The above resolution was put to the meeting, and declared by the Chairman to be carried by a show of hands

Mr J F Rutherfoord stated that he did not vote, because though a Director of the Company, he did not know of the Advocate General's opinion before it was produced at the meeting, and he desired not to be identified with that proceeding in connection with the use of proxies to vote for or against the first resolution

Mr Roberts demanded a poll on behalf of himself and Messrs G G Morris, E C Daniel, C S Halford, and J J Patterson

The Chairman disallowed the poll, as it was not demanded by the necessary number of five shareholders present at the meeting, Mr Patterson's proxy not being valid

Mr Roberts protested that it was part of the understanding upon which Mr Justice Pontifex adjourned Mr Patterson's petition that no proceedings in the voluntary liquidation should be taken even if a resolution to wind up voluntarily was passed, and that as the appointment of the liquidator is a proceeding in the liquidation, it is a breach of the understanding

Mr McIntosh denied there was any understanding The advertisement convening the meeting, which mentioned the appointment of a liquidator, was brought to the notice of the Judge, who did not prohibit a liquidator being appointed

It was then proposed by W Duff Bruce, Esq, seconded by Baboo Bissumber Sain—

That it be an instruction to the liquidator to apply to the Court that the liquidation be carried out under the supervision of the Court, under sections 163, 164 of the Indian Company's Act *Carried*

With the usual vote of thanks to the chair the meeting ended

2 The local Government may by notification published in the *Calcutta Gazette* from time to time prescribe a scale of fees, annual or other, to be paid by the owners of passenger-boats or steam ferries plying for passengers either wholly within, or partly within and partly without, the limits of the Port of Calcutta

STATEMENT OF OBJECTS AND REASONS

THE local Government has power to make rules under the Indian Ports Act (XII of 1875) for regulating and licensing passenger boats in the Port of Calcutta At present the executive control over these boats is in the hands of the Commissioner of Police under sections 63 to 65 of Bengal Act IV of 1866 (the Calcutta Police Act), which have not been repealed The local Government desires now to regulate passenger boats through the Conservator of the Port, and to have them more carefully measured and controlled than at present This Bill repeals the sections of the Calcutta Police Act above referred to, and enables the local Government to levy fees on the owners of such boats, which will be devoted to paying for the establishment engaged in measuring, registering, and licensing them

Offg Asst Secy to the Govt of Bengal, Legislative Department

THE following Bill as settled by the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations on the 5th April 1879, is, by order of the President, published for general information —

A Bill to define and limit the powers of Settlement Officers

WHEREAS it is expedient to define and limit the powers of Settlement Officers It is enacted as follows —

Preamble

Extent

This Act extends to all the territories under the administration of the Lieutenant-Governor of Bengal

Commencement of Act

1 It shall come into force from the date on which it may be published in the *Calcutta Gazette* with the assent of the Governor-General

Repeal of Bengal Act III of 1878

2 Bengal Act No III of 1878 (*an Act to define and limit the powers of settlement officers with respect to enhancement of rent*) is hereby repealed

3 In this Act—

"Settlement Officer"

"Settlement Officer" means the Collector or any officer in charge of the revenue jurisdiction of a district, and includes any Assistant Commissioner, Deputy Collector, or Sub-Deputy Collector whom the Collector or other officer as afore said may authorize to conduct the enquiries and proceedings connected with any settlement of land revenue, and any officer who may be appointed by the Lieutenant-Governor to make any such settlement

'Under tenant

"Under-tenant" means any holder of a heritable and transferable intermediate tenure between the Government and the ryot other than a zemindar

Settlement proceedings not affected by certain Acts

4 Nothing contained in section 51 of Regulation VIII of 1793, or in sections 13, 14, and 17 of Act X of 1859, or in sections 14, 15, and 18 of Bengal Act VIII of 1869, shall affect any settlement proceedings under Regulation VII of 1822, or under any other law for the time being in force for the regulation of settlements of land revenue

Rent to be in accordance with rates sanctioned by the revenue authorities

5 In any such settlement proceedings the rent recorded as demandable from each ryot shall, except as herein otherwise provided, be in accordance with the general rates sanctioned or subsequently approved for adoption in such settlement by the revenue authorities from time to time empowered in that behalf by the Lieutenant-Governor

Grounds of enhancement

6 The Settlement Officer may, on some one or other of the following grounds and not otherwise, record a higher rent as demandable from any ryot having a right of occupancy than the rent which was previously paid by him, viz.—

(i) That the higher rent so recorded is calculated on rates which are not above the prevailing rates payable by the same class of ryots for land of a similar description and with similar advantages in the surrounding neighbourhood

(ii) That the enhancement is not greater than is justified by the increase which has taken place in the productive powers of the land otherwise than by the agency, or at the expense, of the ryot since the rent of the ryot was last fixed

(iii) That the value of the produce of the land has been increased otherwise than by the agency, or at the expense, of the ryot since the rent of the ryot was last fixed, and that such higher rent does not bear a higher proportion to the rent of such ryot as last fixed than the normal price of produce at or about the time of the present settlement bears to the normal price of similar produce which prevailed at or about the time when such rent was last fixed

(iv) That the value of the produce of the land has been increased otherwise than by the agency, or at the expense, of the ryot since the last previous settlement of the lands was made, and that such higher rent does not bear a higher proportion to that which would have been the rent of lands of a similar description and the same area, according to the rates of such previous settlement, than the normal price of produce at or about the time of the present settlement bears to the normal price of similar produce which prevailed at or about the time of such previous settlement, as recorded in the papers of such settlements, or as otherwise ascertained and certified by the Settlement Officer

(v) That the quantity of land held by the ryot has been proved by measurement to be greater than the quantity for which rent has been previously paid by him

Rules for determining rent recordable as demandable

7 The rent recorded as demandable from an under-tenant shall be determined in accordance with the following rules —

(*a*) Whenever the Settlement Officer shall find any person holding as an under-tenant, he shall first ascertain and record whether the under-tenure so held is binding as against the Government.

(*b*) If the Settlement Officer finds the under-tenure to be so binding, the rent recorded as demandable from such under-tenant shall in no case be higher than an amount which shall be ten per cent below the aggregate of the rents recorded as payable to him from the subordinate under-tenants and ryots whose holdings fall within his tenure

(*c*) If the Settlement Officer shall find that the under-tenure is not binding as against the Government, he shall first determine the proportionate amount of the demand of land revenue to be assessed upon the lands included in the under-tenure in accordance with any orders of Government for the time being in force regulating the demand of land revenue, and shall record the rent payable by such under-tenant at such a sum (not being less than such proportionate amount of land revenue or more than the aggregate of the rents recorded as payable to him from the subordinate under-tenants and ryots whose holdings fall within his tenure) as may seem fair and equitable with reference to the character and circumstances of the tenure.

But nothing in clause (*c*) shall be held to limit the discretion of the Civil Court in determining in any suit under section 11 of this Act the rent of an under-tenant of the class described in the said clause.

Procedure when rent demandable is recorded below that to which it might have been enhanced

8 When the rent demandable from any under-tenant or ryot is recorded at an amount below that to which the rent of such under-tenant or ryot might have been enhanced under this Act, it may be recorded that such under-tenant or ryot shall from time to time be liable to pay increased rent from such dates as may be fixed by the Settlement Officer, until the rent paid by him reaches the amount which the Settlement Officer may determine to be properly payable by him under this Act

Service of notice of enhancement

9 Whenever a higher rent has been recorded as demandable from any under-tenant or ryot than the rent previously paid by him, the Settlement Officer shall cause to be published a copy of the *jummabunds*, or extracts therefrom, specifying in respect of each such under-tenant or ryot the rent recorded as payable by him, and, in the case of a ryot, the clause or clauses of section 6 of this Act under which his rent is enhanced

Such publication may be lawfully made by affixing a copy of the *jummabunds*, or of such extracts therefrom as the Collector may think fit, at the mal cutcherry of the village to which the *jummabunds* relates, or at some other conspicuous place therein, and by proclamation by beat of drum in the said village to the effect that the said copy or extracts have been so affixed, and that the *jummabunds* can be inspected at the office of the Settlement Officer

Suit to contest rents

10 Every under-tenant and ryot shall be liable to pay the rent recorded as demandable from him under this Act, unless it shall be proved in any suit instituted by such under-tenant or ryot to contest his liability to pay the same that such rent has not been assessed in accordance with the provisions of this Act

No such suit shall be instituted otherwise than within four months after the publication of the *jummabunds*, or extracts as aforesaid, in the village in which the lands which are the subject of the suit or any part thereof are situated

Procedure in suits to contest rent recorded as demandable

11 In all suits instituted to contest the rent recorded as demandable under this Act the Court shall, if it modifies or sets aside such rent, proceed to determine the rent payable by the plaintiff in accordance with this Act, and if any arrears of rent at the rates determined by the Court are found to be due, shall make a decree in favor of the defendant, with such costs as may seem proper

Enhancement when to take effect

12 If publication of the copy of a *jummabunds* or of extracts therefrom as provided in section 8 of this Act is made within the first six months of the year of the era current in the district, the enhancement may take effect from the beginning of the year in which such publication may have been made, otherwise it shall take effect from the beginning of the next following year

Rent to hold good for 10 years or until expiration of settlement

13 Rent recorded as demandable under this Act, or fixed by a final decree in any suit as aforesaid, shall not be liable to enhancement until ten years shall have elapsed from the date on which the settlement took effect, or until the period of the settlement shall have expired, whichever may first occur

Application of Act

14 The provisions of this Act shall apply to all settlement proceedings under Regulation VII of 1822 which may have been confirmed after the commencement of Bengal Act III of 1878, or which may hereafter be confirmed or sanctioned by the revenue authorities from time to time empowered in that behalf by the Lieutenant-Governor, whether such proceedings shall have been commenced before or after such commencement

CHAPTER XIX

OF THE CHARGE

Form of Charges

Charge to state offence

223 Every charge under this Code shall state the offence with which the accused is charged

Specific name of offence sufficient description

If the law which creates the offence gives it any specific name the offence may be described in the charge by that name only

How stated where offence has no specific name

If the law which creates the offence does not give it any specific name, so much of the definition of the offence must be stated as to give the accused notice of the matter with which he is charged

The law and section of the law against which the offence is said to have been committed shall be mentioned in the charge

What implied in charges

The fact that the charge is made is equivalent to a statement that every legal condition required by law to constitute the offence charged was fulfilled in the particular case

Language of charge

In the Presidency towns the charge shall be written in English, elsewhere it shall be written either in English or in the language of the Court If the language of the charge is not understood by the accused, the charge shall be interpreted to him in a language which he understands

Previous conviction when to be set out

If the accused has been previously convicted of any offence, and it is intended to prove such previous conviction for the purpose of affecting the punishment which is to be awarded, the fact of the previous conviction must be stated in the charge It such statement is omitted, it may be added at any time before sentence is passed, but not afterwards

Illustrations

(*a*) *A* is charged with the murder of *B*

This is equivalent to a statement that *A* has not fallen within any of the exceptions in section 300 and 304 of the Indian Penal Code, that it did not fall within any of the general exceptions of the same Code, and that it did not fall within any of the five exceptions to section 300, or that it did fall within exception 1 one or other of the three provisos to that exception applied to it

(*b*) *A* is charged under section 326 of the Indian Penal Code with voluntarily causing grievous hurt to *B* by means of an instrument for shooting This is equivalent to a statement that the case was not provided for by section 335 of the Indian Penal Code, and that the general exceptions did not apply to it

(*c*) *A* is charged with murder, theft, extortion, adultery or criminal intimidation, or any other specific offence This charge may state that *A* committed murder, or theft, or extortion, or adultery or criminal intimidation, as the case may be, without reference to the definitions contained in the Indian Penal Code, but the circumstances must be such as to show in which manner he committed the offence punishable under the section of the Code he is charged with

(*d*) *A* is charged under section 184 of the Indian Penal Code with intentionally omitting to give notice of property offered for sale by the authority of a public servant The charge should be in the words of the section

Particulars as to time, place and person

224 The charge shall contain such particulars as to the time and place of the alleged offence, and the person (if any) against whom or the thing in respect of which, it was committed, as are reasonably sufficient to give the accused notice of the matter with which he is charged

Act s Act s

When manner of committing offence must be stated

225 When the nature of the case is such that the particulars mentioned in sections 223 and 224 do not give the accused sufficient notice of the matter with which he is charged the charge shall also contain such particulars of the manner in which the alleged offence was committed as will be sufficient for that purpose

Act s Act s

Illustrations

(*e*) *A* is accused of the theft of certain articles at a certain time and place The charge need not set out the manner in which the theft was effected

(*f*) *A* is accused of cheating *B* at a given time and place The charge must set out the manner in which *A* cheated *B*

(*g*) *A* is accused of giving false evidence at a given time and place The charge must set out that portion of the evidence given by *A* which is alleged to be false

(*h*) *A* is accused of obstruction *B* a public servant, in discharge of his public functions at a given time and place. The charge must set out the manner in which *A* obstructed *B* in the discharge of his functions

(*i*) *A* is accused of the murder of *B* at a given time and place The charge need not state the manner in which *A* murdered *B*

(*j*) *A* is accused of disobeying a direction of the law with intent to save *B* from punishment The charge must set out the disobedience charged and the law infringed.

(*k*) *A* is accused of dacoity The charge should state that *A* committed with four or more others committed robbery and thereby committed dacoity

226. In every charge words used in describing an offence shall be deemed to have been used in the sense attached to them respectively by the Indian Penal Code

Words in charges taken in sense of Penal Code

227 No error in stating either the offence or the particulars required to be stated in the charge, and no omission to state the offence or those particulars, shall be regarded at any stage of the case as material, unless the accused was in fact misled by such error or omission

Effect of errors.

Illustrations

(*a*) *A* is charged, under section 242 of the Indian Penal Code with having been in possession of counterfeit coin having, known at the time when he became possessed thereof that such coin was counterfeit the word fraudulently being omitted in the charge Unless it appears that *A* was in fact misled by this omission, the error shall not be regarded as material

(*b*) *A* is charged with cheating *B* and the manner in which he cheated *B* is not set out in the charge or is set out incorrectly *A* defends himself calls witnesses and gives his own account of the transaction The Court may infer from this that the omission to set out the manner of the cheating is not material

(*c*) *A* is charged with cheating *B* and the manner in which he cheated *B* is not set out in the charge There were many transactions between *A* and *B* and *A* had no means of knowing to which of them the charge referred and offered no defence The Court may infer from such facts that the omission to set out the manner of the cheating was in this case a material error

(*d*) *A* is charged with the murder of Khoda Baksh on the 21st January In fact the murdered person's name was Haidar Baksh and the date of the murder was the 20th January *A* was never charged with any murder but one and had heard the inquiry before the Magistrate which related exclusively to the case of Haidar Baksh The Court may infer from these facts that *A* was not misled and that the error in the charge was immaterial

(*e*) *A* was charged with murdering Haidar Baksh on the 20th January and Khoda Baksh (who tried to arrest him for that murder) on the 21st January When charged for the murder of Haidar Baksh he was tried for the murder of Khoda Baksh The witnesses present on his defence were witnesses in the case of Haidar Baksh The Court may infer from this that *A* was misled, and that the error was material

228 When any person is committed for trial before a High Court the Clerk of the Crown, or, if there be not a Clerk of the Crown, a Judge of the High Court, shall, on receipt of the charge, peruse and consider it, and may, if it appears necessary or expedient so to do, alter or re-draw the same, having regard to the rules as to the form of charges contained in this Code

Procedure on commitment to High Court

229 If a prisoner is committed to the Court of Session or High Court without any charge at all, the Court or (in the case of a High Court) the Clerk of the Crown or a Judge of the High Court may draw up a charge, having regard to the rules last aforesaid

How Court of Session may deal with charge

If a prisoner is committed upon a charge which the Court upon reference to the proceedings before the committing Magistrate, considers improper, the Court may draw up a charge for any offence which it considers to be proved by the evidence taken before the committing Magistrate

230 Any Court may, upon the application of the accused or of the prosecution, or upon its own motion, alter any charge at any time before judgment is pronounced, or, in the case of trials before the Court of Session or High Court, before the verdict of the jury is returned or the opinions of the assessors are expressed

Magistrate may alter charge

Every such alteration shall be read and explained to the accused

231 If the alteration is such that proceeding immediately with the trial is not likely, in the opinion of the Court, to prejudice the accused in his defence, the Court may in its discretion, after making such alteration, proceed with the trial as if the altered charge had been the original charge

When trial may proceed immediately after alteration

232 If the alteration is such that proceeding immediately with the trial is likely, in the opinion of the Court, to prejudice the accused in his defence, the Court may either direct a new trial, or suspend the trial for such period as may be necessary to enable him to make his defence to the altered charge, and after hearing his defence, the Court may if it thinks fit further adjourn the trial to admit of the appearance of any witness whose evidence the Court considers to be material to the case or who the accused wishes to be summoned in his defence

When new trial may be directed or trial suspended

Adjournment

233 Whenever a charge is altered by the Court, the complainant and the accused shall be allowed to recall and examine with reference to such alteration, any witness who may have been examined

Recall of witnesses when charge altered

234 If the offence stated in the altered charge is one for the prosecution of which previous sanction is necessary, the case shall not be proceeded with until such sanction is obtained unless sanction has been already obtained for a prosecution on the same facts as those on which the altered charge is founded

Stay of proceedings if previous sanction required to altered charge not previously granted

235 If any Appellate Court, or the High Court in the exercise of its powers of revision, is of opinion that any person convicted of an offence was in fact misled in his defence by an error in the charge, it shall direct a new trial to be had upon a charge amended in whatever manner it thinks fit

Effect of material error

If the Court is of opinion that the facts of the case are such that no valid charge could be pre-

ferred against the accused in respect of the facts proved, it shall quash the conviction

Illustration

A is convicted of an offence under section 196 of the Indian Penal Code upon a charge which omits to state that he knew the evidence which he corruptly used or attempted to use as true or genuine was false or fabricated. If the Court thinks it probable that *A* had such knowledge and that he was misled in his defence by the omission from the charge of the statement that he had it, it shall direct a new trial upon an amended charge; but if it appears probable from the proceedings that *A* had no such knowledge, it shall quash the conviction

Joinder of Charges

Separate charges for distinct offences

236 There must be a separate charge for every distinct offence of which any person is accused before the Magistrate and every such charge must be tried separately except in the cases mentioned in sections 237, 238, 239 and 240

Illustration

A is accused of a theft on one occasion and of causing grievous hurt on another occasion. *A* must be separately charged and separately tried for the theft and the causing grievous hurt

More offences than one of same kind may be charged within a year of each other

237 When a person is accused of the same time of more offences than one of the same kind, committed against the same person within the space of one year from the first to the last of them, he may be charged with and tried at one trial for, any number of them not exceeding three

1—Trial for more than one offence

238 1—If, in one series of acts so connected together as to form the same transaction, more offences than one are committed by the same person, he may be charged with and tried at one trial for, every such offence

II—One act falling within two definitions

II—If the acts alleged constitute an offence falling within two or more separate definitions of any law in force for the time being by which offences are defined or punished, the person accused of them may be charged with each of the offences so committed, but he must not receive a punishment more severe than could be inflicted for any of such offences

III—Acts severally constituting more than one offence but all by combining will form an offence

III—Where several acts, of which one or more than one would by itself constitute an offence, form, when combined, a different offence, the person accused of them may be charged with every offence of any of the different offences which he may have committed; but he shall not receive for such offences collectively, a punishment more severe than could be inflicted for any one of such offences

2, 5, 7, 5, **239** If a single act or series of acts is of such a nature that it is doubtful which of several offences the facts which can be proved will constitute, the accused may be charged with having committed all or any of such offences, and any number of such charges may be tried at once, or he may be charged in the alternative with having committed some one of the said offences.

Where it is doubtful what offence has been committed

Illustration

A is accused of an act which may amount to theft or receiving stolen property, or criminal breach of trust or cheating. He may be charged with theft, receiving stolen property, criminal breach of trust and cheating, or he may be charged with having committed theft, receiving stolen property, or criminal breach of trust or cheating.

2, 5, 7, **240** If, in the case mentioned in section 239, the accused is charged with one offence, and it appears in evidence that he committed a different offence for which he might have been charged under the provisions of that section, he may be convicted of the offence which he is shown to have committed, although he was not charged with it.

When a person is charged with one offence, he can be convicted of another

Illustration

A is charged with theft. It appears that he committed the offence of criminal breach of trust or that of receiving stolen goods. He may be convicted of criminal breach of trust, or of receiving stolen goods, though he may not be charged with such offence.

2, 5, 7, 4, 5, **241.** When a person is charged with an offence consisting of several particulars, a combination of some only of which constitute a complete minor offence, and part of the charge is not proved, but the part which is proved amounts to a different offence, he may be convicted of the offence which he is proved to have committed, though he was not charged with it.

When offence proved included in offence charged

(*z*.) *A* is charged, under section 407 of the Indian Penal Code, with criminal breach of trust in respect of property entrusted to him as a carrier. It appears that he did commit criminal breach of trust under section 406 in respect of the property, but that it was not entrusted to him as a carrier. He may be convicted of criminal breach of trust under section 406.

242 When more persons than one are accused of the same offence, or of different offences committed in the same transaction, or when one person is accused of committing any offence, and another of abetment of, or attempt to commit, such offence, they may be charged and tried together or separately as the Court thinks fit, and the provisions contained in the former part of this chapter shall apply to all such charges.

It is for the Judge, and not for the jury to decide whether the existence of those circumstances has been proved

It is the duty of the Judge to decide whether the original has been lost or destroyed

Duty of jury

302 It is the duty of the jury—

(*a*) to decide which view of the facts is true, and then to return the verdict which under such view ought, according to the direction of the Judge to be returned,

(*b*) to determine the meaning of all technical terms and words used in an unusual case which it may be necessary to determine, whether such words occur in documents or not,

(*c*) to decide all questions which according to law are to be deemed questions of fact

(*d*) to decide whether general indefinite expressions do or do not apply to particular cases, unless such expressions refer to legal procedure, or unless their meaning is ascertained by law, in either of which cases it is the duty of the Judge to decide their meaning

Illustrations

(*a*) A is tried for the murder of B

It is the duty of the Judge to explain to the jury the distinction between murder and culpable homicide, and to tell them under what views of the facts A ought to be found guilty of murder, or of culpable homicide or to be acquitted

It is the duty of the jury to decide which view of the facts is true, and to return a verdict in accordance with the direction of the Judge which they think to be right, whether they think the direction right or wrong, and whether they do or do not agree with it

(*b*) The question is whether a person entitled to a certain house has or has not parted with it—which a writing was drawn with the intention of effecting that object

Each of these is a question for the jury

303 In cases tried by jury, after the Judge has finished his charge, the jury may retire to consider their verdict

Procedure when Judge disagrees with jury

310 If in any such case the Judge disagrees with the verdict of the jurors, or of a majority of the jurors on all or any of the charges on which the accused has been tried, so completely that he considers it necessary for the ends of justice to submit the case to the High Court, he shall submit the case accordingly, recording

ing the grounds of his opinion and, when the verdict is one of acquittal, stating the offence which he considers to have been committed

Whenever the Judge submits a case under this section, he shall not record judgment of acquittal or of conviction on any of the charges on which the accused has been tried but he may either remand the accused to custody, or admit him to bail

The High Court shall deal with the case so submitted as it would deal with an appeal, but it may acquit or convict the accused of any offence of which the jury could have convicted him upon the charge framed and placed before it and if it convict him, may pass such sentence as might have been passed by the Court of Session

G—Re-trial of Accused after Discharge of Jury

The evidence so taken down shall be signed by the Sessions Judge or Magistrate, and shall form part of the record

Procedure in regard to such evidence when completed

362 As the evidence of each witness taken under section 358 or 359 is completed, it shall be read over to him in the presence of the accused if in attendance, or of his pleader, when his personal attendance is dispensed with and he appears by pleader, and shall, if necessary, be corrected

If the witness deny the correctness of any part of the evidence when the same is read over to him, the Magistrate or Sessions Judge may, instead of correcting the evidence, make a memorandum thereon of the objection made to it by the witness, and shall add such remarks as he thinks necessary.

If the evidence be taken down in a language different from that in which it has been given, and the witness does not understand the language in which it is taken down, he may require his evidence as taken down to be interpreted to him in the language in which it was given, or in a language which he understands.

450 If the Judge of the Sessions Division within which the offence is ordinarily triable is not a European British subject, the case shall be reported by the committing Magistrate for the orders of the High Court.

Mixed jury for trial of European British subjects.

451 In trials of European British subjects before a High Court or Court of Session, if before the first juror is called and accepted or the first assessor is appointed, as the case may be, any such subject requires to be tried by a mixed jury, or by a mixed set of assessors, not less than half the number of the jurors or assessors shall be Europeans or Americans, or both Europeans and Americans.

Trial of European British subject and Native jointly accused

452 In any case in which a European British subject is accused jointly with a person not being an European British subject, and such European British subject is committed for trial before a High Court or Court of Session, such persons may be tried together, and the procedure on the trial shall be the same as it would have been had the European British subject been tried separately

When Native may claim separate trial

Provided that, if the European British subject requires under section 451 to be tried by a mixed jury, or by a mixed set of assessors, and the person not being a European British subject requires that he shall be tried separately, the latter person shall be tried separately in accordance with the provisions of chapter XXIII

Procedure on claim of European British subject to be dealt with as such

453 When any person claims to be dealt with as a European British subject, he shall state the grounds of such claim to the Magistrate before whom he is brought for the purposes of the inquiry or trial, and such Magistrate shall inquire into the truth of such statement, and allow the person making it a reasonable time within which to prove that it is true, and shall then decide whether he is or is not a European British subject, and shall deal with him accordingly If any such person is convicted by such Magistrate and appeals from such conviction, the burden of proving that the Magistrate's decision was wrong shall lie upon him.

When any such person is committed by the Magistrate for trial before the Court of Session, and such person again before such Court claims to be dealt with as a European British subject, such Court shall after such further enquiry if any, as it thinks fit, decide whether he is or is not a European British subject, and shall deal with him accordingly If he is convicted by such Court and appeals from such conviction, the burden of proving that the Court's decision was wrong shall lie upon him

When the Court before which any person is tried decides that he is not a European British subject, such decision shall form a ground of appeal from the sentence or order passed in such trial

Failure to plead status a waiver.

454 If a European British subject does not claim to be dealt with as such by the Magistrate before whom he is tried or by whom he is committed, or if, when such claim

has been made before and disallowed by the committing Magistrate, it is not again made before the Court to which he is committed, he shall be held to have waived his privilege as such European British subject, and shall not assert it in any subsequent stage of the same case

Unless the Magistrate has reason to believe that any person brought before him is not a European British subject, the Magistrate shall ask such person whether he is such a subject or not

Trial under this chapter of person not a European British subject

455 Where a person who is not a European British subject is dealt with under this chapter as such, and does not object, the inquiry, commitment or trial (as the case may be) shall not, by reason of such dealing, be invalid

Right of European British subject under detention to apply for order to produce his person

456 Any European British subject who is detained in custody by any person, and who considers such detention unlawful, may apply to the High Court which would have jurisdiction over him in respect of any offence committed by him at the place where he is detained, or to which he would be entitled to appeal from any conviction for any such offence, for an order directing the person detaining him to bring him before the High Court to abide such further order as it may pass

Procedure on such application

457. The High Court, if it thinks fit, may, before issuing such order, inquire on affidavit or otherwise, into the grounds on which it is applied for, and grant or refuse such application, or it may issue the order in the first instance and, when the person applying for it is brought before it, it may make such further order in the case as it thinks fit, after such inquiry (if any) as it thinks necessary

Territories throughout which High Court may issue such orders

458. The High Court may issue such orders throughout the territories within the local limits of its appellate criminal jurisdiction, and such other territories as the Governor General in Council may from time to time direct.

Application of Acts conferring summary jurisdiction

459. Unless there be something repugnant in the context, all enactments heretofore or hereafter made by the Governor General in Council, which confer summary jurisdiction over offences, shall be deemed to apply to European British subjects, although such persons be not expressly referred to therein

Nothing in this section shall be deemed to authorize any court to exceed the limits prescribed by this chapter as to the amount of punishment which it may inflict on an European British subject, or to confer jurisdiction on any Magistrate not being a Justice of the Peace or on any Magistrate outside the Presidency Towns not being an European British subject

Jury for trial of Europeans or Americans.

460 In every case in which an European (not being an European British subject) or an American is the accused person, or one of the accused persons, not less than half the number of Jurors or Assessors shall, if practicable and if such European or American so desires, be Europeans, or Americans

Jury when European or American charged jointly with one of another race

461 Whenever an European or American is charged before the Court of Session jointly with a person of any other race, and claims to be tried by a jury consisting of at least one-half of Europeans and Americans, such person shall, if he so desires, be tried separately

Summoning and empanelling jurors under section 451, or 460

462 When a trial is to be held before the Court of Session in which the accused person, or one of the accused persons, is entitled to be tried by a jury constituted under the provisions of section 451, or section 460, the Court shall, three days at least before the day fixed for holding such trial, cause to be summoned, in the manner hereinafter prescribed, as many European and American jurors as are required for the trial

The Court shall also at the same time in like manner cause to be summoned the same number of other persons named in the revised list, unless such number of such other persons has been already summoned for trials by jury at that session

From the whole number of persons returned, the jurors who are to constitute the jury shall be chosen by lot in the manner prescribed in section 279, until a jury containing the proper number of Europeans or Americans, or a number approaching thereto as nearly as possible, has been obtained

Conduct of criminal proceedings against European British subjects

463 Criminal proceedings against European British subjects, Europeans not being European British subjects, and Americans before the Court of Session and High Court, shall, except as otherwise expressly provided, be conducted according to the provisions of chapter XXIII

CHAPTER XXXV.

LUNATICS

Procedure in case of accused being lunatic.

464 When any person accused of an offence before a Magistrate holding an inquiry or a trial appears to such Magistrate to be of unsound mind and incapable of making his defence,

the Magistrate shall inquire into the fact of such unsoundness, and shall cause such person to be examined by the Civil Surgeon of the district or such other medical officer as the Local Government directs, and thereupon shall examine such Surgeon or other officer as a witness, and shall reduce the examination into writing

If such Magistrate is of opinion that the accused is of unsound mind, he shall postpone further proceedings in the case

Procedure in case of person committed before Court of Session or High Court being lunatic

465 If any person committed for trial before a Court of Session or a High Court appears to the Court at his trial to be of unsound mind and incapable of making his defence, the Court shall, in the first instance, try the fact of such unsoundness and incapacity and, if satisfied of the fact, shall pass judgment accordingly, and thereupon the trial shall be postponed

The trial of the fact of the unsoundness of mind and incapacity of the accused shall be deemed to be part of his trial before the Court

Release of lunatic pending investigation or trial

466 Whenever an accused person is found to be of unsound mind and incapable of making his defence, the Magistrate or Court, as the case may be if the offence of which such person is accused is bailable may release him on sufficient security being given that he shall be properly taken care of and shall be prevented from doing injury to himself or to any other person, and for his appearance when required before the Magistrate or Court or such officer as the Magistrate or Court appoints in this behalf

If the offence is not bailable, or if sufficient security is not given, the Magistrate or Court shall report the case to the Local Government, and the Local Government may order such person to be confined in a Lunatic Asylum or other suitable place of safe custody, and the Magistrate or Court shall give effect to such order

Custody of lunatic

467 Whenever an inquiry or trial is postponed under section 464 or section 465, the Magistrate or Court, as the case may be, may at any time resume the inquiry or trial, and require the accused to appear or be brought before such Magistrate or Court

When the accused has been released under section 466, and the sureties for his appearance produce him to the officer whom the Magistrate or Court appoints in this behalf, the certificate of such officer that the accused is capable of making his defence shall be receivable in evidence

Procedure on accused appearing before Magistrate or Court

468 If, when the accused appears or is again brought before the Magistrate or the Court, as the case may be, the Magistrate or Court considers him capable of making his defence, the inquiry or trial shall proceed.

If the Magistrate or Court considers the accused person to be still incapable of making his defence, the Magistrate or Court shall again act according to the provisions of section 464 or section 465, as the case may be

When accused appears to have been insane

469. When the accused appears to be of sound mind at the time of inquiry or trial, and the Magistrate is satisfied from the evidence given before him that there is reason to believe that the accused committed an act which, if he had been of sound mind, would have been an offence, and that he was at the time when the act was committed, by reason of unsoundness of mind, incapable of knowing the nature of the act or that it was contrary to law, the Magistrate shall proceed with the case and, if the offence be triable exclusively by the Court of Session or High Court, send the accused for trial before the Court of Session or High Court, as the case may be

Judgment of acquittal on ground of lunacy

470 Whenever any person is acquitted upon the ground that, at the time at which he is alleged to have committed an offence, he was, by reason of unsoundness of mind, incapable of knowing the nature of the act alleged as constituting the offence complained of, or that it was contrary to law, the judgment of acquittal shall state specially whether he committed the act or not

Person acquitted on such ground to be kept in safe custody

471 Whenever such judgment states that the accused person committed the act alleged, the Magistrate or Court before whom or which the trial has been held shall, if such act would, but for the incapacity found, have constituted an offence, order such person to be kept in safe custody in such place and manner as the Magistrate or Court thinks fit, and shall report the case for the order of the Local Government

The Local Government may order such person to be confined in a Lunatic Asylum, jail or other suitable place of safe custody

Lunatic prisoners to be visited by Inspector General

472 When any person is confined under the provisions of section 466 or section 471, the Inspector General of Prisons, if such person is confined in a jail, or the visitors of the Lunatic Asylums or any two of them, if he is confined in a Lunatic Asylum, may visit him in order to ascertain his state of mind, and he shall be visited once at least in every six months by such Inspector General or by two of such visitors as aforesaid, and such Inspector General or visitors shall make a special report to the Local Government as to the state of mind of such person

Procedure where lunatic prisoner is reported capable of making his defence

473. If such person is confined under the provisions of section 466, and such Inspector General or visitors shall certify that, in his or their opinion such person is capable of making

his defence, he shall be taken before the Magistrate or Court, as the case may be, at such time as the Magistrate or Court appoints, and the Magistrate or Court shall deal with such person under the provisions of section 468, and the certificate of such Inspector General or visitors as aforesaid shall be receivable as evidence

Procedure where lunatic confined under section 466 or 471 is declared fit to be discharged

474 If such person is confined under the provisions of section 466 or section 471, and such Inspector General or visitors shall certify that, in his or their judgment, he may be discharged without danger of his doing injury to himself or to any other person, the Local Government may thereupon order him to be discharged, or to be detained in custody, or to be transferred to a public Lunatic Asylum if he has not been already sent to such an Asylum, and in case it orders him to be transferred to an Asylum, may appoint a commission, consisting of a judicial officer and two medical officers, whereof the chief medical officer attached to the Asylum shall be one

The said commission shall make formal inquiry into the state of mind of such person taking such evidence as is necessary, and shall report to the Local Government who may order his discharge or detention as it thinks fit

Delivery of lunatic to care of relative

475 Whenever any relative or friend of any person confined under the provisions of section 466 or section 471 desires that he shall be delivered over to his care and custody, the Local Government, upon the application of such relative or friend and on his giving security to the satisfaction of such Government that the person delivered shall be properly taken care of and shall be prevented from doing injury to himself or to any other person, may order such person to be delivered to such relative or friend

Whenever such person is so delivered, it shall be upon condition that he shall be produced for the inspection of such officer and at such times as the Local Government directs

The provisions of sections 472 and 473 shall, *mutatis mutandis*, apply to persons delivered under the provisions of this section, and the certificate of the inspecting officer appointed under this section shall be dealt with as a certificate under section 474

CHAPTER XXXVI

PROCEEDINGS IN CASE OF CERTAIN OFFENCES AFFECTING THE ADMINISTRATION OF JUSTICE

Procedure in cases mentioned in section 196

476 When any Court is of opinion that there is ground for enquiring into any offence referred to in section 196, and committed before it or brought under its notice in the course of a judicial proceeding, such Court after making any preliminary inquiry that may be necessary may send the case for enquiry to any Magistrate having power to try or commit for trial the accused for such offence, and may send the accused in custody, or take sufficient security for his appearance, before such Magistrate, and may bind over any person to appear and give evidence on such trial or enquiry

Such Magistrate shall thereupon proceed according to law, and may, if he is authorised to transfer cases under section 193, transfer the enquiry to some other competent Magistrate, instead of completing the inquiry himself

Power of Session Court as to such offences committed before itself

477 A Court of Session may charge a person for any offence referred to in section 196 and committed before it, or brought under its notice in the course of a judicial proceeding, and may commit, or admit to bail and try, such person upon its own charge

Such Court may direct the Magistrate to cause the attendance of any witnesses for the purposes of the trial

Power of Civil Courts to complete investigation and commit to Sessions Court

478 When any such offence is committed before any Civil Court, or brought under the notice of any Civil Court in the course of a judicial proceeding and such case is triable exclusively by the High Court or Court of Session, or such Civil Court thinks that it ought to be tried by the High Court or Court of Session, such Civil Court may, instead of sending the case under section 476 to a Magistrate for enquiry itself complete the enquiry, and commit or hold to bail the accused person to take his trial before the High Court or Court of Session, as the case may be

For the purposes of an enquiry under this section, the Civil Court may exercise all the powers of a Magistrate, and its proceedings in such enquiry shall be conducted as nearly as may be in accordance with the provisions of chapter XVIII, and shall be deemed to have been held by a Magistrate

Procedure of Civil Court in such cases

479 When any such commitment is made by a Civil Court, the Court shall send the charge with the order of commitment and the record of the case to the Presidency Magistrate, District Magistrate or other Magistrate authorised to commit for trial, and such Magistrate shall bring the case before the High Court or Court of Session, as the case may be, together with the witnesses for the prosecution and defence

480 When any such offence as is described in section 175, 178, 179, 180, or 228 of the Indian Penal Code is committed in the view or presence of any Court, the Court may cause the offender, whether he is a European British subject or not, to be detained in custody, and at any time before the rising of the Court on the

same day* may, if it thinks fit, take cognizance of the offence and sentence the offender to fine not exceeding two hundred rupees and, in default of payment, to imprisonment in the civil jail for a term which may extend to one month, unless such fine be sooner paid

Record in such cases

481 In every such case, the Court shall record the facts constituting the offence, with the statement (if any) made by the offender, as well as the finding and sentence

If the offence is under section 228 of the Indian Penal Code, the record must show the nature and stage of the judicial proceeding in which the Court interrupted or insulted was sitting, and the nature of the interruption or insult offered

Registrar to be deemed a Civil Court within Section 480

482 A Registrar appointed under the Indian Registration Act, 1877, shall be deemed to be a Civil Court within the meaning of section 480

Procedure where Court considers that case should not be dealt with under section 480

483 If the Court in any case considers that a person accused of any of the offences referred to in section 480 and committed in its view or presence should be imprisoned otherwise than in default of payment of fine or that a fine exceeding two hundred rupees should be imposed upon him, or such Court is for any other reason of opinion that the case should not be disposed of under section 480, such Court after recording the facts constituting the offence and the statement of the accused as hereinbefore provided, may forward the case to a Magistrate having jurisdiction to try the same, and may require security to be given for the appearance of such accused person before such Magistrate or, if sufficient security is not given, shall forward such person under custody to such Magistrate

The Magistrate to whom any person is forwarded under this section shall proceed to hear the complaint against him in manner hereinbefore provided.

Discharge of offender on submission or apology

484 When any Court has under section 480 or 483 adjudged an offender to punishment or forwarded him to a Magistrate for trial, for refusing or omitting to do anything which he was lawfully required to do, or for any intentional insult or interruption, the Court may in its discretion discharge the offender or remit the punishment on his submission to the order or requisition of such Court, or on apology being made to its satisfaction

Imprisonment or commitment of person refusing to answer or produce document

485 If any witness before a Court refuses to answer such questions as are put to him or to produce any document in his possession or power which the Court requires him to produce, and does not offer any reasonable excuse for such refusal, such Court may sentence him to simple imprisonment, or commit him to the custody of an officer of the Court, for any term not exceeding seven days, unless in the meantime such person consents to be examined and to answer, after which, in the event of his persisting in his refusal, he may be dealt with according to the provisions of section 480 or 483, and in the case of a High Court shall be deemed guilty of a contempt.

Appeals from convictions in contempt-cases

486 Any person convicted by any Court under section 480 or section 485 may appeal to the Court to which decrees or orders made in such Court are ordinarily appealable

Sections 420, 421, 422, 426 and 428 shall apply to appeals under this section, and the Appellate Court may alter or reverse the finding or sentence appealed against, and may if it sees fit enhance any punishment that has been awarded

An appeal from such conviction by a Small Cause Court may be made to the Court of Session for the Sessions Division within which such Court is situate

An appeal from such conviction by any officer as Registrar appointed as aforesaid may, when such officer is also Judge of a Civil Court, be made to the Court to which it would, under the preceding portion of this section, be made if such conviction were a conviction by such officer in his capacity as such Judge, and in other cases may be made to the Inspector-General of Registration

Judge or Magistrate not to try offences referred to in section 481 when committed before himself

487 Except as provided in sections 477, 480, and 485, no Judge or Magistrate other than a Judge of a High Court, the Recorder of Rangoon, and the Presidency Magistrates, shall try any person for any offence referred to in section 196, when such offence is committed before himself or brought under his notice in a judicial proceeding

Nothing in section 476 or 483 shall prevent a Magistrate empowered to commit to the Court of Session or High Court from committing any case to such Court, or shall prevent a Presidency Magistrate from himself disposing of any case instead of sending it for enquiry to another Magistrate

CHAPTER XXXVII

488 If any person having sufficient means neglects or refuses to maintain his wife or his legitimate or illegitimate child unable to maintain itself, the District Magistrate, a Presidency Magistrate, a Sub-Divisional Magistrate, or a Magistrate of the first class may, upon proof of such neglect or refusal, order such person to make a monthly allowance for the maintenance of his wife or such child, at such monthly rate, not exceeding fifty rupees in the whole, as such Magistrate thinks fit, and to pay the same to such person as the Magistrate from time to time directs.

Such allowance shall be payable from the date of the order

If any person so ordered wilfully neglects to comply with the order, any such Magistrate may, for every breach of the order, issue a warrant for levying the amount due in manner hereinbefore provided for levying fines, and may sentence such person, for each month's allowance remaining unpaid, to imprisonment for any term not exceeding one month

Enforcement of order

Provided that, if such person offers to maintain his wife on condition of her living with him, and she refuses to live with him, such Magistrate may consider any grounds of refusal stated by her, and may make an order under this section notwithstanding such offer, if he is satisfied that such person is living in adultery, or that he has habitually treated his wife with cruelty

Proviso

No wife shall be entitled to receive an allowance from her husband under this section if she is living in adultery or if, without any sufficient reason, she refuses to live with her husband, or if they are living separately by mutual consent

489 The Magistrate may, on proof of a change in the circumstances of any person receiving or ordered, under section 188, to pay a monthly allowance, his wife or child, may make such alteration in the allowance ordered as the Magistrate thinks fit, provided the monthly rate of fifty rupees be not exceeded

Alteration in allowance

490 A copy of the order of maintenance shall be given without payment to the person in whose favour it is made, or to his guardian, if any, and such order shall be enforceable by any Magistrate in any place where the person against whom it is made may be or such Magistrate being satisfied as to the identity of the parties and the non payment of the allowance due

and not to be sold in execution

But the whole or any part of the annual nett proceeds of such lands may, if the Government so directs, be applied to the satisfaction of the decrees of the Civil Courts against the proprietor

STATEMENT OF OBJECTS AND REASONS

No less than three Codes of Criminal Procedure are now in operation in British India: Act X of 1872, amended by Act XI of 1874, which is in force throughout the Mufassal, the High Courts' Act, X of 1875, which is in force in the Presidency towns, Allahabad and Lahore, and the Presidency Magistrates' Act, IV of 1877, also in force in the Presidency-towns

Many of the provisions of these Codes merely repeat one another, many of their rules, though dealing with the same subjects, unnecessarily vary in language, and the result is that the bulk of the Indian Statute book is far greater than need be and that the Courts when construing one Code are often deprived of the guidance of prior decisions on another

The primary object of this Bill which has been framed at the suggestion of the Secretary of State, is to recast the Code of 1872 combining with it the sub stance of the High Courts' Act and the Presidency Magistrates' Act, and incorporating in it the numerous reported decisions on its wording, and thus to first give to India a full and complete Code of Criminal Procedure and carry out, so far the policy of providing a simple and uniform system of law for this country The language and arrangement of Act X of 1872 have for obvious reasons, been departed from only so far as is necessary for the main purpose of the Bill

2 Though many of the enabling Act and Regulations dealing with Criminal Procedure were repealed and re-enacted by Act X of 1872, many more are still untouched, and the secondary object of the present Bill is to consolidate these enactments, which are eleven in number —

Acts

XXIII of 1840 (Execution of process)
XXXIV of 1850 (State prisoners)
III of 1858 (State prisoners)
XVIII of 1862 (Administration of Criminal Justice in the High Courts)
II of 1869 (Justices of the Peace)
XVII of 1870, sections 2 and 4 (Application to European British subjects of Acts giving summary jurisdiction).

Regulations

Bengal Regulation III, 1818 (State prisoners)
Bengal Regulation XX of 1825 (Jurisdiction of Courts Martial)
Madras Regulation II, 1819 (State prisoners)
Bombay Regulation XXV, 1827 (State prisoners).

8 The result of consolidating the Acts and Regulations above specified will be to substitute a single Act of 566 sections for fourteen enactments containing about one thousand unrepealed sections

4 The present Bill is divided into nine Parts, the first containing the usual preliminary matter, the second dealing with the constitution and powers of the Criminal Courts and offices, the third containing some general provisions, the fourth treating of the prevention of offences, the fifth, of information to the Police and of their powers to investigate, the sixth, of proceedings in prosecutions, the seventh, of appeal, reference and revision, the eighth, of special proceedings, the ninth, of supplementary provisions

Preliminary

5 Part I consists of a single chapter containing the usual preliminary matter The wording of some of the definitions in Act X of 1872 has been amended and definitions of 'to sign,' 'public prosecutor,' 'pleader,' 'offence,' 'chapter,' 'schedule' and 'place' have been added The definition of 'European British subject' has been extended to persons naturalized in British India Words referring to acts done are declared to extend also to illegal omissions, and words such as 'special law,' 'local law,' defined in the Penal Code will have the meanings attached to them respectively by that Code On the other hand, the definitions of 'inquired into,' 'trial,' 'Magistrate's case,' have been omitted as not needed in the Code in its revised form

Criminal Courts

6 Part II (constitution and powers of the Criminal Courts and offices) consists of two chapters, of which the first deals (*a*) with the classes of Criminal Courts, (*b*) with territorial divisions, (*c*) with Courts outside the Presidency-towns, (*d*) with the Courts of the Presidency Magistrates, (*e*) with Justices of the Peace and (*f*) with the suspension and removal of Judges, Magistrates and Justices of the Peace The second chapter treats of the powers of Judges and Magistrates, the description of offences cognizable by each Court, the sentences which may be passed by Courts of various classes, and the mode of conferring powers on the latter The changes of the law here made are little more than verbal save that in section 39 (= Act X of 1872, section 561) as to the continuance of powers of an officer transferred to another local area, words have been introduced to shew clearly that the direction therein mentioned may have preceded the transfer In connection with section 33 as to power to sentence to imprisonment in default of payment of fine, it will be necessary to pass simultaneously with the Bill a short Act amending section 67 of the Penal Code, by inserting a declaration that such imprisonment shall be simple

Section 35 declares, in accordance with a decision of the Bombay High Court, that, for the purpose of confirmation or appeal a combined sentence in case of simultaneous convictions for several offences, shall be deemed to be a single sentence

General Provisions

7 Part III contains certain general provisions which it seems convenient to group together and which, to avoid forward references must stand near the beginning of the Code They relate to the following matters aid and information to the Magistrates and Police arrest escape and retaking processes to compel appearance and production of documents Here, again, the changes in the law are little more than verbal, save that, to the offences which the public are bound to assist in preventing, has been added (section 41) attempts to injure public property that the section (44) authorizing in the case of forcible resistance the use of necessary means to effect arrests, has been extended to meet the case of attempts to evade them, that power has been given (section 47) to break open the doors of a house for the purpose of liberating persons who have lawfully entered for the purpose of making arrests therein that persons making arrests have been expressly empowered (section 50) to take from the person arrested any offensive weapons which he may have about him, that the Police have been authorized to arrest, without warrant, deserters from the Navy, and that sections (63, 64) equivalent to Act XXV of 1861, section 112, have been inserted to provide for the retaking of persons escaping or rescued from lawful custody

8 Under the present Code (Act X of 1872, section 153) summonses issued by Magistrates are ordinarily served 'through a Police-officer' the Bill (section 65) provides that they shall ordinarily be served by an officer of the Court, but that the Magistrate may direct service by the Police Persons to or with whom a summons is delivered, tendered or left may be required (section 67) to countersign a copy of the original Provision is made (sections 70, 71) for the service of a summons outside the local jurisdiction of the Magistrate who issues it, and for the proof of such service

9 Section 72 requires that all warrants of arrest, whether issued in the Presidency-towns or the Mufussil shall be sealed Act IV of 1877, section 56 does not in such cases require a seal

10 Section 81 clears up a doubt as to the commencement of the period provided in the corresponding section (171) of Act X of 1872, for the appearance of a person absconding against whom a warrant has been issued

11 On the other hand, the power to arrest without warrant persons against whom a hue and cry has been raised is omitted, as that obsolete common-law process is unknown in India, and

the section authorizing masters and mates to arrest deserters from ships is omitted, as the matter is sufficiently provided for by the Merchant Shipping Act

Prevention of Offences

12 Part IV, which relates to the prevention of offences, comes, it is considered properly before Part VI, which relates to their prosecution It comprises six chapters dealing respectively with lawful resistance, security for keeping the peace and for good behaviour, the dispersion of unlawful assemblies, suppression of nuisances, disputes as to immoveable property, and, lastly, the preventive action of the Police

13 The provision (section 104) relating to lawful resistance to the commission of an offence is new It declares that such resistance may be made by any person in the cases and to the extent in and to which he may exercise the right of private defence—a right defined and limited by the Penal Code, sections 96—106

14 In the chapter relating to bonds for keeping the peace, and for good behaviour, provision has been made (section 116) as to the manner of conducting inquiries We have made it clear in section 124 that a Presidency Magistrate District Magistrate, Sub-divisional Magistrate, and Magistrate of the first class can cancel a bond on the application of a surety Such Magistrates are also empowered (section 108) to require security for good behaviour

15 In the chapter (X) on dispersion of unlawful assemblies, volunteers enrolled under the Indian Volunteers Act, 1869 are placed on the same footing as soldiers of Her Majesty's army

Information to the Police, and their power to investigate

16 Part V consists of a single chapter relating to information to the Police and their power to investigate It corresponds with chapter X of Act X of 1872, and sections 379, 380 of the same Act

17 The words "or that immediate arrest is not necessary," which are to be found in section 117 of Act X of 1872 have been omitted from section 151 of the Bill, as it is not apparent why a police-officer should be debarred from investigating a case of a cognizable offence because he does not at starting feel himself justified in arresting any person

18 Section 162 makes it clear that confessions to Magistrates shall not only be "taken," but signed and certified, like examinations of accused persons

19 Power resembling that conferred on Coroners by Act IV of 1871, section 11, has been given section 174) to Magistrates authorized to hold inquests to disinter and examine corpses in order to discover the cause of death

Proceedings in Prosecutions

20 Part VI treats of proceedings in prosecutions up to appeal, and is divided into seventeen chapters, arranged as follows —

XV	Jurisdiction of Criminal Courts in Inquiries and Trials	XXIV	Tender of Pardon in cases triable by the High Court or Court of Session
XVI	Complaints to Magistrates	XXV	General Provisions as to Inquiries and Trials
XVII	Commencement of Proceedings before Magistrates	XXVI	Evidence
XVIII	Inquiry into cases triable by the Court of Session or High Court	XXVII	The Judgment
XIX	The Charge	XXVIII	Submission of Sentences for Confirmation
XX	Trial of Summons Cases by Magistrates	XXIX	Execution
XXI	Trial of Warrant Cases by Magistrates	XXX	Suspensions, Remissions and Commutations of Sentences
XXII	Summary Trials	XXXI	Previous Acquittals or Convictions
XXIII	Trials before High Courts and Courts of Session		

It will be seen that the above mentioned chapters are arranged, as nearly as may be, according to the chronological order of the events in a prosecution

Chapter XV (as to the jurisdiction of the Courts in inquiries and trials) deals, first, with the place of inquiry or trial then with the time of commencing prosecutions and, thirdly, with the conditions requisite for the institution of proceedings

21 "Delay," says Livingston, "inflicts punishment on the innocent, or lessens the force of example by punishing the guilty after the crime he has committed is forgotten" Sections 186-191 accordingly contain rules as to the time within which prosecutions for most offences must be commenced There will be no limit for prosecutions for the following offences against the State, offences relating to the Army and Navy, false evidence and offences against public justice, offences relating to coin and Government stamps, offences under the Penal Code, sections 299 to 311, 359 to 373 and 390 to 414, offences under the same Code relating to documents trade and property-marks and marriage Three years is the period fixed in case of the following offences against the public tranquility, offences by or relating to public servants, contempts of their lawful authority, offences against property other than those against trade and property-marks For all other offences six months is the period prescribed The time during which the accused is absent from the jurisdiction of the Court empowered to try him,

or fails to surrender pursuant to a proclamation, will be excluded in computing the prescribed periods

22 Section 196 requires that the sanction to entertain complaints of certain offences shall, so far as practicable specify the place in which, and the occasion on which, the offence complained of was committed

23 Chapter XVI, of complaints to Magistrates, corresponds to sections 144 to 147 of Act X of 1872, but adds (section 202) a provision that a complaint in writing made to a Magistrate not competent to entertain it shall be returned for presentation to the proper tribunal

24 Chapter XIX, of the charge, extends to the whole of British India the amendments in Act X of 1872, sections 139 to 150, made by Act X of 1875, and with reference to Mr Justice West's observations in *Reg v Chand Hut*, 11 Bomb 211, on the corresponding section (457) of Act X of 1872 section 211 of the Bill has been confined to offences consisting of several particulars, a combination of some only of which constitutes a complete minor offence.

25 The provision (Act X of 1872, section 218) that the accused shall, while making his defence, be allowed to recall and cross-examine the witnesses for the prosecution has been expressly confined (section 209) to cases where the witnesses are present in the Court or its precincts

26 In chapter XXII, summary trials, the Local Government has been authorised to confer on Benches invested with second or third class powers jurisdiction to try abetments of, and attempts to commit the offences which they may now try summarily

27 Chapter XXIII provides a common procedure for the High Court and the Court of Session, preserving however the special rules as to juries and their verdicts

When a juror becomes unable to attend or absents himself, power is given (section 255), with the consent of the prosecutor and the accused to proceed with the remaining jurors

Where jurors on a session have been taken to view the place in which the offence charged is alleged to have been committed, the Court has been empowered (section 296) to exempt them from being immediately brought back

Where the Session Judge disagrees with a verdict of acquittal and submits the case to the High Court, he is required (section 310) to state the offence which he considers to have been committed, and the High Court is empowered to acquit or convict the accused of any offence of which the jury could have convicted him upon the charge framed and placed before it This, it is believed, is the intention of the corresponding clause of section 263 of Act X of 1872.

28 Much doubt exists as to the offences which may lawfully be compounded The Exception to section 211 of the Penal Code (in which the law on the subject is contained) is excessively obscure, and this obscurity is increased rather than diminished by the illustrations annexed to that section The Bill repeals these illustrations, and section 317 declares in unmistakeable language that certain specified offences, and no others, may be compounded It will be necessary to pass simultaneously with the Bill a short Act declaring that, for the Exception to section 250 of the Penal Code, the following shall be substituted —

"*Exception*—The provisions of sections 213 and 214 do not extend to any case in which the offence may lawfully be compounded"

29 In chapter XXVII, as to judgment section 369 allows the judgments of Mufassal Courts to be written in the mother tongue of the presiding officer

30 In chapter XXIX, as to execution, there are no sections corresponding with sections 319, 320 of Act X of 1872 The reason for the omission is that the matter with which they deal does not belong to criminal procedure, but falls within the scope of the Prisoners' Act, 1871, and it is proposed that, simultaneously with the passing of the present Bill, a short Act be passed, substituting, for section 33 of the Prisoners Act, and for section 57 of Act IV of 1877, a section equivalent to Act X of 1872 sections 319, 320

31 Chapter XXX, as to suspensions remissions and commutations of sentences —Where application is made for the suspension or remission of a sentence the Government is empowered (section 402) to require the presiding Judge of the Court before which the conviction was had to furnish a statement of the facts proved on the trial, and of any facts bearing on the propriety of granting or refusing the application

Appeal, Reference and Revision

32 Part VII deals with appeals reference and the revisional jurisdiction of the High Court

Section 407 provides that the appeal from a District Magistrate exercising the enhanced powers conferred under section 34 shall be to the Court of Session in cases in which the sentence has not been submitted to that Court for confirmation, and when it has been so submitted to the High Court This puts the appeals in question on the same footing as appeal from an Assistant Sessions Judge There seems to be no reason for making any distinction between the two

33 Section 424, in accordance with a decision of the Madras High Court (I L R 1 Mad 61) declares that when an Appellate Court enhances any punishment inflicted by the sentence appealed against it may inflict punishment of a different kind

34 In the case of an appeal from an acquittal, section 427 expressly authorizes the High Court to order the accused to be arrested and brought before it, and to commit him to prison pending the disposal of the appeal, or admit him to bail.

35 A section (431) suggested by a decision of the Bombay High Court (I. L. R. 2 Bomb 564) provides that appeals by persons required to give security for good behaviour or by convicted persons abate on their death, and that appeals against acquittals abate on the death of the accused. The power of revision conferred by section 439 will enable the High Court to alter sentences even after the appeal has abated.

36 Where, in the opinion of the Court of Session or District Magistrate, an accused person has been improperly discharged by an inferior Court, the accused should not be committed without having had an opportunity of shewing cause why the committal should not be made (1 O'K. 98). Provision to this effect has been made by section 436.

37 Section 439 (corresponding with Act X of 1872, section 297) has been framed so as to allow the High Court, when exercising its revisional jurisdiction, to interfere with improper acquittals. There is reason to believe that this change is in accordance with the intention of the framers of Act X of 1872.

Special Proceedings.

38 Part VIII, as to special proceedings, deals with the procedure relating to the following matters:—criminal proceedings against Europeans and Americans; lunatics; contempts of Court and other offences affecting the administration of justice; maintenance of wives and children; State prisoners; proceedings in the nature of *habeas corpus*.

Section 451 removes some differences which exist in the present law between the procedure of the High Courts and Courts of Session in cases in which European British subjects are concerned and which seem unnecessary. In particular, it is provided that, in the Court of Session as well as in the High Court, the requisite moiety of the jury or Assessors may be made up of Americans as well as Europeans.

39 The power given by sections 433 and 434 of Act X of 1872 to discharge from custody or make over to his relative a person acquitted on the ground of insanity, has been extended, in sections 474 and 475 of the Bill, to the case of persons who, being found to be insane at the time of trial, are committed to custody.

40 Section 477 has been framed so as to allow a Court of Session to charge a person for giving false evidence before itself—a power of which such Courts were unintentionally deprived by section 472 of the present Code.

41 Section 487 has been redrawn so as to avoid the difficulty which is felt in determining the meaning of the words "offence committed in contempt of its own authority," which occur in the corresponding section (473) of Act X of 1872.

Supplementary Provisions.

42 Part IX contains certain provisions supplementary to the general rules of procedure contained in the Code. It deals, first, with the public prosecutor, bail, commissions for the examination of witnesses and special rules of evidence. It then contains certain provisions relating to bonds to keep the peace, for good behaviour, for appearance, &c., the disposal of property regarding which an offence has been committed, the transfer of criminal cases, irregular proceedings, and, lastly, certain miscellaneous matters.

43 Words have been introduced into the section (502) providing for the appointment of a public prosecutor which will have the effect of putting a stop to the practice of appointing a police officer.

44 Section 505 exempts the Advocate General, Standing Counsel, Government Solicitor or other officer empowered by the Local Government from the necessity of obtaining permission to conduct prosecutions.

45 The provisions of the present law as to commissions for the examination of witnesses have been amended in two respects. The Bill (section 515) requires that the interrogatories shall be thought relevant by the Magistrate or Court directing the commission, and power is expressly given (section 518) to stay the inquiry or trial for a specified time reasonably sufficient for the execution and return of the commission.

46 In proving the existence of circumstances as a defence under the 2nd, 3rd, 5th, 6th, 7th, 8th, 9th or 10th Exception to section 499 of the Penal Code, section 521 of the Bill provides that good faith shall be presumed until the contrary appears. This is now the law in the Presidency-towns (Act XVIII of 1862, section 27) and may usefully be extended to the Mufassal.

47 In accordance with a recent rule of the High Court at Bombay, section 528 declares that, when a High Court or Court of Session makes an order for the disposal of property, and cannot through its own officers conveniently deliver the property to the person entitled thereto, the Court may direct its order to be carried into effect by the committing Magistrate.

48 Section 531 provides, in case of a conviction under the Penal Code, sections 292, 294, 501 or 502, for the destruction of the obscene books and defamatory matter in respect of which the conviction was had. It also provides for the destruction of adulterated or noxious food, drink or drugs in respect of which a conviction was had under sections 272—275 of the same Code.

49 Section 536 provides, in accordance with a Minute of Sir B Peacock, cited I. L. R 1 Calc 223, that applications to the High Court for the transfer of cases shall be made by motion supported by affidavit or affirmation

Schedules

50 Schedules II and V, which correspond respectively with schedules IV and II of Act X of 1872, have been altered so as to adapt them, not only to the Mufassal Courts, but to those of the Presidency Magistrates

The lists of powers contained in section 21 *et seq* of Act X of 1872 have been thrown into Schedules III and IV of the Bill

51 Excluding the special provisions of the Acts relating respectively to Coroners in the Presidency-towns, extradition, Europeans in British vagrants, and criminal tribes, the Bill is now, so far as Mr Cockerell, Mr Fitzpatrick and myself have been able to make it, a complete body of criminal procedure No pains have been spared to render its provisions plain and practical, and in return all competent persons are earnestly asked to point out the mistakes and omissions which they will doubtless discover in so large and complicated a work

DRAINAGE AND IMPROVEMENT OF LANDS

THE HON'BLE MR DAMPIER moved that the Bill to provide for the drainage and improvement of lands which had been for some time in the hands of hon'ble members be read in Council As he had said, in asking leave to introduce

this Bill, it was the result of experience. There was a local Act (V of 1871) for carrying out a certain scheme for the drainage and improvement of some lands in the Hughli and Burdwan districts, and certain amendments had been engrafted upon that enactment, which experience had shown to be necessary. The outlines of the Bill were that, whenever it appeared expedient to the Lieutenant-Governor to carry out any such scheme of drainage and improvement, he might have a scheme submitted and plans drawn up by Government officers, and appoint a certain number of Commissioners, the majority of whom should be persons interested in the lands affected, and lay the scheme before them. When they had considered it, and had made modifications in it with the approval of the Lieutenant Governor, they should publish the scheme, and call upon the persons whose lands were affected by it either to express their consent to the scheme, or to bring forward any objections they might have to it. It was further provided that, as the scheme was to be carried out eventually at the expense of the proprietors of the lands, the consent of not less than one-half of the persons concerned should be necessary to the execution of the work. Act V of 1871, it seemed to Mr. DAMPIER, was rather roughly drafted, and considerable improvements would have to be made in the Bill by the Select Committee. For instance, the expression "the proprietors of one-half the lands to be benefited" might be read in different ways, and the expression ought to be more correctly defined. Then, the proprietors having agreed to the scheme, and the Commissioners and the Lieutenant-Governor having approved of it, the Lieutenant Governor might sanction the scheme and the estimates, and order them to be carried out. Provision was also made for any alterations or modifications of the scheme while it was being carried out, or for the carrying out of only a part of the scheme, and so on. And the scheme was to be carried out by means of advances made by the Government, which were to be eventually recovered from the proprietors of the land which would be benefited by the works. Under Act V of 1871 a proprietor was defined to be a person having a permanent interest in the land at a fixed rate of rent. In this respect there was a very material alteration made in the Bill. Great difficulty was experienced in apportioning the cost amongst the proprietors, for every small mokurrareé ryot and petty lakhiraj*dar* was a proprietor, and so he would also be under this new Bill, and therefore in framing this Bill recourse was had to the principle of the Road Cess Act. It was provided that of several proprietors it should rest with the Commissioners to say which one of them should be the victim from whom they would recover the money in the first instance, leaving him to recover the proportionate amounts from the subordinate tenure holders in the ordinary manner.

When the completion of the work was certified, *i.e.* not till the proprietors began to reap the benefits of the scheme, would the Commissioners proceed to apportion the amount payable by the proprietors to the Government and issue a report.

There was another change made in the Bill regarding the procedure to be followed. Under the Act of 1871 the sum expended in carrying out the scheme was recoverable rateably according to the area of the land held. Under this Bill a system of classification of lands was to be introduced, the Commissioners were to classify the lands of each village according to the extent of the improvement effected by the drainage works and the benefit to be derived by the proprietor—whether 50 per cent., 20 per cent., or 10 per cent., and so on, and the sums recoverable were to be in proportion to the benefit which the land had derived from the improvement according to the classification of the Commissioners themselves. There were provisions for appeals against the orders of the Commissioners apportioning the cost, and eventually the collection of the money was left in the hands of the Collector, as well as the looking after the maintenance of the works.

From the moment that the works were executed they were to fall under the general rules for keeping up public embankments, and the Collector was to do that through the agency of the Government Engineer. But to assist the Collector in looking after the maintenance and in the administration of the property a Committee of working proprietors was to be appointed.

Mr. DAMPIER had omitted to mention that, though every proprietor would have to pay the amount upon which he was assessed, he need not pay

it at once, but would have the option of executing an agreement with the Collector to pay it in ten annual instalments, with interest at the rate of 5 per cent per annum

Precisely the same powers were given to proprietors to recover from each of the subordinate tenure-holders, and it was also provided that they should not recover in one year more than one-tenth of the sum due, and these subordinate proprietors, down to the lowest mokurrareedar, were protected from enhancement of rent in consequence of the improvements There would remain those who were not proprietors, *i e* the occupants of the land, who would bear no share of the expense and would therefore be liable to enhancement

In section 45 the old difficulty arose, *viz* who was to collect from the holders of lands held free from the payment of rent or revenue? It was extremely difficult for the zemindar or proprietor to get hold of these petty lakhurajdars and recover the due proportion of cost from them But there was no remedy at present The Board of Revenue had recently submitted some proposals to Government which had been received with favour, and the object of which was to get some sort of registration of these petty lakhurajdars for all purposes If that proposal was brought into force, it would apply to this and other Acts, in accordance with which taxation might be levied from these lakhurajdars direct

In the last section of the Bill, it was provided that the proceedings of the Commissioners and of the Collector should be subject to the general control of the Commissioner of the Division and of the Board of Revenue

The motion was agreed to, and the Bill referred to a Select Committee, consisting of the Hon'ble Mr Buckland, the Hon'ble Mr O'Kinealy, the Hon'ble Syed Ameer Hossein, the Hon'ble Baboo Mohini Mohun Roy, the Hon'ble Baboo Kristodas Pal, and the mover, with instructions to report in six months

INLAND STEAM VESSELS

The Hon'ble Mr Inglis moved that the Bill to provide for the proper management of certain inland steam vessels be read in Council At the last meeting he had explained the objects of this Bill and he did not think that at this stage it was necessary for him to add anything to that statement

The motion was agreed to, and the Bill referred to a Select Committee consisting of the Hon'ble the Acting Advocate General, the Hon'ble Mr Buckland, the Hon'ble Mr Mackenzie, and the mover, with instructions to report in a fortnight

POWERS OF SETTLEMENT OFFICERS

The Hon'ble Mr Dampier moved that the report of the Select Committee on the Bill to define and limit the powers of Settlement Officers be taken into consideration in order to the settlement of the clauses of the Bill, and that the clauses of the Bill be considered for settlement in the form recommended by the Select Committee The Committee, he said, had followed up the hints given at the last stage of the Bill and had gone direct to their object there could be no accusation now of things being done by a side wind They had begun by saying that nothing in Act X of 1859, or Bengal Act VIII of 1869 (the Rent Laws) should apply to settlement proceedings, except as provided in the Bill, and he ventured to say that, in so doing, they had reproduced the real intention (or what would have been the real intention if the thing had been considered) of the framers of those two Rent Laws They had reverted to a certain extent to the agency which had been used for determining rents at settlements, from the time of Todar Mull to that of Edward Currie

But the Legislature had now become more precise and was not willing to leave everything to the discretion of the Settlement Officer, and therefore the Bill provided that the discretion of the Settlement Officer should be guided in the first place by that of the superior Revenue authorities, and next in cases of enhancement of rents, that he should keep within certain specified conditions It would be seen from section 5 that the rents, before they were recorded as demandable and became binding, were to be sanctioned by such authority as the Lieutenant-Governor might appoint In any estate of importance the Settlement Officer would have to satisfy the Collector and the Commissioner, and in more important settlements the Board of Revenue, that the rates he proposed to adopt were proper

Section 6 was an important section It laid down the grounds upon which enhancement of rent might be made, and it could only be made on one or other of those grounds and not otherwise The first of those grounds was "that the higher rent so recorded is calculated on rates which are not above the prevailing rates payable by the same class of ryots for land of a similar description and with similar advantages in the surrounding neighbourhood" That was absolutely the wording of the Rent Law, with the exception of the word "surrounding," which was substituted for "adjacent," because the Select Committee considered it to be more precise The second ground of enhancement was the same as the Rent Law—"that the enhancement is not greater than is justified by the increase which has taken place in the productive powers of the land, otherwise than by the agency or at the expense of the ryot, since the rent of the ryot was last fixed" The fourth ground was also substantially the same as one of those in the existing Rent Law Thus three out of the four grounds of enhancement were almost identical with the Rent Law

The ground of enhancement, printed as clause 3 of section 6, embodied the origin of this Bill, it was this clause which would meet the difficulty which led to the Bill being introduced The difficulty was this that it was impossible to apply the ground of enhancement relating to increase of the value of produce, because the courts had put such a construction on that ground of enhancement as made it necessary (in order to enforce the enhancement which was equitably due with reference to the rise in the value of produce) to show when the tenure was created, and what was then the proportion between the value of produce and the rent fixed Tenures changed, so that it was found impossible to identify a tenure existing now with a tenure which existed years ago, and it was impossible to say when a particular ryot's tenure originated, so as to compare the rent of that year with the value of produce which then existed But it was represented that forty years ago, in many settlements, a laborious enquiry had been made into the prices which then prevailed for the purpose of fixing the rents And the principle which had been adopted in this Bill, where a previous settlement of that sort had been carried out, was to assume that the proportion between the rates then fixed as payable by occupancy ryots, and the prices of produce which then prevailed, was a fair and equitable proportion, and that the rents at this settlement might be increased in proportion to the rise in the value of produce, but no more This principle was explained to the Council when the Bill was read, and the Select Committee threw it into the shape of clause 3 as it now stood

It would be convenient here to speak of the amendment Mr Dampier proposed to move to-day, dividing this clause 3 into two parts On looking carefully into the clause which had been drafted by the Select Committee, he found that, though the power of enhancing in proportion to the rise of produce since the last settlement had been given in those cases in which a previous settlement of the estate had been made, the section contained no provision whatever for enhancing the rates of rent on the ground of a rise in the value of the produce in estates which had not been the subject of previous settlement

He proposed therefore to divide the Select Committee's clause 3 into two clauses The first, which stood printed in his amendment paper as clause 3, was a reproduction of the ground of enhancement in the Rent Law authorizing the enhancement of rent on a comparison of the present rates of rent and value of produce with the rates of rent and the value of produce existing at the time of the creation of the tenure That would to some extent meet the case of lands which had not come under settlement before, such, for instance, as alluvial lands which had been forming for some time If any ryot on such lands had established a right of occupancy, all these clauses would be binding in his favour and as no settlement had taken place before, the last settlement could not be taken as the basis of any enhancement In such cases the Settlement Officer would have no other alternative than to take the state of things which existed when the ryot's tenure was created for comparison if he could discover it That was nothing more than what was contained in the present law

There was another very large class of cases which would have slipped through clause 3 as adopted by the Select Committee—those cases in which a settlement had been made, but no record kept of the prices which prevailed at

the time and in which such prices could not now be ascertained. In such cases, also, the Settlement Officer, if he thought the rent liable to enhancement, must necessarily trust to being able to find out in what year the tenure was created, and how prices then stood.

Clause 4 of MR. DAMPIER'S amendment re-produced what was clause 3 of the Select Committee's Bill.

Section 7 of the Bill made it legal to give effect to any enhancement by progressive increments It was all very well to ask why, if the value of his land had increased tenfold, the tenant should not be required to pay ten times as much rent, but, as a fact, such a sudden increase in the demand for rent must be felt as a great hardship. The tenant's profits had gradually increased since the last settlement, and with them his wants, and his status had gradually improved, so that. where a very considerable increase of rent was justifiable, it would be felt as less of a hardship if the full amount were gradually obtained by means of progressive increments

Section 8, as framed by the Select Committee, provided that the rent recorded as demandable from an under-tenant should in no case be higher than an amount which was ten per cent below the aggregate of the rents recorded as demandable in any year from the subordinate under-tenants and ryots whose holdings fell within his under-tenure. On looking carefully into the section, MR. DAMPIER found that, if a zemindar created an under-tenure, the assets of which—*i e*, the sum payable by the cultivating ryots—were Rs 100, the zemindar would, under the operation of this rule, be restricted to Rs 90 only But if, there being nothing expressly stated in the contract between him and the under-tenant barring the creation of under tenures, the under-tenant of the first degree created an under-tenure of the second degree, the latter would collect Rs 100 from the ryots, he could only, under the limitation of this rule, be made to pay Rs 90 to the tenure-holder of the first degree, and the tenure-holder of the first degree could only be required to pay Rs 81 to the zemindar, deducting 10 per cent. for himself. Thus the effect would be that, because the under-tenant chose to sub-infeudate, the zemindar's profits would be reduced, and the Government revenue would suffer, for the revenue must of course be fixed with reference to what the zemindar would receive It was to prevent such losses that MR. DAMPIER had prepared his amendment to section 8, viz. that—

"The rent payable by an under-tenant shall be recorded as demandable at such rate as to the Settlement Officer may seem fair and equitable, and shall be determined with reference to the character of the tenure and to the aggregate of the rents which may have been recorded as payable to the under-tenant by all the under-tenants and ryots included in his tenure"

The amendment did not say that the allowance left must be 10 per cent. to each of a series of under-tenants, but that a rent must be fixed which should be fair and equitable under the circumstances of *each* case

Section 10 provided that every under tenant and ryot should be liable to pay the rent recorded as demandable from him under this Act, unless it should be proved, in any suit instituted by such under-tenant or ryot to contest his liability to pay the same, that such rent had not been assessed *in accordance* with the provisions of this Act

Under Act III of 1878 three months were allowed to a ryot to bring his suit, but under section 424 of the Code of Civil Procedure the suit would be against a public officer, and notice of two months was required before institution of such suits If only three months were allowed to the ryot within which to bring a suit, it would practially cut his time down to one month for deciding whether he would contest or not The section, as now framed, allowed two months for the notice, and two months thereafter for the institution of the suit. The time was thus extended by one month

The amendment, which was marked "section 10A," was suggested to MR DAMPIER by his hon'ble friend to his right (Mr O'Kinealy) It provided that, if the Civil Court interfered with the rent recorded by the Settlement Officer, the court must in its decree indicate what would be a fair rent to be paid under the principles of this Act Section 11, as to the time when enhancement of rent should take place, was new The custom of the country was very well known Hitherto, if a settlement had not been concluded till a few months after the close of the year with which the previous settlement expired, the ryots, as a

general rule, did not question their liability to pay rents under the new settlement from the beginning of the year. Section 11 legalized this practice, if the enhancement notices could not be served before the end of the year, but were served within the first six months of the next year, the settlement would take effect from the beginning of that year

Section 12 was also one which Mr Dampier thought fair in every way When once the rent had been recorded and settled under these proceedings, there would be no more measurements and harassment for the next ten years at least, or for any shorter period to which the proceedings might extend

The motion was agreed to

The Hon'ble Mr Dampier moved that at the end of clause 2 of the preamble the words "except the scheduled districts as defined in the Scheduled Districts Act, 1874" be omitted This amendment was the result of some considerable study of a very difficult subject—the Scheduled Districts Act It was now considered that the Bill should extend to the scheduled districts as well as the rest of Bengal, otherwise the rent law would continue to apply to settlements in any of the scheduled districts in which that law happened to be in force before the passing of this Bill

The motion was agreed to

The Hon'ble Mr Dampier moved that in the definition of "Settlement Officer" in section 3 the words "of the" after the word "Collector" in line 3 be omitted, and the words "or any officer in charge of the revenue jurisdiction of a" be substituted for them The definition would then embrace a Deputy Commissioner of a non-regulation district

The motion was agreed to, and, on the motion of the Hon'ble Ameer Ali, similar words were inserted after "Collector" in line 8

The Hon'ble Mr Dampier moved that the words "in section 51 of Regulation VIII of 1793 or" in lines 1 and 2 of section 4 be omitted Section 51 of Regulation VIII of 1793 provided under what conditions only the rents of intermediate talookdars as mentioned therein could be enhanced The section had been referred to in connection with talooks in temporarily-settled estates by the Board of Revenue, he was sorry to say, and, he believed, even higher authority, but on looking into the Regulation it appeared as clear as possible that section 51 of Regulation VIII of 1793 only applied to estates which were then brought under the decennial settlement, and which subsequently became permanent In a preceding section of the regulation talooks were defined, there were several kinds of talooks, and they were not such as might afterwards be created, or might afterwards fulfil the specified conditions, but most distinctly such as had acquired a certain status at the time of that settlement

The settlement of estates which were not settled permanently was conducted under Regulation VII of 1822, and not under Regulation VIII of 1793 In extending the provisions of Regulation VII of 1822, Regulation IX of 1825 (section 2) expressly drew the distinction by extending it then to all lands "not included within the limits of estates for which a permanent settlement has been concluded in the manner prescribed by Regulation VIII of 1793" In Mr Dampier's judgment it came to this, that any talook in any estate, which was not the subject of settlement at the decennial settlement, could claim no protection under section 51 of Regulation VIII of 1793, and as the Council were now dealing with the bulk of estates which had never been permanently settled, there was no use in saying that nothing contained in that provision should apply to them He therefore proposed to strike out the reference to that regulation

The Hon'ble Mr Mackenzie said he did not think that practically it would affect the question one way or the other whether the words in the section were retained or omitted

The Hon'ble Mr Dampier remarked that he believed the opinion of the same authority could be produced on the other side He need scarcely say that he was not alluding to any deliberate decisions of the High Court on the point, but merely to decisions from which inferences might be drawn one way or the other, he was not aware that the point had ever been expressly considered and decided by the Court

The Hon'ble Baboo Mohini Mohun Roy observed that there could be no doubt that section 51 of Regulation VIII of 1793 applied only to talooks

existing at the time of the permanent settlement: that has been held by the Privy Council But it was not necessary that the estate in which the talook should be situated should be made the subject of permanent settlement. All that was necessary was that the particular talook should be existing at the time of the permanent settlement Many estates which had been permanently settled had, by the process of sale for arrears of revenue, come into the hands of the Government, and might be the subject of settlement under Regulation VII of 1822. The omission of the reference to section 51 of Regulation VIII of 1793 would debar the holders of talooks in those estates to appeal to the protection given to them by that enactment

The Hon'ble Mr Dampier said that he had not before been aware that the Privy Council had ruled that if a talook had existed at the time of the permanent settlement, even although the estate in which it was situated was not permanently settled, the talook was entitled to the protection of section 51 of Regulation VIII of 1793 But he accepted that decision If in an estate which was under resettlement now either because it had never been permanently settled, or because, having once been permanently settled, it had fallen into arrears and been purchased by the Government,—if in such an estate a talook were found which had existed from the time of the permanent settlement, it was not desired to deprive it of the benefit of section 51 of Regulation VIII of 1793 That provision laid down certain conditions under which the rents of those talooks might be enhanced, and it was not desired to go beyond those conditions, therefore there was no reason or necessity for retaining in this Bill the reference which declared the section to be inapplicable to estates under settlement whatever it covered the Government was quite willing to accept and recognize

The motion was then carried

The Hon'ble Mr Dampier moved the introduction of the following clause after clause 2 of section 6 —

"(m) That the value of the produce of the land has been increased otherwise than by the agency, or at the expense, of the ryot since the rent of the ryot was last fixed, and that such higher rent does not bear a higher proportion to the rent of such ryot as last fixed than the prevailing price of produce bears to the price of similar produce which prevailed about the time when such rent was last fixed"

The Hon'ble Ameer Ali said in line 6 the words used were—"than the prevailing price of produce bears to the price of similar produce which prevailed about the time when such rent was last fixed" He submitted that the words "prevailing price" were very vague, and would give rise to a great deal of controversy and contention He need not mention that the prevailing price at a particular date might be an abnormal price, whether it was high or low, owing to various accidental circumstances He would therefore suggest by way of amendment that the following words be substituted instead— "than the normal price of produce at the time of the present settlement bears to the normal price of similar produce which prevailed at or about the time when such rent was last fixed" The object of his amendment was to exclude from consideration exceptional prices

The Hon'ble Mr Dampier observed that this point had been very much discussed in Select Committee The proposed alteration of wording appeared to him to convey the same meaning, but if the hon'ble member meant to tie up the Settlement Officer so as to make it impossible for him to do anything unreasonable, the amendment would not succeed in doing that No form of words could be devised which would altogether preclude the exercise of discretion unreasonably For instance, even with the form of words proposed by the hon'ble member, one Settlement Officer might take as the normal price that which prevailed in the particular month in which he conducted the settlement (widely different in January and July), while another more reasonably would take an average of the prices prevailing throughout the year

His Honor the President thought the amendment a sound one, and that it met the object the hon'ble member had in view It left it open to be shown before the Settlement Officer that the price was abnormal, and if that could be shown, then, if the proposed words were inserted, he was bound to take that circumstance into consideration and fix the rent accordingly

The proposed clause 2, with the HON'BLE AMEER ALI's amendment, was then agreed to

On the motion of the HON'BLE MR DAMPIER the following clause was substituted for clause 3 of section 6 —

"(iv) That the value of the produce of the land has been increased otherwise than by the agency, or at the expense, of the ryot since the last previous settlement of the lands was made, and that such higher rent does not bear a higher proportion to that which would have been the rent of lands of a similar description and the same area according to the rates of such previous settlement, than the prevailing price of produce bears to the price of similar produce which prevailed about the time of such previous settlement, as recorded in the papers of such settlement, or as otherwise ascertained and certified by the Settlement Officer"

The HON'BLE MR DAMPIER moved that the following section be substituted for section 8 —

"The rent payable by an under-tenant shall be recorded as demandable at such rate as to the Settlement Officer may seem fair and equitable, and shall be determined with reference to the character of the tenure and to the aggregate of the rents which may have been recorded as payable to the under-tenant by all the under-tenants and ryots included in his tenure"

The HON'BLE AMEER ALI said he objected to this amendment on principle It was not put before the Select Committee which had the consideration of the Bill It was a new provision, and he thought he was entitled to object to it on principle He was of opinion that the provision would work enormous mischief by allowing unlimited power to the Settlement Officer to impose any charge he liked on the under-tenants He did not think it advisable that under-tenants should be left to the unlimited sense of equity of the Settlement Officer a limit should certainly be imposed to the exercise of that discretion If the sense of the Council was in favor of the section proposed in substitution of section 8 of the Bill, he submitted that a proviso should be added embodying the principle which was contained in the section which the Select Committee settled, viz that in no case should such rent be higher than an amount which was ten per cent below the aggregate of the rents which was recorded as demandable in any year from the subordinate under-tenants The hon'ble member appeared to have had in view the protection of the interests of the zemindar, as the zemindar might have created an under-tenure without providing against sub-infeudation But if such a contingency arose, MR AMEER ALI submitted it was the fault of the zemindar in not taking care to protect himself from sub-infeudation without his knowledge and consent He thought the enhancing power of the Settlement Officer with reference to under-tenants should not be placed on a different footing from that which prevailed with reference to occupancy ryots, under-tenants should have the same privileges and rights as occupancy ryots But even if it was not intended to proceed in regard to under-tenures on the same basis as in the case of the enhancement of rents of occupancy ryots, it seemed to him that a limit should be imposed as laid down in the section, which was considered and settled by the Select Committee and incorporated in section 8 of the Bill

The HON'BLE MR DAMPIER observed that the hon'ble member was perhaps not aware that he was springing a mine against the public revenue He was putting in the hands of the zemindar and men of straw under the name of under-tenants the means of bringing to a minimum the amount which the Government could demand as revenue The hon'ble member said that MR DAMPIER was speaking on behalf of zemindars But he had in fact guarded himself by saying that the Bill was in the interests of the Government and the public, and not of any classes or persons. If the clause stood as it had been settled by the Select Committee, not only the zemindar might be defrauded, but the public revenue might suffer very seriously. He would cite the instance of the Sunderbuns. According to the system of settlement which had been allowed to prevail there, four or five grades of intermediate tenure-holders were often found on the estates, and the system was to allow each grade to retain about two annas out of every rupee which he received from the under-tenant below him. If the cultivator paid a rupee a beegha, the under-tenant of the lowest grade paid fourteen annas, the one above him only twelve annas, and so on The following result had ensued. As soon as A and B

had taken a settlement from the Government they proceeded to create a talook in the name of A (one of the settlement-holders) and Z (a man of straw whose name was joined with A's to save appearances) Then the talookdars A and Z created an ousut talook in the name of B (the other proprietor) and X, another man of straw, and so on through several more degrees of sub-infeudation, so that by the time the revenue of the estate reached the Government, the rupee which the cultivating ryot had paid had dwindled to four annas or so

The Hon'ble Baboo Mohini Mohun Roy said he was against the amendment before the Council He found that "under tenant" in the Bill meant any holder of a heritable and transferable intermediate tenure between the Government and the ryot other than a zemindar, or, in other words, a middleman, and the practice had always been in the civil courts in all cases to give middlemen a certain percentage for collection charges and profits—from 20 to 25 per cent—from the gross rental payable by the cultivating ryots It it was found that a person claiming to hold as a middleman had no right, his claim should be thrown out, but if his right was established, there appeared to be no reason why he should not have an allowance for collection charges and something for his profit Section 8 of the Bill provided that the rent demandable from an under tenant should in no case be higher than an amount which was ten per cent below the aggregate of the rents recorded as demandable from the subordinate under-tenants and ryots, this gives little enough, whereas, according to the practice of the civil courts, from 20 to 25 per cent is allowed On these grounds Baboo Mohini Mohun Roy would support the section as it stood, or if the amendment of the hon'ble member in charge of the Bill was preferred, then he would vote for the addition proposed by the hon'ble member on his right (Mr Ameer Ali)

Mr Mackenzie said it appeared to him that they had been unexpectedly launched into the middle of a very difficult subject,—a subject which he thought it would not be at all easy to settle in connection with this Bill Section 8 was based upon a section of an old Regulation which had been repealed, and which provided that, where there was only one middleman, he should receive an allowance of ten per cent upon the ryots' rents But, as the hon'ble member in charge of the Bill had pointed out, it was impossible to make that principle applicable to a descending scale of talookdars At the same time, there was a great deal to be said against leaving the Settlement Officer too wide a discretion in settling talookdars' rents The simplest way out of the difficulty for the present would perhaps be to strike out section 8 from the Bill, leaving things exactly as they were now, until the whole question of middlemen's rents could be taken up in connection with a revised rent law In settling rents the Settlement Officer only looked to the assets of the estate which were the rents paid by the ryots, he then allowed 30 per cent for malikana and collection charges, and the question of how this allowance was to be distributed between the zemindar and the under-tenants was practically a matter for settlement between the zemindar and his under-tenants, it did not affect the demand of the Government jumma It might be necessary, where under-tenants were created, that the settlement officer should recognise such under-tenants and put them upon a proper footing, and that was a matter to which the Board of Revenue had given much consideration and in practice a fair and equitable settlement was usually arrived at But to fix the mode of enhancing the rents of talookdars was a distinct and important question connected with the rent law. Mr Mackenzie would therefore move that section 8 be omitted from the Bill

The Hon'ble Mr Dampier quite agreed with his hon'ble friend that section 8 of the Bill was an attempt to deal in some sort of way with a very difficult question He did not think that the Council would be justified, in the course of the present Bill, to impose restrictions in favor of under-tenants which might limit the demand of Government revenue in a way in which it was not limited by the existing law

The Hon'ble Baboo Mohini Mohun Roy observed that although that provision was not a part of the statute law, it had been recognised by the Privy Council If the Council omitted the 8th section of the Bill, they would leave the under-tenant without any allowance for collection charges or for profits, he would have to pay the expenses of collection out of his own pocket, and make over the entire collections to the Government officer Baboo Mohini Mohun

Roy thought it neither just nor necessary to leave under-tenants in that position to treat a person as an under-tenant, and to deny him the rights of an under-tenant, was not consistent. If he failed in establishing the fact that he was really the holder of a heritable and transferable tenure, he might be turned out, but if he established his claim, he was entitled to all the rights attaching to his position Baboo Mohini Mohun Roy approved of section 8 as it stood in the Bill

The Hon'ble Ameer Ali remarked that, if section 8 was struck out of the Bill, the Bill would have to be re-cast altogether

The Hon'ble Mr Mackenzie observed that by striking out section 8 things would be left exactly as they now were It had nowhere been settled, either by Council made or Judge made law, that an under-tenant should get an allowance of ten per cent, he would have to go to the courts to assert his fair share of the profits

The motion to omit section 8 from the Bill being put, the Council divided —

So the motion was carried

The Hon'ble Mr Dampier moved the introduction of the following section after section 10 If the Civil Court set aside the rent recorded by the settlement officer, it should be bound to specify what rent the under-tenant was to pay, and the amount so specified should be recorded as the rent demandable from such under-tenant —

"10A If the rent of any under-tenant or ryot recorded as demandable under this Act is set aside or modified in any suit instituted under the provisions of section 10, the Court passing the order by which such rent is so set aside or modified shall distinctly specify the rent to be payable for the tenure or land in respect of which the rent is so set aside or modified, whether at the rates at which rent was paid before the settlement proceedings, or at such revised rates as the Court may determine with reference to the provisions of section 5, section 6, section 7, and section 8 of this Act, and the Court shall fix the date from which any such revised rent shall take effect, and the rent specified by the Court shall be deemed to be the rent recorded as demandable by the Settlement Officer under the provisions of this Act"

The Hon'ble Mr Mackenzie thought that the only change that would be necessary would be the omission of the definition of under-tenant It would perhaps be sufficient to adjourn the debate

After some conversation the further consideration of the Bill was adjourned

COURT OF WARDS

The Hon'ble Mr Buckland moved that the further report of the Select Committee on the Bill to amend the law relating to the Court of Wards be taken into consideration in order to the settlement of the clauses of the Bill, and that the clauses of the Bill be considered for settlement in the form recommended by the Select Committee In doing so he begged to say a few words on what might be called the historical position of the present Bill and of the law regarding the Court of Wards

The present Bill might be roughly described as a revised edition of the Bill which was passed in this Council in 1877, and was subsequently vetoed by the Governor-General in Council on almost technical grounds, but chiefly because on some minor points it was held to be in conflict with the Code of Civil Procedure

In the session of 1878 the Hon'ble Mr. Reynolds introduced an amended Bill to the Council in which he omitted those provisions to which the Government of India had taken exception, and some further amendments, many of them only verbal, were proposed in conformity with some suggestions made by

Mr Phillips, the Secretary to the Government of India in the Legislative Department, in the letter which conveyed the orders regarding the veto of the Bill.

The Bill was in this position when it was placed in Mr Buckland's charge. It was then published and circulated, in order to invite the criticism of the public at large and of the Government officers concerned in its administration. In the course of the year a large number of important remarks and suggestions were received from different quarters, and they had been communicated in due course to the Council

Whilst the Bill was in this position it occurred to him to compare it with the law in force in the North-Western Provinces

Our Bill contained above 100 sections. The law of the North-Western Provinces was contained almost entirely in one chapter of the Land Revenue Law, Act XIX of 1873, and is expressed in 14 brief and terse sections With the permission of the Lieutenant-Governor of Bengal an attempt was made to bring the dimensions of our Bill within a moderate compass, and our able Secretary, Mr Clarke, succeeded in reducing the length of our Bill from above 100 sections to about 60 sections In Select Committee both Bills were carefully considered First the Committee considered Mr Reynolds' Bill, amended to some extent according to the intelligent criticisms which had been received regarding it, but finding this Bill very unmanageable, the Committee next considered the abbreviated draft prepared, as had been stated, by Mr Clarke, and the Bill as now presented to the Council was the outcome of the labour of the Select Committee after many long and deep discussions on this more manageable draft

The main principle which had been followed in this attempt to shorten the law had been to confine the work of legislation to that which must be expressed as law, and to leave as much as possible all that was merely directory and connected with the subordinate administration of the law to be provided for by rules He would mention only one point in illustration of the application of this principle The old law contained several sections on the subject of accounts, and the audit of these accounts It would be easily understood that this was hardly a matter for detailed legislation It might be desirable to state in the law that accounts were to be kept, but it was absurd to try and prescribe what accounts were to be kept The accounts suitable to a large estate were not needed for a small estate And, as a matter of fact, the accounts under the old law had not always been kept very consistently or audited systematically It would doubtless be found much more convenient and efficient to leave to the Court of Wards, which was now to be the Board of Revenue, the power to make rules on the subject of accounts, as was done, he had reason to believe, with considerable success in the North-Western Provinces

In the reports of the Select Committee there would be found a detailed explanation of the alterations and amendments which had been made in the Bill as now presented to the Council For many of the most important amendments, especially those contained in the second report, the Committee had to thank Mr. Dampier, whose practical experience in the Land Revenue Department of the Board in the administration of wards' estates had been of great value and importance They had also to thank another member of the Council, the Hon'ble Syud Ameer Hossein, who was not on the Select Committee, for a paper in which he contributed his suggestions on the Bill

MR BUCKLAND begged to observe that in the first report of the Select Committee there was a statement which was not strictly correct as to the period at which the Board of Revenue ceased to be the Court of Wards It was true that the letter of the law was not changed until the enactment of Act IV of 1870, but in practice the Commissioners of divisions were invested, by the orders of 10th August 1842, with the powers of the Board of Revenue for the administration of the Court of Wards

The motion was put and agreed to

On the motion of the HON'BLE MR BUCKLAND the following section was introduced at the end of Part I, and similar words in the 2nd clause of section 6 were omitted —

"Nothing contained in this Act shall affect any of the provisions of Act XXXIV of 1858, or the jurisdiction, as respects infants, of any High Court of Judicature"

On the motion of the HON'BLE MR. DAMPIER a verbal amendment was made in section 24

The Hon'ble Mr Dampier moved that the words "from the property which would be liable for the debts of the deceased proprietor" in section 29, clause 5, lines 6 and 7, be omitted, and the following substituted for them —

"and any person who is in possession of any property which would be liable for the debts of the deceased proprietor shall be deemed liable to pay such demand

"Provided that the proceedings for the recovery of such demand shall take effect against such property as aforesaid, and no other property,

"Provided also that no person shall be liable to pay any such demand exceeding the value of such property in his possession"

As the section stood it provided that the expenses incurred by a Collector in making enquiries when he thought it probable that the estate of a deceased proprietor was liable to be brought under the Court of Wards, should be recoverable as a demand under Bengal Act VII of 1868, from the property which would be liable for the debts of the deceased proprietor But a certificate under that Act was not issued against property but against a person, and it occurred to him that the Select Committee had overlooked the fact that they had not named the person who would be liable He had therefore drafted these clauses to supply the omission, providing at the same time that the liability should only extend to the extent of the property of the deceased

The Hon'ble Mr O'Kinealy observed that the amendment would not meet the case where such person had sold the property and obtained the proceeds He believed there were certain provisions in the old Civil Procedure Code regarding the following up of the property of a deceased proprietor, which had worked well, and which he thought would answer the purpose

The Hon'ble Mr Mackenzie remarked that the section seemed to him open to no objection as it stood It left the Collector at liberty to follow up any property of a deceased person which was legally liable for his debts, and the certificate would be filed against any person found to be legally liable in connection with such property The amendments suggested would not answer

The Hon'ble the Acting Advocate General said the property might be in the hands of a person who was not entitled to it, or there might be no legal representative of the deceased He preferred the section as it stood in the Bill, but he thought that the wording required more careful consideration

The Hon'ble Mohini Mohun Roy said one objection occurred to him Under Act VII of 1868 when a certificate was issued, it was made against a person, and all his property became liable for the amount, but the amendment now proposed would scarcely be consistent with the provisions of Act VII of 1868

The Hon'ble Mr Dampier observed that the Certificate Act provided that a certificate might issue for a demand against the person "who was liable to pay the same," and it bound all the property of such person If hon'ble members who were accustomed to deal with legal matters would assure Mr Dampier that under the wording of that law read with this section of the Bill (which named no one as liable to pay,) the Collector might issue a certificate against any particular individual, Mr Dampier would be content to let the section in the Bill stand as it was

After some conversation the further consideration of section 29 was postponed

On the motion of the Hon'ble Mr Dampier verbal amendments were made in sections 36 and 37

On the motion of the Hon'ble Mr Dampier the words "or from any officer or servant employed under the Court" were inserted after the word "manager" in line 4 of section 42, so as to make sums due from those officers as well as from a manager or guardian, or the sureties of a manager or guardian, recoverable as a demand under Bengal Act VII of 1868

On the motion of the Hon'ble Mr Buckland sections 47, 48, 49, and 50 were transposed so as to stand after section 41 The object of the transposition was to place those sections in better order Section 41 defined the special duties of a manager and sections 47—50 referred to the general duties of a guardian, and the specific duties of a guardian and other subjects connected with guardians If they were placed after section 41, sections 42—46, which applied to both managers and guardians, would stand in clearer order

On the motion of the Hon'ble Mr Dampier a verbal amendment was made in sections 51 and 52

The Hon'ble the Acting Advocate-General said, before they proceeded to consider the amendment in section 58, he would ask the Council to look at the whole of Part VIII of the Bill (sections 57—60), in order to see if it did not vest in the hands of the Collector of the district powers which it seemed to him ought not to be placed in the hands of an officer of that sort He was not aware that such great powers of fine and imprisonment were vested in any authority without going through the forms and procedure of a trial No doubt Courts of Record had the power of committing for contempt of court, but they could only do so after recording a formal proceeding A close examination of these sections of the Bill would show that very serious powers were conferred under them He would suggest the postponement of their consideration, so that hon'ble members might have an opportunity of judging of the importance of the subject He specially referred to the section (60) under which a person was liable to a fine of Rs 1,000 and imprisonment for six months Under the definition of 'Court' in section 3, it meant the Court of Wards, or, when the Court of Wards had delegated its powers, it meant a Commissioner or Collector, or any other person The whole of the provisions of this Part, he respectfully submitted, required very careful consideration, and possibly republication, before the Council could be brought to introduce them in the Bill

The Hon'ble Mr. Buckland said the particular clause which had been referred to existed in Act IV of 1870 Under section 13 of that Act a manager might be imprisoned by the Collector and under section 14 he might be fined The provisions in Part VIII of this Bill took their origin from the existing law

His Honor the President enquired whether there was any particular reason why the Court of Wards should not be the prosecutor in these cases and the offender be taken before a judicial officer for trial—the Magistrate of the district, who occupied a different position from the Collector as regard the trial of cases

The Hon'ble Mr Mackenzie pointed out that under Regulation law the higher revenue authorities often had power to punish disobedience of their lawful orders, and those powers were still given even in modern legislation Thus under the Partition Act a Collector or Deputy Collector was vested with the power of imposing a daily fine of Rs 50, and not exceeding Rs 500 in the aggregate, and the Commissioner and Board of Revenue had more extensive powers It had never been contended that for the imposition of such fines the Collector should go to a judicial officer The Collector and the Magistrate being the same person, it appeared more seemly that the power should be vested in him than that he should go before his own Deputy Magistrate as a prosecutor

The Hon'ble Ameer Ali perfectly agreed with the hon'ble and learned Acting Advocate General with regard to the enormous discretion vested by these sections in revenue officers without any judicial proceeding That certain officers had had these special powers did not affect the question, and therefore the objection which had been taken was he thought a valuable one, and deserving the serious consideration of the Council He certainly himself objected to the provisions as they were without some provision being made for the recording of a regular judicial proceeding [illegible] suggestion which had fallen from His Honor the President would [illegible] meet the requirements of the case, but if it was not adopted he would [illegible] all the words "in a judicial proceeding, etc." [illegible] officers

The Hon'ble Mr Dampier moved the [illegible] up to his amendment These sections were [illegible] before he joined the Council and they had [illegible] question from the Revenue Department He [illegible] there should be some summary power for enforcing orders, but he was free to admit that when he read section 60, and saw the tremendous power given to the Court of Wards acting as a judge in its own case, he was startled and remembering that the Court of Wards was empowered generally to delegate any of its powers to the subordinate revenue officers he thought it would not be proper to allow the delegation of the power of inflicting this punishment to any officer below a Commissioner, he had therefore prepared the amendments on the notice paper

His Honor the President observed that no doubt the Collector always had the power of imposing fines, and had it still, but notwithstanding that

fact, he thought the power conferred by section 60 went very much beyond any power vested in the revenue officers hitherto He saw no reason why the offence of removing a ward from his residence without the leave of the Court of Wards should not be declared to be an offence punishable like other offences before the criminal courts of the country. There seemed to His Honor to be nothing in the nature of the offence which should remove it from the jurisdiction of the ordinary tribunals, and require its summary punishment by the revenue officers

The Hon'ble the Advocate-General suggested the substitution in section 60 of the words "on conviction before a Magistrate" for "by order of the Court" He did not, however, think, on consideration, that he could object to sections 57 and 58

The Hon'ble Mr Buckland had no objection to the proposed amendment

The Hon'ble Ameer Ali suggested the addition of the words "in a judicial proceeding" in sections 57 and 58 If a contempt was committed before any Court, before inflicting any punishment on the offender the Court was required to hold a judicial proceeding But here no procedure seemed necessary, and therefore he most strongly submitted that the words "in a judicial proceeding" be inserted in both these sections

His Honor the President enquired whether there would be any objection, although orders under sections 57—59 were of an executive nature, to them being drawn up in writing, and the grounds upon which punishment was awarded given, so-that there might be an opportunity for appealing to the higher authorities He did not see anything connected with these particular proceedings which would make it impossible to frame a proceeding in such a manner as to provide an appeal to higher authority if anything went wrong

The Hon'ble Mr Buckland referred to section 67 of the Bill, by which orders passed under the Act were subject to the supervision and control of the Court

The Hon'ble Mr Mackenzie observed that when the proper time came he would move the introduction of a section after section 63, which he thought would meet the objections which had been raised by requiring a formal record to be made in the case of orders passed under section 57 or 58 with the reasons or grounds thereof

The Hon'ble Mr Dampier and the Hon'ble Ameer Ali then respectively withdrew their amendments

The Hon'ble Baboo Mohini Mohun Roy wished to observe, before the Council passed from section 60, that the mere removing of a ward from his residence should not be treated as so serious an offence as to involve a fine of Rs 1,000 and imprisonment, which might be rigorous, for six months He thought the intent with which the removal was effected should be defined

The Hon'ble Mr Mackenzie explained that the section originated from a proposal of the hon'ble member opposite (Rajah Pramatha Natha Roy), who wished to provide for the punishment of a guardian who removed a ward without the leave of the Court It then occurred to the Select Committee that if it was so serious an offence in the guardian of the ward, who might be assumed to have some authority over the ward, it should be considered a more serious offence in any other person

The Hon'ble Rajah Pramatha Natha Roy remarked that he had proposed the provision referred to under the belief that a guardian who removed a female ward could not be punished for abduction It was not his intention that the simple removal of a ward, it might be on a short visit to relatives, should be made criminally punishable

The Hon'ble Mr. Buckland moved that section 60 of the Bill should be omitted This motion was carried unanimously

Verbal and formal amendments were then, on the motion of the Hon'ble Mr Dampier, made in sections 61 and 62

On the motion of the Hon'ble Mr Mackenzie the following section was introduced after section 63 —

"63A When any penalty is imposed by any order under section 57 or 58, the Collector or Court passing such order shall make a formal record of the same, with the reasons or grounds thereof"

The further consideration of the Bill was postponed

The Council was adjourned to Saturday, the 5th April

The mean pressure, temperature, &c, are deduced from observations made at 6h, 10h, 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard Newman's No 86, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The direction and movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory) The barometer is about 3 feet higher at Alipore, and other things being equal, reads therefore 003 lower The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 1° or 1½° lower, and finally, the thermometer, which has furnished the record of temperature at the Surveyor-General's Office during the last 20 years and upwards, is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory

Calcutta, the 15th April 1879

RESOLUTION

READ—

Letter from the Accountant-General, No 712, dated 7th March 1879, proposing that the money which is now in certain cases deposited in district treasuries in sealed bags should in future be credited in personal ledger accounts

Letter from the Director of Public Instruction, dated 1st May 1878, submitting a report on the Educational Trust Funds in Bengal

Read again—

Resolution by this Government, dated 18th December 1878, proposing, for the approval of the Government of India, a scheme for the periodical audit and inspection of the accounts of Municipal and Local Funds

Resolution by this Government, dated 26th December 1878, directing that all Government securities held by public officers in Bengal in any official capacity, and not being mere security deposits, should be endorsed to the Accountant-General and the Financial Secretary to the Government of Bengal jointly, and placed in the custody of the Accountant-General

Resolution by this Government, dated 7th January 1879, laying down rules for securing a final settlement of all discrepancies in Municipal and Local Fund balances, and the regular and periodical verification of them in future

RESOLUTION —Before the introduction of the scheme of Provincial Services, attempts were made by the creation of local funds to give to Provincial Governments and local officers an interest in the development of certain sources of revenue of minor importance, but such attempts were necessarily of very limited scope The revenue credited to local funds was, as a rule, entirely at the disposal of the local Government, or of officers to whom the local Government delegated its authority, on the sole condition that it should be devoted to certain specified purposes, and expenditure of whatever nature from such funds was incurred under the orders of the local authorities and did not require the previous sanction of the Government of India

The existence, however, of a large number of separate funds was found in many instances to give rise to much inconvenience The receipts, expenditure and balances of these funds, as set forth by the officers administering them, seldom agreed with those shown in the Accountant-General's books, there was not unfrequently no proper audit of the expenditure, sources of income were overlooked, many of the petty funds did not appear in the Accountant General's books at all, and Government, and even the heads of the departments to which the funds appertained, were sometimes unaware of their existence

2 The introduction and subsequent extension of the scheme of Provincial Services did away with the necessity for the existence of many of these funds, and with the approval of the Government of India a large number have already been closed, their receipts and expenditure amalgamated with the provincial receipts and expenditure, and the balances of the funds credited to Provincial Revenues

Extensive reforms have also been introduced during the past year in the system of management of the funds which are still shown separately on the Accountant-General's books

In a Resolution dated 18th December 1878, a system of audit and inspection of the accounts of municipal and local funds was fully set forth and has been submitted for the approval of the Government of India

In a Resolution, dated 26th December, it was ordered that all Government securities held by public officers in Bengal, in any official capacity, and not being private property or deposits by way of security, should be endorsed to the Accountant-General and the Financial Secretary to this Government jointly, and placed in the custody of the Accountant-General

In a Resolution of 7th January 1879, rules were laid down for securing a final settlement of all discrepancies in municipal and local fund balances, and the regular and periodical verification of such balances in future.

3 To complete the series of reforms in connection with local funds, it only remains to take measures for ensuring that the receipts, expenditure and balance of every such fund shall appear in accounts of a public nature in such form as shall admit of the necessary control over them being exercised by Government, or by the head of the department to which they belong It might seem sufficient to order that a separate account shall be kept up in the Accountant General's books for each fund, but many of the funds which have hitherto not appeared in those books are of an extremely petty nature, and it is not expedient to complicate the public accounts of the province by requiring the Accountant-General to keep a distinct and separate account for each petty fund

In a Resolution by the Government of India in the Financial Department, No 1275, dated 19th June 1877, it was moreover ordered that in future no new fund should be constituted without the special permission of the Government of India, and it would clearly be useless, even if it were not highly inexpedient, to propose to bring on the Accountant-General's books at once the fifty-five petty funds whose existence has recently been reported by the Director of Public Instruction, and of which the receipts do not in some instances amount to Rs 20 per annum each

4 The confusion into which the management of these funds has fallen is clearly shown in the following extract from the letter of the Director of Public Instruction, dated 1st May 1878 —

"I have the honor to submit the report upon the administration of Educational Trust Funds in Bengal, which was called for in your No 1301, dated 4th May 1877

In so doing, it is incumbent on me to offer an explanation of the delay of one year that has intervened between the date of that letter and the submission of the report The investigation has in fact been a tedious and intricate one It was known to me that many other Trust Funds were in existence besides those detailed in your letter I therefore began by forwarding a copy of the Government letter to all District Committees, asking them to give a history of any Educational Trust Fund under their control, together with an account of its present position and application This enquiry was almost entirely barren of results District Committees, under whose direct management, to my own knowledge, Trust Funds had been placed, replied in many instances that they had no such funds under their control From one district, in which it was afterwards discovered that there were five Trust Funds, the answer came that the Committee were aware of none This result arose in some cases from a confusion as to the exact meaning of the term "Trust Fund," in others, from ignoring those funds which were administered by the Magistrate or other local body more or less closely connected with the District Committee, in others, again, from causes less intelligible It became necessary, therefore, after some months had been lost, to begin the enquiry afresh from the records of this office Unfortunately, it has not been the practice to keep a special record of all Trust Funds, and hence it has frequently happened that, after the original correspondence about a fund has been closed, and the management of the fund has passed away into the hands of some other body, its existence has been lost sight of When any fund was known or remembered to exist, as in the case of those named in your letter, it was a comparatively easy matter to trace the papers connected with it. Even in such cases it was not always free from uncertainty, and the correspondence with Government, which, as stated in the memorandum accompanying your letter, you have occasionally found yourself unable to trace, has often been equally difficult of detection in the records under my charge Especially obscure has the search been when the foundation of the trust dated from a time prior to the separate establishment of the Director's office But the chief difficulty and the longest labour resulted from the detailed examination of the office records in quest of funds whose existence was only brought to light by means of that examination. It will be seen that the history of some of the funds in the subjoined list involved the examination of papers of fifty years back The search was, as far as it could be made, exhaustive and complete, and it has been justified by the fact that traces of funds have been sometimes discovered in places which appeared least likely to reward such a search Almost at any time within the last four months has this letter been apparently ready for submission to Government, when the existence of a new fund would be discovered leading to further references and a fresh postponement"

5 The Lieutenant-Governor is of opinion that no further delay should be permitted in laying down a system for the guidance of all officers who have in their official capacity to deal with trust money appertaining to funds of a petty nature Every Local or Trust Fund, the operations of which extend over a series of years, and whose average receipts exceed Rs. 1,000 a year, must appear as a separate fund with a separate balance in the Accountant-General's books, and will be subject to the rules laid down in the Resolution of 7th January 1879, already quoted, for the settlement and verification of receipts,

expenditure and balances, under these orders the only funds for which separate accounts will not be kept by the Accountant-General will be Trust Funds whose annual receipts do not exceed Rs 1,000 each

For Trust Funds the average annual receipts of which do not exceed Rs 1,000, and for Trust Funds which are only created for a temporary purpose, such as funds created by public subscription for the relief of sufferers by a fire or inundation, it will not be necessary to keep separate accounts on the books of the Accountant-General

Every officer administering one or more of such funds will keep a book entitled "Account of trust moneys administered by the (official title of officer)" In this book will be entered a complete list of all Trust Funds of which the officer has charge, with a serial number attached to each A brief account of the nature of the fund will also be given, showing the probable annual income of the fund and the purposes to which it is to be devoted, and quoting the correspondence or documents which relate to the creation of the fund The page of the book will also be given in which the statement of the receipts and expenditure remitted to, or drawn from, the public treasury will be found Sufficient space must be left after the end of the list to admit of the necessary entries regarding any new fund which may subsequently be created, and several blank pages must follow the statement of receipts and expenditure of each fund, so as to admit of the accounts being carried on in the same book for a number of years All trust money remitted to the treasury by the officer, and belonging to funds entered in this book, will be credited to a personal ledger account, to be headed "Trust moneys of the (official title of officer)," and the order of remittance should expressly state in each case that the money is to be so credited In order to prevent the unnecessary multiplication of personal ledger accounts on the books of the Accountant-General, all trust money in any district in the hands of a single officer and of his subordinate must appear in that officer's account only For the purpose of this rule the Magistrate and the Collector are to be treated as a single officer

As a rule, no money will be credited to this account unless it be remitted to the treasury by the officer in charge of the fund, and no payments will of course be made except upon his order The sum of the balances shown in the book called the "Account of trust moneys administered by (official title of officer)" will agree with the balance shown in the personal ledger account of the treasury As a rule, the officer administering a fund will find it convenient to pass all receipts through the personal ledger account, but this course need not be followed where its adoption would give rise to inconvenience When the scheme for the inspection of the accounts of municipal and local funds is introduced, the local auditors will be required to inspect from time to time the accounts of all Trust Funds, but in the meantime it must be understood that all inspecting officers, when visiting the office of a subordinate who has charge of Trust Funds, will examine the "Account of trust moneys" to see that it is properly kept up, and that the total balance agrees with that shown in the treasury books The Accountant General will now issue such further orders as he may consider necessary to ensure the periodical agreement and verification of balances Every officer must submit once a year to the head of his department, or to Government, a brief account of the Trust Funds managed by him during the year, stating in the shortest form the object of the funds, the receipts and expenditure during the year, and the balances at the end of the year Any head of a department who may receive such reports will transmit them to Government with such remarks as he may consider necessary

6. Precisely the same procedure may be followed in all cases where a public institution, in which a Magistrate or other officer of Government is interested, is allowed to place its balance in the treasury for safe custody, and in this way the necessity for depositing money which does not appear in the accounts in sealed bags or boxes in the public treasury will be avoided

It will of course be understood that the procedure here set forth will not apply to any case in which a single deposit of trust money is made As a rule, no trust money will come under these rules unless the transactions in connection with it are likely to extend over a period exceeding one year

7 Every officer administering a Trust Fund should now take steps to prepare the list and brief description of funds referred to in paragraph 5 of this Resolution

On completion of this list, he will submit it through the head of his department to the Accountant-General, on whose approval the "Account of trust moneys administered by the (official title of officer)" may be opened at once. No new fund should be added to this list without the previous sanction of the Accountant-General

8 The orders now given will have the effect of removing from the Accountant-General's books the separate record of several petty funds, but any necessary subsidiary orders concerning them will be issued by the Accountant-General

Most of the small Trust Funds belong to the Education Department, and it will be convenient that the exact form of the book, to be entitled the "Account of Trust Funds administered by the (official title of officer)" should be settled by the Accountant-General in communication with the Director of Public Instruction

ORDER —Ordered that a copy of the above Resolution be forwarded to the Accountant-General, to all Commissioners of Divisions, all District Magistrates, and to the Director of Public Instruction, for information and guidance, and to the Judicial, Political, Revenue, and General Departments of this office for information.

By order of the Lieutenant-Governor of Bengal,

Exportation of Spirits under Bond for Excise duty

Section 111 —1 No spirit on which the full duty has not been paid is to be allowed to leave a distillery, whether private, licensed, or public, unless the following marks are legibly painted or cut on each end of the cask containing the spirit, viz the name of the distillery, the known mark of the proprietor, and the quantity and strength of the spirit contained in the cask (the strength being ascertained by a hydrometer) For instance, the marks on a cask of Dhobah Rum stand thus —

2 Spirit for exportation by sea may be removed without payment of duty from a licensed distillery to the Custom House, and from the Custom House, on the person so removing them executing the bond required by section 144 of the Act for the payment of full duty in case of failure to export within four months, or to satisfy the Chief Customs Officer that the spirit has been landed at some other port within British India, not being a free port The bond is taken by the Chief Officer of Customs

3 A member of some established house of business at the port of exportation must be one of the parties bound, and the parties bound are jointly and severally answerable for any amount which may ultimately fall due under the bond

4 The Chief Officer of Customs may refuse the security tendered, without assigning any reason, except in the event of an appeal from his decision.

5 The distillery and apparatus is considered as pledged for any amount which may become due under the bond

6 On a bond being duly executed, and its execution certified by the Chief Officer of Customs, the Collector of Excise Revenue will grant a pass for the spirit bonded, without payment of the duty

7. On the spirit being brought to the Custom House for exportation, the exporter must declare, in writing, by what bond it is protected, and produce the pass of the Collector of Excise Revenue and the distillery invoice The spirit is then gauged for quantity, and proved to ascertain the strength, by a Custom House Officer If the quantity and strength so ascertained be the same as that marked

° Meaning 5 degrees over London proof

on the casks (the casks being the same which were removed from the distillery), the spirit is allowed to pass for export by sea, and the quantity is written off on the bond If the quantity and strength be not the same as that marked on the casks, duty is levied on the difference, as provided by section 147 of the Act

8 The following rules should be observed for gauging casks lying with the bung-rod, whether the spirit be required for exportation or for local consumption Government officers must, however, bear in mind that the results obtained from simple measurement by the bung-rod are only approximate Other instruments and professional skill are needed to ascertain the exact contents of a cask [*N B*—The bung-rod has four sides, of these two opposite sides are marked in inches and tenths for taking diameters, a third is marked in imperial gallons for taking the "capacity" according to the diagonal line, the fourth relates only to the calculation of superficial circular gallons, and is not ordinarily used]

(1) Take care that the cask is laid perfectly horizontal with the bung exactly at the top

(2) Measure by the side of the rod showing imperial gallons, from the centre of the inside of the bung-stave to the lower chunt (*i e* where the head fits into the staves) at each end of the cask The mean between the measurements so ascertained is the "capacity" of the cask.

(3) Measure by the side of the rod marked in inches the diameter from the inside of the bung-stave to the stave directly below it at the bottom This gives the "bung diameter"

(4) Measure by the same side of the rod the depth in inches of liquor in the cask This gives the "wet inches"

(5) Turn to the page of the Ullage tables* which is headed with the ascertained "capacity," look along the top for the column corresponding to the "bung diameter," and under this opposite the "wet inches" (shown in the left hand column) will be found the "ullage" or liquid contents of the cask

* The tables referred to are a reprint from the "Imperial Ullager, and can be had on application to the Board of Revenue

9 When the entire bonded quantity is written off upon the bond, the Chief Officer of Customs should cancel the bond.

10 It is for the exporter to see that the exports made from time to time under a bond are properly written off, or certified on the bond, and he must testify, by his signature to the entries, that the exports are correctly written off

11 If, at the expiration of the period named in the bond and in section 144 of the Act, the entire quantity of spirit covered by the bond has not been accounted for as required in the Act, and written off as provided in the preceding clause, the Chief Officer of Customs will proceed to recover the duty due upon the quantity of spirit which may not have been so accounted for, unless the currency of the bond shall have been renewed.

12 Time-expired bonds may be renewed at the discretion of the Chief Officer of Customs for a further period not exceeding four months from the date of the expiration of the first currency. On the expiration of the second currency, the Chief Officer of Customs will proceed to adjust such time-expired bonds and levy duty on the quantity of spirit unaccounted for

13 A maximum allowance, according to the following scale, is made on account of ullage and leakage on spirit removed under bond from a distillery in the interior for exportation by sea, and on spirit imported from the Madras Presidency into Orissa —

For a distance not exceeding 100 miles,	5	per centum
For a distance above 100 miles, but not exceeding 200 miles	7½	ditto
For all distances exceeding 200 miles	10	ditto

14 In the case of spirit exported under bond to another port within British India (not being a free port), in adjusting the bond, an allowance for wastage and leakage during the sea voyage is made, for a voyage of one month, at the rate of two per cent, and for any longer voyage, at three and a half per cent

15 Spirit for use as ships' stores during the voyage may be shipped, free of duty, on vessels clearing to a foreign port Passes for such spirit are, however, detained at the Custom House until the vessel for the use of which it is intended is actually under clearance, when they are made over to the shipper's servants. Such shipments must be made under bonds, to be cancelled on production of a certificate from the preventive officer on the ship that no portion of the spirits covered by the bond has been consumed in port The bond is in the form C prescribed by section 144 of the Act, *mutatis mutandis*

NOTIFICATION

The 31st March 1879 —The following rules under the provisions of sections 9 and 155 of the Sea Customs Act VIII of 1878 having been approved by the Lieutenant-Governor, are published for general information, as required by section 204

- Preventive Officers, or Officers of the Preventive Service
- Appraisers
- Superintendent of Salt Golahs

2 The Collector of Customs shall be competent to exercise all or any of the powers conferred, and to perform all or any of the duties imposed, upon an Officer of Customs by this Act. Where, as in Calcutta, the Collector is also the Chief Customs Officer, he shall also be competent to exercise all or any of the powers conferred, and to perform all or any of the duties imposed, on the Chief Customs Officer by this Act

3 The Deputy Collector and Assistant Collector of Customs shall be competent, in the temporary absence of the Collector of Customs, to exercise all or any of the powers conferred on that officer Ordinarily the Assistant and the Deputy Collector, and all the other officers referred to in section 1, are subordinate to the Collector of Customs, and, except as hereinafter provided, shall be competent to exercise such of the powers conferred, and to perform such of the duties imposed, upon Officers of Customs by this Act, as the Collector may require of them, and to perform all or any of the duties, whether mentioned in this Act or not, as are ordinarily comprised in the management of a Custom House

4 The Preventive Officers are specially employed for the purpose of preventing smuggling Their duties consist in guarding vessels, and in preventing the shipment or landing of cargoes before a proper pass has been produced, or until the requirements of the Act have been carried out in respect of such cargo Their ordinary duties are those enumerated in sections 17, 53, 54, 67, 68, 69, 70, 76, 83, 120, 141, 143, 169, 170, 171, 173, 178, 181, and 194

5 The duties of Appraisers are principally connected with the examination and classification of goods, and are ordinarily those referred to in sections 27, 29, 31, 32, 33, 34, 37, 39, 42, 43, 44, 45, 46, 47, 48, and 194

7 If any dispute arises between any Officer of Customs and any Master of a vessel, or owner of goods, or other persons, relating to the importation, exportation, and warehousing of any goods, or to the proper rate of duty payable in respect thereof, or to the levy of any duty or penalty thereon, or to any seizure or forfeiture thereof, the Collector of Customs shall decide such dispute, subject to an appeal to the Chief Customs Authority, as provided in the Act

8 For the purpose of determining claims to drawback under the provisions of sections 42 and 43, the date of importation of any goods shall be deemed to be the date on which the bill-of-entry thereof was delivered to the Customs Collector under section 86

9 In order to obviate the loss and damage which is known to be caused to the owners of goods landed from ships under sections 83, 84, and 85, for which no claim is made within the period prescribed, and which are therefore liable to sale under section 88 of the Act, the Customs Collector may permit the Master of the vessel, or his agents applying to act for him under section 5 of the Act, to take delivery of all such unclaimed goods upon paying all duties and charges which are due upon such unclaimed goods, and also entering into a bond whereby he, or his agents so acting for him, shall undertake to meet all claims which may be preferred in respect of any goods so delivered to the Master of any vessel or his agents aforesaid

10 When any goods are seized by an Officer of Customs for any infringement of the provisions of the Act, and any penalty or confiscation shall have been adjudged in consequence, it shall be competent to the Customs Collector to award to such seizing officer a part of the penalty imposed, or a part of the sale-proceeds of such confiscated goods, not exceeding two-fifths of the whole, after deducting the Government duty, if any, and any charges which may have been incurred in conveying the goods to the Custom House

11 Whenever an amendment of the valuation stated in a bill-of-entry is permitted under the last clause of section 32, and excess duty, together with a penalty, is levied in consequence, the whole or a part of such penalty shall, at the discretion of the Chief Officer of Customs, be payable to the officer who detected the under-valuation of the goods

12 No refund of duty on account of the re-landing or short shipment of goods shall be granted unless application is made within three months from the date on which information of such short shipment or re-landing was given to the Customs Collector under the provisions of section 140

13 Preventive Officers are required to bring to the immediate notice of the Conservator of the Port or of one of his subordinates any infringement of the rules for the prevention and suppression of fires on ships within the port of Calcutta, especially of those regarding the use of lights and fires that they may observe while on duty on board ships in port

14 The following rules are prescribed in connection with the parcel-post system between Ceylon and Calcutta, and between the Straits Settlements and Calcutta —

(*a*) On the arrival of any parcels from a foreign port, the Postmaster shall give notice to the Collector of Customs of such arrival, and shall not take any steps to deliver such parcels until the arrival of an officer deputed to attend by the Collector

(*b*) Immediately on the receipt of notice from the Postmaster, the Collector shall send to the post office an Appraiser, or other competent officer, to determine the amount of Customs duty payable on the parcels

(*c*) The Customs Officer is, as a general rule, to be guided by the declaration of the senders with regard to the contents of parcels, but should he have reason to doubt the correctness of such declaration, he may order the detention of the parcels, and the Postmaster shall on his requisition detain them, pending receipt of the Collector's orders as regards their examination

(*d*) The Appraiser shall be provided with a book containing parcel-post passes in triplicate, as per form annexed Of these passes, the Appraiser shall fill up, sign, and give to the Postmaster, in exchange for the amount of duty, one form, and shall fill up a second, which will be retained in the book as a counterfoil The third form shall be filled up by the Appraiser, but signed by the Postmaster, and delivered to the Appraiser at the post-office entry of the goods On this latter document the duty is to be passed to account, the cashier giving a receipt for the money, and the Import Supervisor certifying that it has been duly entered in the registers The short copy counterfoils are to be signed each day by the accountant as an acknowledgment that the sums realized have been duly paid in from the Appraisers' Department.

Spirit rendered unfit for human consumption

Section 155 —] Spirit imported into British India for use exclusively in arts, manufactures, or chemistry, which has been rendered effectually and permanently unfit for human consumption, is subject only to an *ad valorem* duty of 10 per cent under Article 32, Schedule A of the Indian Tariff Act, XVI of 1875

2 Whenever such spirit is imported from the United Kingdom into any port of the Bengal Presidency, before it can be admitted at the reduced rate of duty as aforesaid, the importer must satisfy the Collector of Customs at that port that the spirit has been rendered effectually and permanently unfit for human consumption, by the production of a certificate from a competent Customs or Excise authority of the United Kingdom that the spirit has already been subjected, under proper supervision in the United Kingdom, to a process by which it has been rendered effectually and permanently unfit for human consumption

3 If the importer cannot so satisfy the Collector of Customs, the latter shall cause such spirit to be examined, and, if necessary, rendered unfit for consumption in the manner hereinafter described as applicable to spirit imported from other countries than the United Kingdom

4 Whenever such spirit as aforesaid is imported from other countries than the United Kingdom into any port of the Bengal Presidency, the Collector of Customs at that port shall send a sample of such spirit to the Chemical Examiner for examination and report, at the expense of the importer, and if the Chemical Examiner shall certify that the spirit has been rendered effectually and permanently unfit for human consumption, the Collector of Customs shall admit it at the reduced rate of duty

5 Whenever imported spirit is to be rendered effectually and permanently unfit for human consumption by Officers of the Customs Department, the ingredient to be used for admixture with the spirit shall be caoutchoucine, and it shall be mixed with the spirit in the proportion of one part and half a volume of the caoutchoucine to 98½ parts of volume of the spirit which shall not be of less strength than 30 per cent over-proof

6 But when it can be proved to the satisfaction of the Board of Revenue that the presence of caoutchoucine will render the spirit unsuitable for the purpose for which it is required, special sanction may be obtained for the use of wood-naptha instead of caoutchoucine In this case one part of volume of crude wood-naptha shall be mixed with nine parts of volume of spirit having a strength not less than 30 per cent over-proof

7 The caoutchoucine or the wood-naptha, however, before its admixture with the spirit, must be tested by the Chemical Examiner to Government, who must certify to the Collector of Customs that it is of the proper strength, fitted, if used in the proportions mentioned in rule 5 or 6, to effectually and permanently render unpalatable and unfit for human consumption the spirit with which it is mixed

8 Any expense which may be incurred by the Collector of Customs in rendering spirit unfit for human consumption, or in ascertaining that it has been so rendered, must be paid by the importer

9 The use of spirit methylated or caoutchoucined according to these rules is not permitted in the manufacture or preparation of tinctures, medicated spirits, hypo-nitrous ether, or other pharmaceutical preparations, or in the manufacture or preparation of any other article capable of being used as a beverage, or internally as a medicine, with the exception of sulphuric ether, chloroform, and chloral hydrate

NOTIFICATION

The 9th April 1879.—It is hereby notified for general information that, under the provisions of section 269 of the Code of Civil Procedure (Act X of 1877), the Lieutenant-Governor has passed the following rules for the maintenance and custody, while under attachment, of live stock and other moveable property above the value of 20 rupees —

I The attaching officer shall give the debtor, or, in his absence, any present adult member of his family, the option of having the attached property kept on his premises or in some other place in the village, on condition that a suitable place for its safe custody be provided by him

II If no such suitable place be provided, the officer shall remove the property to the Court at the decree-holder's expense In the event of the decree-holder failing to provide the necessary funds, the attachment shall be withdrawn

III Whenever attached property is kept at the place where it is attached, the officer shall forthwith report the fact to the Court, and shall, with his report, forward an accurate list of the property seized, such that the Court may thereon at once issue the proclamation of sale prescribed by section 287

IV If the debtor shall give his consent in writing to the sale of the property without awaiting the expiry of the term prescribed in section 290, the officer shall receive the same and forward it without delay to the Court for its orders

V When property is removed to the Court, it shall be kept by the Nazir on his own sole responsibility in such place as may be approved by the Court If the property cannot, from its nature or bulk, be conveniently kept in the Court premises, or in the personal custody of the Nazir, he may, subject to approval by the Court, make such arrangements for its safe custody under his own supervision as may be most convenient and economical, and the Court may fix the remuneration to be allowed to the persons, not being officers of the Court, in whose custody the property is kept

VI When property remains at the place where it is attached in the custody of the attaching officer, and any person other than the judgment debtor shall claim the same or any part of it, the officer shall nevertheless, unless the decree-holder desires to withdraw the attachment of the property so claimed, remain in possession, and shall direct the claimant to prefer his claim to the Court

VII If the decree-holder shall withdraw an attachment, or if it shall be withdrawn under Rule II or Rule IX, the attaching officer shall inform the debtor, or, in his absence, an adult member of his family, that the property is at his disposal

In the absence of any person to take charge of it or in case the officer shall have had notice of claim by a person other than the judgment-debtor, the officer shall, if the property has been moved from the premises in which it was seized, replace it where it was found at the time of seizure

VIII Whenever live stock is kept at the place where it has been attached, the judgment-debtor shall be at liberty to undertake the due feeding and tending of it under the supervision of the attaching officer, but the latter shall, if required by the decree-holder, and on his paying for the same at a rate to be fixed by the District Judge, and subject to the orders of the Court under whose orders the attachment is made, engage the services of as many persons as may be necessary for the safe custody of it

IX In the event of the judgment debtor failing to feed attached live-stock, the officer shall call upon the decree-holder either to pay for feeding it on the spot or for the expenses attending its removal to the Court If the decree-holder shall fail to provide for either, the officer shall report the matter to the Court without delay

X When attached live stock is brought to Court, the Nazir shall be responsible for the safe custody and proper feeding of it, so long as the attachment continues

XI If there be a Government pound in or near the place where the Court is held, the Nazir shall be at liberty to place in it such attached live-stock as can be properly there kept, in which case the pound-keeper will be responsible for the property to the Nazir, and shall receive the same rates for accommodation, and maintenance thereof as are paid in respect of impounded cattle of the same description
